BY THE EDITOR

A short article in The Oregonian of Saturday last, dated at Albany, and signed by "Santiam" calls to my mind the fact that the world is full of men who were born without brains, and this individual seems to be one of that class. How it must have made this fellow feel to see his article in print, and at the same time know that Mr. Johnson's friends were not aware who the writer was. In all probability he is well acquainted with Mr. Johnson and when he sees him will doubtless congratulate him upon his success, and at the same time bid him an unprincipled, dirty act and hid behind a non de plume. A man of this stripe is void of all manly instinct, and is too low in the scale of human nature to be noticed by fellow men. If he had not the moral courage to say what he did, or his own signature or to Mr. Johnson personally then he should not have said it at all. A man who will write maliciously of another and discover a non de plume is caught by a reliable scandal, and should not be allowed the use of the columns of a newspaper.

How gratifying it is to see the interest manifested in all parts of the state toward the establishment of a newspaper. Only last week the news columns of the papers all over the state told of the establishment of new enterprises of this class, and the results to be gained by them. The day is past when the farmer could devote his whole time to wheat raising and by that method become independent. With the present prices for cereal crops the only saving for the farmer is to stop raising grain and devote his time and land to more profitable uses. Diversified farming in its various branches should be closely followed, and strict attention to details will result more favorably to the farmer than the ordinary half way manner of caring for the farm and its products.

The lumbering interests of Linn county are fast becoming one of the leading industries of the state, and the importance of our lumber resources are becoming more prominent every day. With the completion of the big Carlin mill at Albany, it is thought to be built as the company have promised, it will be one of the leading industries of the state. There is almost no company in the table supply of lumber in the Cascade mountains on the upper Santiam river, and it is only a matter of time until men of capital will begin to take hold of the matter with an interest that will mean much for this section of the valley.

The Prohibition party have put out a full ticket in this county, and while they cannot expect to elect a single candidate they are to be congratulated upon their earnestness in the cause of prohibition, and while there are countless thousands who do not believe with them, still there is merit in the cause, and the day will doubtless come when they, as a party, will be a power in the land.

A table printed by Bradstreet's shows that a few years business houses, which had on their pay rolls 292,957 employees in 1899, have increased the number to 305,278, while the increase in wages in 1899 as compared with 1898 was over \$20,000,000.

Twice Proven.

From the Vindicator, Rutherfordton, N. C.
The editor of the Vindicator has had occasion to test the efficacy of Chamberlain's Pain Balm twice with the most remarkable results in each case. First, with rheumatism in the shoulder from which he suffered excruciating pain for ten days which was relieved with two applications of Pain Balm, rubbing the parts afflicted and resulting instant benefit and entire relief in a very short time. Second, in rheumatism in thigh joint, almost prostrating him with severe pain, which was relieved by two applications, rubbing with the balm on the joint at night, and getting up free from pain.—For sale by Peery & Peery.

Prohibitions Nominations

A prohibition convention for the purpose of nominating a county ticket met at the W. C. T. U. hall at Albany Friday last at one o'clock. W. P. Emore was chosen chairman and C. H. Walker secretary.

A nominating committee of five members was appointed by the chairman as follows: Rev. C. B. Stevenson, J. C. Brown, S. E. Taylor, J. B. Roberts and Rev. J. Longbottom.

A committee of one from each precinct to act as agent for the Oregon searchlight was appointed by the chairman, to be reported later. Remarks on the subject of prohibition were made by J. M. Marks, W. P. Emore, Rev. Holmes and others.

The report of the nominating committee was read by E. B. Stevenson and was accepted by the convention. The report is as follows:
State senator and joint state senator for Linn and Marion counties, to be supplied by central committee.
Representatives—W. W. Richardson, Scio; W. P. Emore, Brownsville.
County Clerk—J. L. Archibald, Scio.
County Judge—C. H. Walker, Brownsville.
Recorder—Geo. W. Simons, Lebanon.
Treasurer—W. T. Cochran, Brownsville.
School superintendent—W. A. Bab, Scio.
Commissioner—A. T. Powell, Scio.
Surveyor—T. A. Riggs, Albany.
Coroner—Dr. J. H. Erskine, Albany.

Resolutions to the state convention—Rev. C. B. Stevenson, W. P. Emore, J. Longbottom, J. C. Brown, T. P. Hackleman and C. H. Walker.

Prohibition Platform

Following is the platform of the prohibition party in full, as passed at the County Convention.
We, the members of the Prohibition Party, of Linn County, Oregon, in convention assembled do hereby express our hearty sympathy for every movement having for its object the securing of good government, and the cleansing of the body politic of all forms of vice and corruption; but at the same time believing the nation to be the great land of all corrupt and crime; we are confident the only and sure way to secure reform is to down the liquor traffic by state and national legislation and the placing in power of a party pledged to force such laws as we desire.

Resolved

Resolved, that we do hereby adopt as our platform and principle, the enactment of laws prohibiting the importation, manufacturing and sale of all intoxicating liquors in the United States, except for medicinal or mechanical purposes.

Tailor Made Suits

We have now got our spring samples big books containing over one thousand samples, and many a two suits, that of those you can surely get a choice, suit you both in price and material.

The greater number of tailor made suits that we get every season is the surest advertisement as to how much better they are than common ready made ones. Indeed you get 100 per cent more wear, and 50 per cent more style. There is no question about it; our clothes have got to fit—and positively guaranteed to. With our 10 years of experience manufacturing for these suits, we know about how to get them fit, and have the clothes set properly etc. Don't be deluded with the notion, either, that "anybody" can measure and get good fits. That is impossible, and a poor fit is little better than ten "me-downs. Once you wear a tailor made suit, you will have no other ever after. For they look so neat and new, and feel so good on a fellow. And you can never appear like a first class man without you have one of our tailor made suits.

Rudyard Kipling's new anthology, "The Elephant's Child," is a feature of the April Ladies Home Journal. It is the first of a series of "Just So" stories, and describes, with Kipling's inimitable drollery, how the elephant got his trunk. Rev. Cyrus Townsend Brady begins an interesting series of articles on his experiences as "A Missionary in the Great West," and Julian Ralph writes of "The Choir Boys of England." The new almost forgotten "Mysteries of the Century," which held the centre of the world's stage in their day, are graphically retold, and "Singing 'The Messiah'" on the Plains gives a close view of the life of a man-of-war in the community in the West. Edward Bok, in decrying "The Ease With Which We marry," suggests some restricting, uniform legislation and speaks plainly on divorce. In his latest paper, his respects to "The Greatest Tramps in Our Churches," and "An American Mother" writes of "The American Woman in the Market Place." Through Picturesque America, it begins in the April Journal, two pages being devoted to views of the natural beauties of our country. "A Successful Country House in New England" and "Wellesley Girls in the Play" are among the other notable pictorial features. To every branch of activity which concerns the homemaker the April Journal brings helpful suggestions or advice. By The Curtis Publishing Company, Philadelphia. One dollar a year; ten cents a copy.

Booth-Kelly Lumber Co. has closed a contract with the Sunset Telephone Company to build a private telephone line connecting their gigantic business stations. The points connected by this private system will be Cottage Grove, Seaside, Eugene, Cottage and Weirfield. The work will be commenced immediately.

Was Granted A Divorce.

Mrs. Mary M. McGrath was granted a divorce from M. T. McGrath this week in the circuit court at Eugene. The grounds for divorce were that the defendant is now serving a life sentence in the Oregon penitentiary for the killing of Charles Turner in this county about two years ago. The wife was also deprived the custody of the minor children and that she was the owner of the McGrath farm in this county.

Festively No More Credit.

Hereafter I will credit out, no more goods, unless I get a BANKABLE NOTE for the amount you want to trade. I will sell that way, or for cash in hand, if possible. But with the volume of business I am doing now-days I CAN'T possibly sell on credit.

I am going to give a PREMIUM for CASH and PROMISE TRADE. Come and see what it is.

An Honest Medicine for La Grippe

George W. Watt, of South Gardner, Me., says: "I have had the worst cough, cold, chills, and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one bottle of it and the chills, cold and grip have all left me. I congratulate the manufacturer of an honest medicine." For sale by Peery & Peery.

The secrecy of American merchant vessels was only too palpable during our war with Spain. But the liner "Ironclad" has interested us by showing British Trans-Atlantic liners, delaying our commerce and hindering the quick transportation of our foreign mails. We should be as independent on the sea as we are on land. We can best interested in manufacturing and land transportation but we lack the facilities for transporting our goods by sea to foreign buyers.
