HAPPENINGS OF 1899.

SUMMARY OF A YEAR'S IMPORTANT EVENTS.

War in Philippine Islands and South Africa, the Dreyfus Trial, Political Difficulties in Samoa, Death and Destruction by Fire, Wind and Flood.

Many causes have combined to make the year 1899 a rather remarkable one. Its opening was signalized by Spain's surrender of the last vestige of her sovereignty in the western hemisphere; its progress brought forth the declaration of war between England and the Transvaal Republic, and its close leaves these nations still engaged in a bloody contest, that may result in important political changes in South Africa. During the year the fighting between the natives and United States troops in the Philippines has continued and the war is yet on.

Other events, aside from warfare, that have occupied public attention to a greater or less extent have been: Signing of the treaty of peace with Spain; settlement of difficulties in the Samoan Islands; trial, conviction and pardon of Captain Alfred Dreyfus in France; numerous large fires that have destroyed many lives and much property; tornadoes that caused disaster and death at Kirksville, Mo., in April, and at New Richmond, Wis., in June; several fatal shipwrecks; deaths of prominent men, among them President Felix Faure of France, Garret A. Hobart, Vice-President of the United States, and Robert G. Ingersoll; great street car strike at Cleveland and labor riots at Pana and Carterville, Ill.

A brief chronological transcript of the year's events is given below:

Why Fishes Are Slippery.

Fish of almost every sort are, when fresh caught, slippery and hard to hold. This slipperiness is due to a sort of mucus exuded through the scale, and is of the greatest importance to all slimy creatures.

One of the important functions of the fish's slimy coating is to protect it from the attacks of fungus, a form of plant life found in all waters, salt and fresh, foul and pure. If the fish is so injured that some spot becomes uncovered by the slime, a barely visible fungus will be likely to lodge there, and when it is once lodged the process of reproduction is very rapid. It soon extends over the gills and kills the fish.

The primary purpose of the slime of the fish is to reduce its friction when in motion through the water and increase its speed. It also serves as a cushion to the scales, which it thus protects from many injuries.

Grand Opera.

"Yez needn't be taken on sich airs, Missus Mulvaney, jist beycuz yer man's bin made a jigger on 'th perleesh force. Me man went t' th' gran' opphra 'n sthyle."

"Gran' opphra nuttin'. It 'ud be takin' a month's whages whurkin' loike yer man doos, Missus O'Hoolihan, t' get dough ernuff t' go t' gran' opphra!"

A Remarkable Shawl.

The Duchess of Northumberland possesses a shawl given her by Charles X. of France, which cost a fabulous sum. It is manufactured from the fur of a species of Persian cat, the hair of which is so fine that one strand is hardly visible to the naked eye. The spinning, weaving, and fashioning of the meterial required several years of labor and thousands of cat skins.

PACIFIC COAST NEWS

Commercial and Financial Happenings of Interest to the Growing Western States.

Since the first of July the people of Alaska have contributed to the federal treasury in license money the magnificent sum of $153,276.40 for the privilege of doing business in Alaska and developing the territory, says the Skagway Alaskan. This is in addition to the tariff duties paid, internal revenues, taxes and all other taxes common to the country at large. It is a special tax levied upon business in Alaska alone, such as no other citizens of the United States are required to pay; in fact it is a tax that was never before in the history of the United States levied against any of its people.

Plenty of Supplies at Dawson.

D. W. Bullock, lately arrived from Dawson, said to an Alaskan reporter:

"Dawson is supplied with everything needed there for the winter. The report as to a great shortage of oats is not true. There is plenty of oats along the river and in Dawson to supply the interior. When we got away from Dawson, November 7, oats were selling for 22 cents a pound and hay at 15 cents. Last winter oats went to 40 and 45 cents, and hay to 35 to 50 cents. Tobacco sells in Dawson today for $1 to $1.25 a pound, less than it brings in Bennett. The Bennett price is $1.50 a pound. Flour that sold for $8 in Dawson a year ago is worth only $4.75 there today. There will be plenty of beef in Dawson throughout the winter. Dumbolton had four scows loaded with beef on the way in, one of which is at Selkirk and one at Stewart river. I do not know where the others are. Dumbolton will take the meat through to Dawson over the ice after the river freezes. McDougall & Burns have 80 tons below Selkirk and will take it in over the ice. The labor market of Dawson is glutted. There were 1,000 to 1,500 idle men in the town when I left, and more were rushing in from up the river."

Atlins Future Output.

Charles Christopher, who has negotiated more large Atlin mining deals than any other man in the country during the season recently closed, is authority for the statement that there will be no less than half a dozen large hydraulic plants put in operation in Atlin with the opening of spring. He says the output of gold in that country will exceed $5,000,000. The gold commissioner collected royalty on about $700,000 this summer, but he failed to collect on more than half the output. There was at least $1,500,000 taken out of the Atlin gold fields this year, and next year the output will exceed $5,000,000. Last summer the great majority of the miners did not get to work before August 1, and they all worked small claims and handled most of the dirt with shovels. Next year they will handle it by the hydraulic process.

Snowslide on White Pass.

News of a big snowslide on the White Pass & Yukon railroad was brought to Victoria by the steamer Tees. A rotary and two engines were buried by the slide, and after they were shoveled out, the rotary ran into a rock, knocking out 13 of its 20 knives. The train which was behind the snow-bucking outfit was not injured.

P. O'Regan, one of those who endeavored to walk to Skagway from the snowbound train, was found unconscious, with his face and hands frozen. The operator at Glacier reported to Skagway that the track there was covered for a distance of 850 feet a depth of five to 20 feet. Telegraph wires beyond Glacier are down.

Heathen Chinese Threw a Bomb.

At Victoria, B. C., a dastardly attempt was made to wreck a Chinese Methodist mission church. While the congregation, principally Chinese, was worshipping, a bomb made of lead pipe and filled with gundpower was exploded. No one was injured. The deed is ascribed to heathen Chinese jealous of the introduction of Christianity among their countrymen.

To List All the Hops.

Directors of the Oregon Hopgrowers' Association met in Salem Tuesday afternoon, and were in secret session four hours. The chief business transacted was to require every local representative of the association to obtain a complete list of hopgrowers and the amount of hops now on hand in their respective districts. The board also announced that it is now ready for business.

Northwest Notes.

An opera house is one of Albany's needs for 1900.

Mule-buyers from California are in Southern Oregon counties.

A Burns paper reports a sale of 2,700 stock sheep at $2.60 per head.

It is estimated that the call for warrants recently made by the county treasurer of Whatcom county covers about $170,000 of county indebtedness.

Figures of real estate transfers recorded in King county (Seattle) since July 1 show a total of 495 transfers, of an aggregate value of $3,989,625, not including, of course, the value of the transfers for nominal sums.

In Umatilla county, wheat farms are advertised for sale at prices from $20 to $40 an acre. A farm on the foothills east of Milton sold for $5,800 spot cash.

The old mill, on Chambers creek, near Fort Steilacoom, was recently destroyed by fire. It was one of the old landmarks of that part of the country, having been built in 1852.

The convention of the Linn county Christian Endeavorers is to be held in Brownsville on January 12, 13, and 14.

The Bellingham Bay & Eastern Railroad Company cannot find laborers enough to work on road construction at 20 cents an hour, and is getting in some Japs for that purpose. The Jap labor is not so satisfactory as white labor, but enough of the latter cannot be found.

Among the experiments in progress at the Puyallup experiment stations is a series of spraying tests for black spots, or canker, in hops, which is becoming so prevalent in that vicinity.

Over $25,000 was spent in Lakeview in building improvements during 1899.

THE WORST AND THE BEST.

Wall Street Suffered, But General Business Was Good.

R. G. Dun & Co.'s weekly review of trade says: The worst day in Wall street in many years was in part the legitimate result of the best year in business ever known. Because the country had prospered so greatly and so expanded its business that it could no longer afford to have many millions locked up in carrying stocks representing imaginary values, the question was not one of monetary supply. When the country found ample use for its capital in regular trade and productive industry, a contraction of loans became necessary, which would have been more painful if the volume of stocks had been larger.

The business of the country close to the holidays is necessarily smaller than it has been, and yet larger than at the same date in any other year. Exchanges through principal clearing-houses for the week have been 33.7 larger than last year, and 50.4 per cent larger than in 1892, including 32.1 per cent gain in payments outside New York. There was not even a suspicion of unsoundness in any considerable branch of industry or trade, the extraordinary expansion in some being as well warranted as the material gain in others.

Cotton suffered in speculation for a day with stocks, but the great decrease in receipts from farms since September—over 1,500,000 bales—gives strong support to prices, as does the increase of 200,000 bales in takings by spinners.

Wheat has fallen both in foreign demand and in prices, in spite of still larger loss in Western receipts, for the week only 3,306,286 bushels, against 7,340,170 bushels last year.

Failures for the week have been 220 in the United States, against 258 last year, and 26 in Canada, against 31 last year.

A Shrewd Negro.

A traveler came along to the gate of a humble cabin in a town in Alabama just as an old negro handed a couple of jugs to his son, who was about 10 years of age, and said: "Now, Julius, yo' gwan down to de grocery an' git a quart o' treacle in one ob dem jugs, an' hurry back." When the boy had gone the traveler said to the father:

"You didn't tell him to get anything in the other jug; is he going to leave it at the grocery?"

"No, sah—gwan to bring it right back home" he replied.

"But why send two jugs to get a quart of treacle?"

"It's jes dis way sah. If he has a jug in each hand he can't go dipping his finger in the treacle and eating it as he comes along."—Detroit Free Press.

Mormonism

Is a blot upon our land—a symptom of governmental ill-health. The right laws would act upon it as Hostetter's Stomach Bitters does upon constipation, or dyspepsia. They would quickly restore healthy purity; and this is just what the Bitters does for the human constitution. It makes the stomach strong by curing indigestion and biliousness.

Instruction in the English language is now obligatory in Russian commercial schools.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

Talked Black Hawk.

Julia Bloom, a colored woman was a prisoner charged with disturbing the peace. Julia admitted under Officer Sheahan's accusation, that she talked a "trifle loud." Her exaggerated speech was caused by her husband's conversation with a neighbor in the tongue of the Black Hawks.

"Thar's ma husban'," said Julia pointing at a stunted figure with straight black hair punctuated with an occasional truant kink. "He's bin ma husban foh de las' 16 years, rain or shine, but he will talk in his sleep an' allus in de Injun tongue. Sometimes he talks dat way wid Mr. Meyer a nabur who hes learned de language from him. Ah ges he war talkin' when Ah portested in plain English."

Julia was let off on suspended sentence.—Detroit Free Press.
