The Mexicans have a very queer way of burying the dead. The corpse is tightly wrapped in matting and placed in a coffin hired for about a quarter. One or two natives, as the case may be, place the coffin on their heads and go at a trot to the grave, where the body is interred and the coffin is then returned.

An Excellent Combination. The pleasant method and beneficial effects of the liquid laxative principle of the CALIFORNIA FIG SYRUP CO. illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

HEAVY BANK CLEARINGS.

Were Nearly Fifty Per Cent Larger Than a Year Ago.

T. G. Dun & Company, in their weekly review of trade, say:

There is certainly room for some decrease, when the volume of payments through the clearing-house, in July, is \$7.2 per cent larger than last year, the best of all previous years. So great an advance would warrant expectation of some setback under ordinary circumstances. This year, the unusual freedom from labor troubles, about July 1, is followed by some signs of a tendency to strike, because great works are committed far ahead and cannot halt without loss. But interruption of business by labor troubles of all sorts has been less than in any other July for years. Nor is the movement of products hampered. Western receipts of wheat in July have been 18,809,828 bushels, against 7,369,333 bushels last year to date, and corn, 20,485,451 bushels, against 9,173,303 bushels last year, even the latest week showing large gains over last year. Exports of wheat, from both coasts, were 9,352,320 bushels, from included, against 8,332,192 bushels last year. Copper is strong, with spot scarce and lead weak at \$4.55, but tin is quoted at \$31.55, London leading as usual.

Shipments of boots and shoes from the East, in four weeks, have been 394,374 cases, against 360,535 last year; and in 1900, the nearest previous year, 351,359 cases. Leather continues strong and scarce, with a combination of packers lifting prices of hides at Chicago, so that many of the takers are quitting that market.

Failures for the week have been 151 in the United States, against 225 last year, and 20 in Canada, against 26 last year.

IN AND ABOUT A MINE.

Blind Lode—One that shows no surface croppings.

Placer—Alluvial deposits; earth containing gold dust.

Foot Wall—The lower wall or side of a lode or vein.

Cap-rock—The formation overlying the dirt or ore.

Wall—Boundary of the vein, lode or ledge and enclosing the same.

Breasting—Taking ore from the face of a mine or head of a drift.

Adit—A tunnel or vein or lode—a passage for water underground.

Shaft—A vertical or incline excavation for prospecting or working mines.

Hanging Wall—The upper wall, the rock or wall resting on the lode or vein.

Deposit—A body of ore distinct from a lode; a pocket of gravel or pebbles.

Croppings—Lodge matter lying upon the surface, or the outcropping of a vein.

Upraise—Running a drift upward or rising above a shaft or level, instead of sinking.

Winze—A shaft connecting one drift level with another, but not reaching to the surface.

Hoop—A mass of wall or rock or other barren matter protruding into an opening lode or fissure.

Contact Lode—A lode lying between two different kinds of rock, as, for example, porphyry and slate.

Bed-rock—The bed of a metalliferous deposit, commonly applied to the slate underlying auriferous gravel.

Drifts—Tunnels leading off from the main shaft, or from other tunnels or levels through and along the vein.

Lode—A longitudinal fissure or channel filled with ore bearing matter and having well-defined side walls; lode, lead, vein and ledge are synonymous.

Ground—One reserves the vein material still standing in the mine between the shafts and the levels that have been driven in or through the vein.

Cross-cut—A drift run at right angle to the lode for the purpose of ascertaining its width and to otherwise prospect it, also an opening or level driven across the ground from one vein to another.

Level—Drifts from the main shaft or from one shaft to another; an excavation run on the lode or vein, or ore body, at distances of from 50 to 100 feet apart and high enough for men to work in.

The Times of Cuba has entered a vigorous protest against the newly passed municipal ordinance which provides that the residents of Havana must wear some article of apparel to cover their undershirts when in public places. It suggests that the Cuban-American Pajama Trust must have been behind the ordinance, and wants to know what is to be done with the "poor devils who have no undershirts to cover their nakedness."

The gross value of cotton manufactured in the United States in 1899 was \$267,981,724, or at the rate of \$18.88 per spindle. The number of spindles was given by the census of that year as 14,188,102. The present value of those products, according to a fair estimate, is \$255,429,858, or less than in 1899, notwithstanding the fact that there has not been an increase, not only of 24 per cent in the number, but of 10 per cent in the productive capacity of the spindles.

Legal determination of what constitutes a spendthrift is likely to come out of a suit over a will in Chicago.

W. T. Palmer, who was left an income of \$10,000 by the will of his mother, Mrs. Benedict, is suing for the estate, valued at some \$600,000, and the trustee alleges that he is a spendthrift because he spent \$100,000 in two years, and offer to prove that he lost \$50,000 in three months on the New York Stock Exchange. Whether losing money in this way makes a man a spendthrift will then be left for the jury to determine.
