

Women, Remember This Fact

That in addressing Mrs. Pinkham you are communicating with a woman—a woman whose experience in treating a woman's illness is greater than that of any living person—male or female. A woman can talk freely to a woman when it is revealing to relate her private troubles to a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they should have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examination of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is unequalled.

Women suffering from any form of female weakness are invited to freely communicate with Mrs. Pinkham at Lynn, Mass.

All letters are received, opened, read and answered by women only. This is a positive fact—not a mere statement. It is certified to by the mayor and postmaster of Lynn and others whose letters, all in a little book, Mrs. Pinkham has just published. Write for a copy, it is free. This has been established the eternal confidence between Mrs. Pinkham and the women of America, which has never been broken since she has honored more than 100,000 sufferers to write her for advice during the last few months.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Here are some of the cases we refer to:

Mrs. Pinkham Helps Two Women Through Change of Life and Cures Another of Sterility. Read Their Letters.

"DEAR MRS. PINKHAM—I feel that it is owing to Lydia E. Pinkham's Vegetable Compound that I am alive to-day. It has taken me out of a sick bed where I had lain for six weeks with a good doctor to tend me twice a day. My trouble was change of life, had frequent hemorrhages. Your medicine checked the flow right away. I am now able to do all my work and backache is unknown. I am forty-three years of age and enjoying good health."—Mrs. ANNE FOSTER, Cascade Locks, Oregon.

"DEAR MRS. PINKHAM—When I first wrote to you, I was in a very bad condition. I was passing through the change of life, and the doctors said I had bladder and liver trouble. I had suffered for nine years. Doctors failed to do me any good. Since I have taken Lydia E. Pinkham's Vegetable Compound my health has improved very much. I will gladly recommend your medicine to others and am sure that it will prove as great a blessing to them as it has to me."—Mrs. G. H. JUNE, 501 E. 10th Ave., Brooklyn, N. Y.

"DEAR MRS. PINKHAM—It was my ardent desire to have a child. I had been married three years and could not become a mother, so wrote to you to find out the reason. After taking your kind advice and taking Lydia E. Pinkham's Vegetable Compound, I became the mother of a beautiful baby boy, the joy of our home. He is a fat, healthy baby, thanks to your medicine."—Mrs. MINDA FINKLE, Roscoe, N. Y.

Two More Women Who Acknowledge the Help They Have Received from Mrs. Pinkham.

"DEAR MRS. PINKHAM—The doctor says I have constipation of the bowels, and cannot help me. There is aching in the right side of abdomen, hip, leg, and back. If you can do me any good, please write."—Mrs. NINA CHASE, Fulton, N. Y., December 12, 1898.

"DEAR MRS. PINKHAM—I followed your instructions, and now I want every woman suffering from female trouble to know how good your advice and medicine is. The doctor made an operation. I could not bear to think of that, so followed your advice. I got better right off. I took six bottles of Lydia E. Pinkham's Vegetable Compound and used three packages of Sarsaparilla Wash; also took your Liver Pills, and am cured."—Mrs. NINA CHASE, Fulton, N. Y., December 12, 1898.

"DEAR MRS. PINKHAM—Have been suffering for over a year and had three doctors. At time of menstruation I suffer terrible pains in back and ovaries. I have constipation nearly every day, and feel tired all the time. The doctor said my womb was out of place. Would be glad if you could help me."—Mrs. CARL VOSS, Sac City, Iowa, August 1, 1898.

Please accept my sincere thanks for the good your advice and Lydia E. Pinkham's Vegetable Compound has done me. I will do everything you told me to do, and use only three bottles and feel better in every respect."—Mrs. CARL VOSS, Sac City, Iowa, March 23, 1899.

What Was Done.
During Stonewall Jackson's campaign in the Shenandoah valley it became necessary that a bridge over a small creek should be built in great haste. One evening Jackson sent for his old pioneer captain, Meyers by name, and pointed out to him the urgency of the occasion, saying that he would send him the plan of his column of engineers as soon as it was done.

Next morning Jackson rode down to the Myers' quarters, and, saluting the veteran, said: "Captain, did you get the plan of the bridge from Col. —?"

"Well," said the captain, "the bridge, general, is built, but I don't know whether the picture is done or not."—Golden Days.

NORTHWEST NEWS.

The Immediate Future of Pacific Coast Seaport Towns Appears Particularly Bright.

In an article entitled, "Possibilities of the Pacific," Bonds and Mortgages, published in Chicago, spoke as follows: There is no section of the prosperous West which is attracting the eyes of the financial world more at present than the cities of the Pacific coast. The vast and rapidly growing trade of the Orient and the tropics, the gold discoveries in Alaska, the growth of Australia and New Zealand, the opening up of the vast steppes of Russia and of the great Chinese empire, all bespeak commercial and financial opportunities unparalleled in the history of the country. The scene of the future human drama has been shifted to the Pacific coast. Two-thirds of the world's population awaits us at our Western gates, separated from us only by a great ocean highway, free from the possibilities of toll or monopoly, and affording every accommodation necessary for the transaction of an enormous volume of new business.

Already American commerce with the islands and countries of the Pacific shows a greater gain in the year 1899 than that with any other part of the world. Our total exports increased \$20,000,000, and our exports to Asia and Oceania alone increased over \$12,000,000; our total imports increased \$14,000,000, and \$48,000,000 of this increase was from Asia and Oceania. Exports to Asia and Oceania increased 27 per cent, while imports from that part of the world increased 40 per cent.

With these interesting and instructive figures before us, the luminous future of the Pacific coast seaport towns appears particularly bright. The greatest activity prevails in the younger and more progressive cities of the Northwest, with Seattle, Portland and Tacoma eagerly vying with each other for commercial supremacy. The heavy investments made during the past year by Eastern capitalists in this section reflect the fullest realization of existing conditions by the far-sighted investing class. The Pacific Northwest is just emerging out of the hour of dawn to bathe in the most brilliant rays of prosperity which ever shown upon any country.

Fruit Canyons.
The farmers of Eagle valley, Or., are about to erect a fruit cannery. At a meeting held at the schoolhouse at that place the farmers of the valley subscribed \$3,000 for the purpose. The total cost of the plant will be about \$5,000, and as this is the first meeting held, the farmers are confident that trouble will be met with in raising the full amount. The establishment of the cannery will be of much benefit to Baker City, as well as to the farmers of the valley, where a large amount of fruit is raised annually. The cannery will be conducted on the co-operative plan, and it is the intention to take all the fruit offered by the farmers. Much of the product will find a market in Baker City, as the home consumption is large and is steadily increasing.

Des Chutes to be Utilized.
A company has been organized to take water out of the Deschutes at a point near the Three Forks known as Lava Island, and conduct the water to the desert lying east of the river. The point of diversion is said to be one of the best on the river owing to the absence of rocky bluffs. From this point water will be taken east to the old river bed, 15 miles, covering large tracts of excellent farming lands.

A Bellingham layman, named Canfield, has a big bed of pansies planted, and will attempt to raise them for sale. The only pansy seed product in the West is in California, and the best varieties come from France and Belgium. If he raises as good seed as he planted, Mr. Canfield will get \$30 a pound for it.

A large number of Washington's albatrosses, probably 75 per cent, are observing an agreement for a short shutdown. The reason given therefore is that "the backward spring in the East has caused a falling off in orders, which makes a curtailing of the supply necessary to the equilibrium of prices." The Eastern buyer may think this is the action of a trust, but, of course, it isn't.

BRADSTREET'S REVIEW.

Quiet Week in the Dry-Goods Distributive Trade.

Bradstreet's says: It has been a quiet week in distributive trade, except at some few Western centers, this being especially true of the dry-goods business. Wholesale trade in this line has been generally completed, and, pending the effect of the spring demand upon the retail trade, the markets are in a waiting stage. As regards prices, the feature of the week has been the strength manifested in agricultural products and provisions. The advances in the latter, in fact, are regarded as forecasting an upward movement in hog products, long predicted, but only partially realized.

Winter wheat crop advices have been on the whole, good, and have acted as a balance to the stories of French damage.

Wool has been more active, but considerable business has been done at concessions.

The generalization in the sugar market is clearly confined to the refining branch.

Manufacturers and jobbers in carpets and upholstery report a heavy season's business booked.

Wheat, including flour, shipments for the week aggregate 2,962,349 bushels, against 2,903,492 last week.

Business failures in the United States for the week number 178, as compared with 192 last week.

Business failures in the Dominion of Canada for the week number 25, as against 23 last week.

Oriental advices state that permission to do general business in Japan has been refused 60 foreign insurance companies, most of them American.

PERUNA PROTECTS OUR HOMES

The Roberts Family of Falls City, Neb., Are Healthy and Happy—A Rare Sight in These Days. They Say, "We Think Peruna is the Greatest Medicine on Earth."

No man is better known in the State of Nebraska than Mr. Carl T. Roberts, contractor and mason. A typical American—active, shrewd, and full of business sagacity. He is not only a provider for his family, but a protector. In a recent letter to Dr. Hartman he writes, among other things, as follows: "Our boy James, had the membranous croup, and repeated attacks of lung fever. Our boy, Charlie, was also subject to attacks of pneumonia and pleurisy. Our third boy, John, was subject to fever and ague (malaria) and liver trouble. Your remedy, Peruna, cured my boys entirely, and now I have three of the healthiest boys in the State of Nebraska, which I attribute to your medicine. My wife had a stomach trouble which Peruna also cured. Altogether for my whole family we have used numerous bottles of Peruna, and have thus saved \$500 in doctors' bills. I am a contractor and mason by trade, and am known all over Nebraska. I have had a stomach trouble which has been greatly relieved by your remedy, Peruna, for which I

am still taking it. We think it is the greatest medicine on earth."—C. T. Roberts, Falls City, Nebraska.

Hon. William Youngblood, Auditor for the Interior, writes from Washington, D. C., to Dr. Hartman, Columbus, Ohio, as follows: "I've often heard of your great medicine and have persuaded my wife, who has been much of a sufferer from catarrh, to try Peruna, and after using one bottle she has wonderfully improved. It has even claimed for it, and I take pleasure in recommending it to anyone who is afflicted with catarrh." Peruna has become, in a multitude of households, absolutely indispensable.

Mr. T. G. Walker, Carmelo, Kansas, writes: "It is with pleasure that I re-

port that I am better than I have been for many years. I believe Peruna is without a doubt the best medicine that ever was used in a family. It has cured my nervousness, with which I had been afflicted for a great number of years."

It is a fact of ever increasing astonishment that so many otherwise sensible and provident people will, for the neglect of so simple a precaution as to have a bottle of Peruna at hand, bring upon themselves the needless suffering and foolish expense that a practitioner of medicine is forced to witness every day.

As soon as the value of Peruna is fully appreciated by every household, both as a preventive and a cure of these afflictions, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of disease prevented. Peruna is the household safeguard.
