S. E. YOUNG & SON, ALBANY, OREGON

Appointed National Bank Examiner.

Last Friday evening Hon. A. J. Johnson, of this city, received the following telegram from Washington:

WASHINGTON, D. C., March 16. Hon. A. J. Johnson, Sen. Ore.—I have just sent you by mail your commission as National Bank Examiner. Appointment was made yesterday.

(Signed) Wm. C. McInnes.

This district comprises the state of Oregon, Washington and Idaho. The appointment is a good one, and was made in the face of strong opposition, he having the support of Senator McInnes and Representative Tongue, and Senator Simon heading the opposition. Mr. Johnson has had his application for this position before the Comptroller of Currency for some time past, and the appointment would have been made several months ago had it not been for the strong protest of Mr. Simon. A special commissioner was sent here from Washington, and immediately upon his return the appointment was made. Mr. Johnson is a man worthy of the position, and will fill it with honor to himself and credit to the administration. He is a native of this city, and has large business interests here. He is president of the Bank of Scio, which position he has filled for a number of years. He is extensively interested in the milling and grain shipping business of this city, and is known as a thorough business man, strictly honest and reliable. He has been a lifelong republican and a shrewd politician, and one who worked hard to gain a point, but at the same time kept strictly within the bounds of honesty and freedom from the unscrupulous schemes of the average politician. Mr. Johnson's many friends in Linn county are more than pleased by his success, and he has received many messages of congratulation from friends all over the state.

Two Funeral Orations.

By the irony of fate and the exigencies of personal ambition, it became the duty of the Hon. Joseph C. Blackburn to pronounce the funeral oration at the coffin of William Goebel. And of Senator Blackburn said:

"Build here over his grave, a mighty towering granite shaft that shall defy the corroding touch of time. Inscribe upon it an epitaph that shall be worthy of the man. He earned this at our hands. In life and death he was consecrated to the people's cause. He lived an honest life, and gave his life for your deliverance. Of him no eulogy, but truth may say: 'Earth never pitied upon her bosom a truer son, nor Heaven opened wide her portals to receive a manlier spirit.'"

At Covington on Sunday, April 14, 1895, a little less than five years ago, the eulogist of Goebel pronounced another funeral oration. That time he stood by the coffin of Col. John L. Sanford, who, like Goebel, had been shot down in the highway. And of Sanford, Senator Blackburn said:

"John Sanford was to me like a brother. I loved him. I hope God may spare me, and I shall make it my life's mission to avenge him by burying his slayer in the depths of mortal public execration."

The slayer of John Sanford was William Goebel.—New York Sun.

The collection contains many eggs of wild birds, and with each he has a card showing just when they were gathered and giving full detail regarding them. Scientifically the collection is a very valuable one, and one that a person seldom sees. The doctor has them very neatly arranged in a glass case, and will gladly exhibit them to anyone.

Housecleaning will soon be in order, and it is then that the man of the house has himself to fall timber until the cyclone has passed. There will be a thousand and one things to do, and it seems as though no one knows just how they all ought to be done quite as well as a woman, and in most cases the woman has most of them to do. Last Thursday afternoon fire was discovered in the roof of the Scio hotel, having caught from a stove-pipe from the barber shop, but before it had gained much headway a fire brigade put out the flames. Had it been given a few minutes more, however, the entire building would have undoubtedly burned, as it is a wooden structure, and the fire was on the side-way from the street and would have been hard to have gotten at in case it had gained a good start before being discovered.

Just think of dusty roads in the valley in March. But it is a fact no matter how ridiculous it seems, and last week the roads were so dry and dusty that a party from this city visited Jefferson on their bicycles, and made the trip easily. It caused the trees to send forth many leaves and buds, and if it holds out as it has started we will have a very

SEEDS SEEDS SEEDS

We haven't all the seeds in town. But we have seeds from three different seed houses—Ferry, Howe and Lamberson. You can have your choice. But one thing you have got, that is, positively new, fresh seeds. One brand of our seeds we buy outright—don't sell them on commission. These seeds are sold to us with a guarantee that they are fresh and new this year. And to prove this all the seeds we have left in this fall are destroyed by us instead of being shipped back to the firm as commonly done. So you see these seeds are bound to be fresh, and surely ought to grow.

ROSS E. HIBLER.
