BY THE EDITOR

Let everybody work for the Boaring River flume.
J. W. Crawford has sold the Independence West Side to J. A. C. Brant, late of the Vancouver, (Wash.) Columbian.

Prepare yourself for the coming election by registering at once, and then you will be on the safe side, and not cause any trouble on election day.

Grants Pass is one of the liveliest towns in Oregon. That city has just voted \$75,000 in bonds for a sewer system, water works and electric light plants.

The bill giving territorial form of government to Hawaii is under consideration and with amendments will soon be submitted to a vote of the house.

There is but one way to get the lumber flume to this city, and that is to get in and work for it. Let every one do what they can, and say a good word for Scio whenever the opportunity presents itself.

With the construction of a large lumber flume to this city will come the establishment of mills and factories, and with them a large pay roll. It will also secure for us better train service, and will be beneficial in many ways at present invisible.

The court of appeals in Kentucky has decided in favor of the Goebel side, as was expected. The attorneys for Taylor have served notice of an appeal to the U. S. courts. Both sides seem less inclined to shoot, and more inclined to let the courts decide the matter than while the assassination of Goebel was fresh in the public mind.

About 3,500 voters have registered in this county, and there are yet about 2,000 more to register. Those who desire to vote even at the presidential election this fall should get a hustle on themselves and get their name on the big book before the 15th of next month, otherwise they will be too everlastingly late. Better attend to the matter at once, and save a good deal of trouble at the polls.

Last week it seemed that the South African war had reached the typewriter stage, or the "fall quiet on the Potomac" stage of the war of the skies. But if reports are true that the Boers in one day gulped up 1,500 of Her Majesty's troops killing and wounding 500, with a Boer loss that can easily be counted on the fingers, then it has passed to that stage designated by Gen. Sherman as "shoot."

What is the difference between a man throwing his wife into a river and a pitcher of water sitting on your table? Editor of the Observer please remember it is up to you—West Side.

Life is tolerably short, Bro. Crawford. We miss it.—Observer.
Ah, pshaw; that's easy.
One is pitcher in the water and the other is water in the pitcher.

TAILOR MADE SUITS
We have now got our spring samples—4 big books—containing over one thousand samples, and nearly two alike. Out of these you can surely get a choice, suit you both in price and material.

The great number of tailor made suits that we get every season is the surest advertisement as to how much better they are than COMMON READY MADE ONES. Indeed you get 100 per cent more wear and 500 per cent more looks. There is no question about it; our clothes have got to fit—and positively guaranteed to. With our 10 years of experience measuring for these suits, we know all about how to get neat fits, and have the clothes set properly etc. Don't be deluded with the notion, either, that "anybody" can measure and get good fits. That is impossible, and poor fits are little better than ham-me-downs. Once you wear a tailor made suit, you will have no other ever after. For they look so neat and new, and feel so good on a fellow. And you can never appear like a real 20th century man without you have on one of our tailor made suits.

Do not leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed, and cannot be procured while you are on board the cars or steamship. It is pleasant, safe and reliable. For sale by Peery & Peery.

Man as He Is.

Man that is born of woman is of few days and full of microbes. He cometh forth like a flower, but is soon withered by the winds of adversity and scorched by the flames of perplexity.

Sorrow and headache follow him all the days of his life. He hopped from his bed in the morning and his feet is pierced by the cruel lack of disappointment.

He plodded forth in his daily toil and his outcure is punctured by the malignant nettles of exhaustion.

He stithed himself down to rest at noonday, and is lacerated in the nether anatomy by the pin of disaster.

He walketh through the streets of the city in the pride and glory of his manhood, and slippeth on the banana peel of misfortune and unjoins his neck.

He smoked the cigar of contentment but he exploded with a loud noise, for it was loaded.

Behold, he glideth down the banister of life and findeth it strewn with splinters of misery.

He is strung by the mischievous of annoyance by day and his frame is gnawed by the bedbugs of affliction by night.

What is man but the blind worm of fate? Seeing that his days are numbered by cycles of pain and his years by seasons of mourning.

Behold he is impaled upon the hook of desolation, and is swalled up by death in the fatuousness ocean of time and is remembered no more.

In his infancy he runneth over with worms and colic, and in his old age he groaneth with rheumatism and in-growing toe-nails.

Kentucky Game Law.

Plain citizens may be shot from January 1 to December 31. Senators, governors and members of congress may be shot during any political campaign, or within 60 days thereafter.

Niggers may be shot at any time. Hunters in search of this game may also use a stuffed club or butcher knife.

No man shall be allowed to kill in excess of six persons per day. In case when it is an affair of honor, this number may be increased to 10.

Every citizen who does not take the consideration of his game from public sight within 48 hours of the time the first volley is fired, will be fined one gallon of moonshine.

If a citizen leaves home half shot and is found on the streets a short time thereafter, full of buckshot, that is his fault, and his relatives are not allowed to shoot more than 17 persons in their efforts to find the guilty persons.—Louisville Journal.

Around the World.

North Haven, Me., has a 125 year-old apple tree.

Kangaroo farming is to be an established institution in Australia.

Waste land in Turkey sells at \$20 per acre, good farming land at \$20 to \$30.

A Cincinnati firm is working on an order received from London for 500,000 British flags.

To south Africa, green, the tulip plant, which the boasters greedily devour, is a rank poison.

Twelve camels shipped from Algiers to New York died on the voyage across the Atlantic.

The average working life of a London omnibus horse is five years; that of a tram horse is only four.

A Testimonial from Old England.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life, she having been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." It is a great pleasure to the manufacturer of Chamberlain's Cough Remedy to be able to publish testimonials of this character. They show that great good is being done, pain and suffering relieved and valuable lives restored to health and happiness by this remedy. It is for sale by Peery & Peery.

It is estimated that 50,000 men will go to Cape Nome this year, an expense of \$500 each. The expenditure of \$25,000,000 on an Arctic sea beach is one of the curiosities of modern life. Perhaps one-tenth of the men who undertake this journey will make some money, and the remainder 45,000 will be glad to return to a comfortable home and delve in the soil of the old "home acres" for the slower but surer reward of labor.

It is an assured fact that gold can be had at Nome for the digging, each one believes himself to be the lucky prospector who will stake the "bonanza claim," little realizing the weight of the modern axiom, "few are called, but many respond."

If the fact that General Gatacre has been relieved of his command and ordered home because of his failure means that the same rule is to be carried out with other officers in South Africa, the British troops there will soon be without any. It even looks as if Lord Roberts might appropriately lead the home-ward-bound procession.

Governor Smith of Montana emphatically states that nothing would induce him to call together again the Legislature which sent Senator Clark to Washington. If one may be allowed to read between the lines of the Governor's declaration, it would seem that he believes there are times when, in ruling a State, it is good to be alone.

A Letter From C. C. Blyden.

ON BOARD TRANSPORT TARTAR, February 17, 1900.

J. A. Blyden, Scio, Oregon.
Well don't know where we are going but we embarked last night just at dark under sealed orders and today we are heading around to the southern part of the island.

There are five transports of us and one gun-boat. This is a fine ship—no such like the one we came over on, the Olympia, but we have quarters on the upper deck and sleep on the lower. We don't start out on a long march, we pack on our backs from 40 to 60 pounds, and it is so hot you could cook eggs in the sun, and sometimes we march all day and night without any rest.

I expect it will be almost spring before you get this. When I get home I think I will be justified to stay there for a while.

Sunday is just the same as any other day over here.

It is now noon-time so I will close until after supper.

Well, I have just been to supper but don't feel much better as all we had was rice, grass and coffee.

The gunboat just now signaled to us and ran out her guns. I don't know what she wants yet—she is coming to anchor in about 15 minutes.

There are six ships of us and five contingents.

The gunboat is sending over a small boat—she is coming to anchor in about 15 minutes.

I remain, my friends, as ever, your loving son,
C. C. BLYDEN,
Corporal, Co. "L," 45th Inf., U. S. A., Manila, P. I.

Spreads Like Wildfire.

When things are "the best" they become "the best selling." A man named Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling little sizer I have handled in 20 years. You know most of our diseases are due to disorders of stomach, liver, kidneys, bowels; blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures most of our maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, rundown man or woman. Price 50 cents. Sold by Peery & Peery, Druggists.

She came down the street three steps at a time and sailed into an printing office like a whirlwind. She waited for no ceremony, but wildly asked: "Is this the paper office?" "Yes, madam." "Stop it, right away, too." "It's stopped," the foreman said, as he drew a blue pencil line across her husband's name on the subscription list.

"There, now," she said, "maybe that will learn you some boss sense and how to do the square thing next time, and not slight people just because they are poor. If some rich stuck-up folks happen to have a bald-headed, knock-kneed, cross-eyed, and toothless brat born to them, you're in an awful hurry to make it out at angles, but when some poor people have a baby you can't say a word about it, even if it is the purtiest baby borned. That is what I am stopping the paper for. This sort of a lesson to every paper in the country," and she went out as mad as an old wet hen.—Ex.

The Governor of British Columbia has dissolved his legislature and ordered the election of a new one. He evidently doesn't take kindly to Hamlet's advice to bear the ills we have rather than fly to others that we know not of.

By a vote of 44 to 20, the property owners of Lakeview have decided to bond the town for \$10,000, for a water system and electric light plant. It is expected the improvements will be completed by November 1.

In killed, wounded, prisoners and invalids the British have lost more than 27,000 men during the seven months since the beginning of the war and the guns are to-day booming just where that beginning was made.

Beauty is a Good Thing.
Clean blood means a clean skin. No beauty without it. Chamberlain's Candy Cough Remedy is the best for cleaning the skin, clearing up the complexion, and making the skin healthy and beautiful. It is for sale by Peery & Peery, Scio, Oreg.

A FEW FARM NOTES

W. R. Maswell, a Grant county sheepman is reported to have suffered the loss of 500 head from poison.

The amount of sugar now produced in the world is about eight times as much annually as it was fifty years ago.

The Rural Spirit says: "Grant Copeland, of Waia Waia, shipped 22 head of 3-year-old heifers to the Puget sound market at \$50 per head."

Cattle buyers in Tillamook county, Or., want stock so badly that they have to be paid for dairymen to keep barns locked until after the buyers leave the county.

The Oregonian reports the receipt of new potatoes grown near Mount Labor. They are said to have been of the size of hen's eggs, and the grower will have some ready for market very soon.

The Weather Bureau of the United States Department of Agriculture for California, reports that detrimental frosts are making favorable progress in all parts of that state and the yield will be much above the average if normal conditions prevail.

The price of wheat has shown some tendency to advance. Unfortunately there is no letting-down in the excessively high rates which have to be paid for transporting wheat to Europe. Ship-owners are making money if the wheat-growers are not.

The geese are flying north, the gopher are gambling on the grass, the meadow lark is caroling his song in the air, the smell of the tomato can and potato sprouting permeates the atmosphere in chunks—spring cometh on apace.—Cooperstown (N. D.) Courier.

The value of live cattle and sheep imported into Great Britain for the first two months of this year was \$7,270,390 as compared with \$6,059,080 for the same months last year. The imports of dressed meats amounted to \$27,943,685 against \$34,261,580 last year.

Portland seed sellers say the demand for rape was never before so great. Hundreds of farmers are sowing it on their summer fallow for pasture. It is the very thing for sheep. Every farmer could utilize more than his present amount of pasture.—Ex.

True dairy expansion involves the getting up of a herd not only by selection but also by breeding. There is no question among intelligent stock breeders but that animals that have been bred and selected for years and even centuries along dairy lines are much better adapted to the economical production of dairy products than cows of no particular breeding.

A contract to buy from 90,000 to 35,000 horses for the British Government was about completed in New York city recently. The horses are for cavalry regiments and the artillery service in South Africa, and they will cost several million dollars. This is the largest single order of the kind ever placed in this country.

The U. S. Army is requiring recruits in size, breed and soundness.

Governor Goer has appointed John O'Neil, of Jackson county a member of the board of regents of the Oregon Agricultural College, at Corvallis to fill the unexpired term of B. S. Page, resigned, his term to expire in 1903. This appointment is in answer to a general demand from prominent farmers in all parts of the state, asking that either a practical farmer or horticulturist be placed on the board. Mr. O'Neil is prominent in fruit raising and farming, and is highly recommended.

The W. R. Allen Evaporator Co., of Newburg Or., has purchased the property of the Eugene Cannery Co. at Eugene. This plant is reported to have cost \$20,000 in the first place and includes a very complete evaporating outfit and a large evaporator. The Allen Company secured it for about \$4,000 and will remodel the evaporator by introducing the Allen system. The Register reports that the cannery will be operated this year for packing cherries and peaches, but no other fruit will be canned.

Poultrymen in Marion county recently reported to the Agricultural College serious fatality among young chickens. In all instances the chicks were the product of incubators and brooders. Several of the dead chicks were examined by Prof. Bennett and in each instance there was found in the lungs either pneumonia or congestion. The facts thus developed indicated that the temperature had been allowed to rise and fall with more or less variations, and that colds, and consequent other lung demoralization had resulted, producing the death of the chicks.—Corvallis Times.

That Throbbing Headache
Would quickly leave you, if you used Dr. Kings New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents. Money back if not cured. Sold by Peery & Peery, Druggist.

The Farmers Store.
W. B. STEVENS & CO.

READER

What would you think of the farmer who bought a pig in a box, seeing nothing of the pig but its tail sticking through a hole in the box. The tail is a sample of the pig.

What would you think of a man who bought his clothing, seeing nothing of the make or style of the suit but a scrap of cloth as large as his hand. The scrap is a sample of the suit. A lock of hair may be a sample of a girl, but what does the girl look like.

We have constantly on hand hundreds of suits of perfect fitting, tailor made clothing for men, boys, youths and little fellows.

Extra satisfaction guaranteed or money cheerfully refunded.

G. D. TROTTER, Stayton.

Millions Given Away.

Call on Peery & Peery, Druggist and get a free trial bottle. Regular size 50 cents and \$1.00. Every bottle guaranteed.

Don't Tobacco Spit and Smoke Your Life Away.
To quit tobacco easily and forever, be sure you get the wonderful new cure, called "Smoking Remedy," at once. It is guaranteed to cure you. Write for free trial bottle. Sold by Peery & Peery, Druggist.

DIED.

McDONALD.—At the home of her daughter, Mrs. E. Jones, near this city, Friday, April 13, 1900, Mrs. Rebecca Jane McDonald, aged 75 years.

The funeral was conducted at the Baptist church in this city Sunday, April 15, and was largely attended. The remains were laid to rest at the Masonic cemetery, south of this city and were followed to their last resting place by a large concourse of sorrowing relatives and friends.

Mrs. Rebecca Jane McDonald was born in Clay County Missouri, February 22, 1825.

While yet a young woman she moved with her parents to Andrew County, Missouri, where she was married to N. G. McDonald in 1849.

In the year of 1846 herself and husband with their two small children, started for the wild territory of Oregon. After a long tiresome journey, of six months in which they endured many hardships, arriving at Oregon City late in the fall where a few white settlers greeted them.

They settled on a farm in Clackamas county, where she remained alone with her little children while her husband took part in the Cayuse war. He was brought home severely wounded and for many months she tended him in her lonely home, (for neighbors were very scarce.) Many weary nights she watched by his bedside when she thought he could never see another sunrise.

She has often told her children of her lonely vigils and would say, "I tell you we paid dearly for our land claim."

They then moved to Linn county, where they settled on their daughter's land claim on the Santiam river. They remained there until the spring of 66 when they removed to their farm near Scio, which has been her home since. Though for the last few years she has spent most of her time with her daughter, Mrs. E. Jones where her death occurred April 13, 1900.

She bore nine children and leaves six to survive her. She was very patient during her last sickness speaking with great fortitude of her coming death. She was a member of the Primitive Baptist church, a consistent christian, and a true and loving mother. Her children were all with her during her last sickness and death. Her husband preceded her to the great beyond June 30th 1881.

XX.
Educate Your House With Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is for sale by Peery & Peery, Scio, Oreg.
