

"Evil Dispositions Are Early Shown."

Just so evil in the blood comes out in shape of scrofula, pimples, etc., in children and young people. Taken in time it can be eradicated by using Hood's Sarsaparilla. In older people, the aftermath of irregular living shows itself in bilious conditions, a heavy head, a foul mouth, a general bad feeling.

It is the blood, the impure blood, friends, which is the real cause. Purify that with Hood's Sarsaparilla and happiness will reign in your family.

Blood Poison.—I lived in a bed of fire for years owing to blood poisoning that followed small pox. It broke out all over my body, itching intensely. Tried doctors and hospitals in vain. I tried Hood's Sarsaparilla. It helped. I kept at it and was entirely cured. I could go on the locomotive and about about it. —Mrs. J. T. Williams, Carbonville, Pa.

Scrofula Sores.—My baby at two months had scrofula sores on cheek and arm. Local applications and physicians' medicine did little or no good. Hood's Sarsaparilla cured him permanently. He is now four, with smooth, fair skin. —Mrs. S. S. Warren, Farmington, Ind.

Hood's Sarsaparilla
NEVER DISAPPOINTS

Hood's Pills cure liver, bile, and indigestion and only cathartic to take with Hood's Sarsaparilla.

A single walnut tree recently felled in Cass county, Mich., was seven feet in diameter at the base. It is estimated that it will yield \$700 worth of lumber.

Nervous People.
Nervous people not only suffer themselves but cause more or less misery to everyone around them. They are fretful, easily worried and therefore a worry to others.

When everything annoys you, when your pulse beats excessively, when you are startled at the least unexpected sound, your nerves are in a bad state and should be promptly attended to.

Nervousness is a question of nutrition. Food for the nerves is what you need to put you right, and the best nerve food in the world is Dr. Williams' Pink Pills for Pale People.

They give strength and tone to every nerve in the body, and make dependent, easily irritated people feel that life has renewed its charms. Here is proof:

Mrs. Cora Watson, the sixteen-year-old daughter of Mr. T. C. Watson, of Clinton St., Bradford, Pa., was seized with a nervous disorder which threatened to end her life. Her mother, who was a nurse, had her daughter taken to Dr. Williams' Pink Pills for Pale People, which were highly recommended for nervous disorders, and gave them a course. Before the first box had been taken the girl's condition improved. After using six boxes her appetite returned, she gained in her head, and she was stronger than ever before. Her mother said: "My daughter's life was saved by Dr. Williams' Pink Pills for Pale People."—Mrs. Watson. Her condition was almost hopeless when she commenced taking them, but now she is strong and healthy. I cannot recommend these pills too highly. —Bradford (Pa.) Dr.

The full name is on each package. Sold by all druggists or sent, postpaid, by the Dr. Williams' Medicine Co., Schenectady, N. Y. Price 50¢ per box, 6 boxes \$2.50.

Not What She Expected.

Faith—I saw your friend, Mrs. Fangle, get on the train and leave town with a married man this morning.

Mrs. Fangle (deeply interested)—Well, I've been expecting a scandal in that quarter for some time. Who was it with the shameless thing?
"Her husband."—Harlem Life.

China's Powerful Sword.
There is a dreadful sword in China. It gives the holder power to cut off the head of any one he wishes without punishment. All people fear from this sword as much as the scrofula. It is the aftermath of irregular living shows itself in bilious conditions, a heavy head, a foul mouth, a general bad feeling.

THEY WANT TO TELL

These Grateful Women Who Have Been Helped by Mrs. Pinkham.

Women who have suffered severely and been relieved of their ills by Mrs. Pinkham's advice and medicine are constantly urging publication of their statements for the benefit of other women. Here are two such letters:

Mrs. LIZZIE DEVERLY, 258 Merrimac St., Lowell, Mass., writes:

"It affords me great pleasure to tell all suffering women of the benefit I have received from taking Lydia E. Pinkham's Vegetable Compound. I can hardly find words to express my gratitude for what she has done for me. My trouble was ulceration of the womb. I was under the doctor's care. Upon examination he found fifteen very large ulcers, but he failed to do me good. I took several bottles of Lydia E. Pinkham's Vegetable Compound, also used the Sanative Wash, and am cured. Mrs. Pinkham's medicine saved my life, and I would recommend it to all suffering women."

Mrs. AMOS THOMBLEY, Ellenburgh Cir., N. Y., writes:

"I took cold at the time my baby was born, and was sick in bed for three weeks. Doctors did me no good. I surely thought I would die. I was also troubled with falling of the womb. I could not eat, had faint spells as often as ten times a day. One day a lady came to see me and told me of the benefit she had derived from taking Lydia E. Pinkham's medicine, and advised me to try it. I did so, and had taken only half a bottle before I was able to sit in a chair. After taking three bottles I could do my own work. I am now in perfect health."

Aunt Diana Heard Frazar.
"Having," I called Aunt Diana in a loud voice, "you on Miami Snowflake cum in head die berry instance an stop playin' wif dem air white folks' children. All do wants is 'learn a lot ob cakewalk 'n' on dey won't had nothin' 'n' do wif you."—Ohio State Journal.

The Modern Battle.
Said the famous general to his chief of staff: "Are the correspondents ready?"
"They are, sir!"
"Have they been informed that I have a new uniform on?"
"Yes, general."
"Have the photographers done their duty?"
"They have, sir."
"Then let this battle go on."—Boston Transcript.

The Stepmother.

"I'm disgraced," cried Gertrude Foster, passionately.

"That is a fact," returned her brother, coolly, "but what are you going to do about it?"

The young man was lying in a hammock, swung at the end of the piazza; his sister was seated near him, in a rocking chair, which she kept in vigorous motion, as though thereby trying to accentuate her remarks concerning the letter she held in her hand.

A boy about 10 years of age was lounging on the steps, with a novel before him, but the contents of that epistle had apparently taken away his interest in the story, for he was not reading.

"You surely are not surprised, Gertrude," continued the occupant of the hammock, "I have been noticing for some time the care father took in making his toilet, when he went out on business. Business?" laughing derisively; "my stern parent never fooled me much. I thought he was going a wooing."

"Yes," returned Gertrude, "but how can a man with a heart full in love again—so soon, anyway?"

"Maybe she was his first love, from whom he was separated by a misunderstanding," said Harold, putting his hand over his heart sentimentally.

"Hill! the rain has stopped, and there comes a heavy stable carriage. How dramatic! Hair stop, enter here! Come along, Jim; we would not be here to embarrass the greetings of two young and loving hearts." He disappeared through the door, while Jim slowly followed in his lazy, languid way, saying, "Tell Dick I will see him at supper."

By this time the carriage had entered the gates and was coming rapidly up the long avenue that led to the house. The Fosters prided themselves on their well-kept grounds, especially the drive from the lodge gate to the house, which was bordered on either side by maple trees.

They gave a delightful shade during the summer months, and their gorgeous foliage in the fall made the Foster place the glory of the neighborhood.

But neither Richard nor Gertrude thought of the maples as he was driving under them that afternoon. He had been abroad two years; his only thought was that, at last, he was really to be with his fiancée once more. While she forgot her father's second marriage, in joy of seeing her lover again, they had not after they had been together an hour or two Gertrude remembered the letter and her face fell.

"O, Dick," she said, "father is married again. I received a note just a few minutes before you came, telling me about it. He said he should be home in a few days and wanted me to have everything done to make her home-coming pleasant."

"Dick looked grave—then replied: 'Well, it will be only for a little time, but, cheerfully, I will take you away right off, if you like.'"

Gertrude laughed. "O! I guess I can support her presence a few weeks, but isn't it dreadful for a man to get married a second time?"

"Awful," he returned, with conviction. Then, after a second's pause: "I mean as a rule; of course, there are exceptional cases. That reminds me," he added; "you have heard me speak of my aunt Marion?"

"The aunt who, you say, has redeemed the race of old maid in your estimation," asked Gertrude.

"The same," he answered. "Well, mother wrote me some time ago that she was going to be married. I suppose I shall hear all about it to-night when I go home. You know," he continued, "a great many years ago Aunt Marion fell in love. She was boarding in the country at the time, and, although he respected her affection, they had not confessed their mutual attachment when her nearest friend came to board at the same place. This young lady also was fascinated by the same gentleman, and began to think how she could supplant my aunt in his estimation. She had recourse to strategy; told numberless falsehoods to both of them, and managed, in a short space of time, to provoke a quarrel between them."

"Aunt Marion was proud and sensitive, sought no explanation from her willow admirer, trusted her friend, and lost her lover."

"In a year or two she heard of their marriage, which opened her eyes a little and caused the girl's friendship to be broken off. Two years ago she received a letter from this woman, who, it seems, was dying, confessing the whole truth. She also left an explanation for her husband, which he found when she was dead. After a while Aunt Marion acceded to the widower's repeated entreaties to be allowed to call, and in a few months they were engaged. I guess my prospective uncle made the other woman a good husband, but he did not really love her, for his wife wrote that he had never forgotten his first love, and only married her in gratitude for the sympathy and tenderness she showed when telling how my aunt had deceived him. I think," continued Richard, "that I would never have made known the truth if I had been in her place. But I suppose the voice of conscience gets loud in the presence of death. It was a tardy repentance."

"Dick, what is your aunt's name?" asked Gertrude, abruptly.

"Why, the same as my mother's," he answered, somewhat astonished at the question; "Moore, Marion Moore. Pretty name, isn't it?" he added. "Too pretty to change, I think. Why, Gertrude, what is the matter?"

For the girl had grown deathly white, and did not seem to hear his last remark.

"Nothing," she said at last, making an effort to recover her self-possession.

"What is that for?" asked Richard, agitated. "I did not mean to hurt you; surely you are not going to punish me like that, when I offended so unintentionally."

"No," asked Gertrude, "it isn't that, only I shouldn't think you would want to marry the daughter of such a mother."

Richard laughed as he took the ring and placed it on Gertrude's finger again.

"What a silly child you are!" he said, fondly. "It wouldn't make any difference to me, if you did not love me. You were in the penitentiary. You would not be responsible for their sins. Besides, I suppose your mother thought she had every right to try and win your father. He was not engaged to my aunt, you know, and they say all is fair in love and war. So think no more about it, and we will never mention it again."

Gertrude never did mention it again, but she thought about it many times; and when Mr. Foster brought his wife home he found everything arranged to his liking.

He had said to her: "The boys will be all right, and if Gertrude does not treat you as an enemy, you will be all right." "Never, James," replied Mrs. Foster, "for you might be tempted to tell her the history of the years that are gone, and children should reverence their mother's memory, which I doubt if she could do, knowing all."

But there was no trouble. Gertrude treated her stepmother with the utmost respect and courtesy, and he had not such a word to say that Mrs. Foster actually dreaded the girl's wedding day.

As she watched the carriage that contained her nephew and his bride drive down the maple avenue, now resplendent in its autumn colorings, she sighed—then turned toward her husband, who was standing near by. "I never thought to have loved Louisa's child so well," she said.—Exchange.

SANS SMELL—SANS TASTE.

Man with His Nose Closed Cannot Tell Tea from Coffee.

It would now seem from experiments, which have been carried on in the University of Iowa, that we do not taste many of the things which we eat at our daily meals. It is asserted confidently that we merely smell them. If the nose is tightly closed in the ordinary man and he is blindfolded, he will not be able to distinguish coffee from water or a weak solution of quinine. This has been proved by experiments made on many persons. Common coffee was said to be water, it was also said to be quinine. Water was said to be coffee. Tea was called coffee. Turkey was called pork. Raw apple was called grape juice. Malt extract was sherry wine. Lard was pronounced butter. In short, experienced persons were unable to distinguish many common foods and drinks when sensations of smell were removed, and the conclusion was reached that a person might even practice economy in eating by merely blindfolding the eyes and substituting lard, pork and beer for butter, turkey and venison, while if the further precaution was taken to close the nose, a very weak solution of quinine would pass for good coffee and vinegar for the most costly wine.

The experiments which led to these conclusions were carried on by Prof. G. T. W. Patrick, of the University of Iowa, who has just communicated some of the results of his work to the American Psychological Society. Prof. Patrick was enabled to attain great accuracy in his work by the fact that one of the persons he experimented upon was an amonose, that is, absolutely devoid of the sense of smell. He was enabled thus to determine which sensations were those of taste and which were smell. He experimented also on normal subjects, and some of the results were surprising.

There are only four simple taste sensations, namely, sweet, bitter, sour and salt. It is said by some that there are only two, sweet and bitter. All other sensations which are commonly called tastes are complex results of sensation of smell, touch, temperature and sight. The means by which we distinguish almost all of our common foods and drinks is not the sense of taste so much as it is the sense of smell, touch, temperature and sight. All the fine differences by which we distinguish the various fruits, meats and drinks depend not upon taste at all, but upon these other senses. Pure sensations of taste add hardly more than a certain emotional element to the complex sensations.

Don't think you can get on to the curves of a railroad by looking at the company's map.

It's as hard to hide indifference as it is to conceal love.

To Bring Congressmen to the Coast.

Senator Addison G. Foster is working hard to bring a delegation of Eastern senators and congressmen to the coast to visit Washington and Alaska. On their return East the senator would have them visit other points of interest and growing communities about which little is known in the East. The most influential men of both houses, men who sit on the committees which have to do with affairs of the West, and particularly of Puget sound, Alaska and the Pacific islands, are the ones Senator Foster desires to bring to the West.

Choutie's Body Found.
The party that went in search of the body of A. J. Choutie has returned to Seattle and reports having found the remains about a mile and a half in the back trail from where the bodies of Radr and Heikmann were found. Choutie was evidently the first of the party to die, as his body had been dragged down the side of a hill for over 100 yards and placed under a log in a sheltered place. The body was well preserved.

Sheepmen Disappointed.
Yakima county sheepmen are not satisfied with the situation at the present time. The winter and spring were unusually productive of loss. The losses in some bands amounted to 5 or 10 per cent. The increase, instead of being 25 per cent and upward, as is ordinarily, runs from 15 to 25 per cent.

Spokane Pure Food Law.
The Spokane Retail Grocers' Association has given its endorsement to the pure food law.

To Teach Economy.
A savings bank system is to be introduced in the public schools at Everett.

FRANCES WILLARD HOSPITAL

USES PE-RU-NA FOR CATARRH OF THE STOMACH

The Frances Willard Hospital, Chicago, Ill.

Miss Georgiana Dean was for three years missionary in Liberia under the M. E. church from the training school in Chicago. After her return she studied nursing, graduating from the present Frances E. Willard National Temperance Hospital of Chicago. She is an enthusiastic friend of Pe-ru-na, as is evident from the following letter:

Chicago, Ill., Jan. 20, 1899.

Pe-ru-na Drug Manufacturing Co., Columbus, O.

Gentlemen—You will be glad to know of the happy results obtained from the use of Pe-ru-na among the patients under my care whenever pro-

scribed by the physician. I have seen some very remarkable cures of cases of very obstinate catarrh of the stomach, where Pe-ru-na was the only medicine used. I consider it a reliable medicine.

Georgiana Dean.

The symptoms of catarrh of the stomach are: Coated tongue, pain or heavy feeling in the stomach, belching of gas, dizzy head, sometimes headache, despondent feelings, loss of appetite, palpitation of the heart and irregularity of the bowels.

Send for a free book written by Dr. Hartman, entitled "Health and Beauty." Address Dr. Hartman, Columbus, O.

"What Do You Want?"
An old Italian man on the stand in one of the circuit courthouses one day, and the attorney cross examining him had a hard time to elicit any information. He worked around one particular point, and pitted the witness with about a dozen questions. At last, growing tired of his fruitless examination, he asked, rather impatiently: "Well, can't you tell me something?"

"Well, what would you like me to tell you?" asked the witness, blandly, and that floored the attorney.—Detroit Free Press.

Gold has been found by some Minnesota soldiers in the streams of the San Juan and Monte Blanco mountains near Manila. Our volunteers are anxious for peace, so that they can turn miners.

BAD BLOOD

"CASCARETS are all claimed for them as a medicine to take and all claim to be the best. I have tried many of them and have found that Cascarets are the best. I have tried many of them and have found that Cascarets are the best. I have tried many of them and have found that Cascarets are the best."

Paris has a museum of objects relating to the ballet. It includes everything worn by famous dancers. There are also casts of the feet of these terpsichoreans, among them being one of Miss Vestris' feet. It was made for Lord Fitz at a cost of \$1,000, and sold after his death for a couple of shillings.

More than 2,000,000 trees have been planted along the line of the Northern Pacific Railroad in North Dakota, to serve as protection from the blizzards.

It is estimated that the potato crop of Aristok county, Me., will reach 5,000,000 bushels, and 8,000 tons of starch will be made.

The readers of this paper will be pleased to know that there is a latest and best medicine for the cure of all skin diseases, and that medicine is Dr. Carter's Syrup of Figs. It is the only medicine known to the medical fraternity which has a constitutional effect, and is a most reliable remedy for all skin diseases. It is a most reliable remedy for all skin diseases. It is a most reliable remedy for all skin diseases.
