3 For Detroit:
Leaves Albany.....7:40 A. M.
Arrives Detroit.....11:55 A. M.
4 Returning:
Leaves Detroit.....12:25 P. M.
Arrives Albany.....5:35 P. M.
5 Leaves Albany.....6:00 P. M.
Arrives Corvallis.....6:45 P. M.
Arrives Albany.....7:25 A. M.

One and two connect at Albany and Corvallis with Southern Pacific trains, giving direct services to and from Newport and adjacent beaches.
* No 6 runs from Albany to Corvallis on Mondays, Wednesdays and Fridays only.
* No 5 runs from Corvallis to Albany on Tuesdays, Thursdays and Saturdays only.

Trains for the mountains arrive at Detroit at noon, giving ample time to reach camping grounds on the Breitenbach and Santiam river the same day.
EDWIN STONE, Manager.
E. I. WALDEN, T. F. & P. A.
J. TURNER, Agent, Albany.

deal of preparation and local duties and enumerated in a column. A citizen of this office is interested in an enumeration of duties and enumerated in a column.

The British seem to have tackled a rather hard job so far in South Africa. While the final outcome can hardly be doubted, there is every chance for a large loss of men on the side of England before the can land a sufficiently large force to overpower the thick headed and stubborn followers of Oom Paul.

The Pacific Editor, Vol. 1, No. 1, has reached our table. It is a very neatly gotten up monthly publication devoted to the editorial interests of the Pacific states. It is worthy the support of the craft and will prove of much help to the pencil shavers who carefully study its hints and methods and profit by its suggestions. We gladly welcome it to our exchange list. It is published in Stockton, California.

Medals wrought from the bronze cannon captured from the Spanish in the Philippines will in due time be presented by the state to each member of the Second Oregon regiment as a souvenir and in appreciation of their gallantry and honor of their service in the war in the far east. The medals will be very highly appreciated by the men who receive them and will be treasured as heir-looms by their descendants.

Interviews with prominent hotel proprietors, indicate that there will soon be a rise in the rates charged and that rates would be raised all over the coast as has been done in most places in the east. The cause of this advance in rates is owing to the advance in price of almost every item of expense in running hotels, including not only culinary supplies of nearly all kinds but also of labor required in every department, which makes it impossible to run the business at the old rates without positive loss and ultimate failure.

Acetylene Gas.
Be independent of Gas and Electric Light corporations and own your own lighting plant. The National generator does not have to be cared for oftener than once in 15 days. It is positively safe and is recommended by all Insurance Boards. We light residence, stores, churches, factories and towns 40 per cent cheaper than other systems with double the illumination. To responsible parties will ship machines on thirty days trial. Send for free booklet on Acetylene Gas. We want good agents.
NATIONAL ACETYLENE GAS CO., Buffalo, New York.
THE NEWS and the Oregonian one year for \$2.00.

of Utah and Colorado killed hundreds of horses and sheep by the thousands. It is said that snow fell three to five feet deep in places and completely smothered live stock that were in the mountains.
Miss Helen Gould has given \$6000 to the League for Social Service to be used against Mormonism. The league has issued 1,000,000 pamphlets in pursuance of Miss Gould's directions. They are aimed directly at Mormonism and Brigham H. Roberts as congressman, and will be distributed all over the country.

Sir Thomas Lipton, the owner of the British yacht Shamrock, takes his defeat like a man and says that he has been fairly treated in all respects. He regards the Columbia as the better boat, especially after defeating the Shamrock in the strong wind that prevailed on the day of the last race. Sir Thomas has spent a million dollars and says he will come back again if he can find some one to build a boat that will give a promise of winning.

Tabuna Bay Improvement
In his annual report to the secretary of war concerning river and harbor improvements chief engineer General John M. Wilson, says of Yaquina harbor:
"The expenditures up to June 30, 1898, \$687,379.28, resulted in completing both jetties in accordance with the original project of 1880 and as amended in 1882-1888 and 1893, with the exception of placing about 15,000 tons of stone on the north jetty. This work resulted in fixing the channel in width and location as projected and in obtaining from 14 to 15 feet of water on the bar at mean low tide, or from 21 to 22 feet at high tide, whereas the project provided for only 17 feet at high tide, thus obtaining several more feet than was projected. This original amended project may be said, therefore, to be satisfactorily completed."
"The expenditures during the fiscal year ending June 30, 1899 were for caring for the work done in previous years and for the government plant stored at the site of the work."
"The maximum draft that could be carried during the fiscal year ending June 30, 1899, at mean low tide, is 18.00 feet."

More Game Birds.
Mr. Schaffenberg, of Mount Tabor who is now in Copenhagen writes to Captain W. J. Riley that he has secured 150 pairs of partridges which will be shipped to Oregon. A sum of money was raised among local sportsmen for this purpose and entrusted to Mr. Schaffenberg for expenditure as he was going to Europe. He also ordered 10 pairs of black cock in Sweden, which will be turned loose in the valley. The partridges are strictly field birds, and stick to open country and cultivated lands. The black cock is more of a brush bird.—Telegram.

From New Zealand.
Reefton, New Zealand, Nov. 23, 1898.
I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the fact of its my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children.
E. J. SCANTLEBURY.
