Serious Ills of Women

The derangements of the female organism that breed all kinds of trouble and which ordinary practice does not cure, are the very things that give way promptly to Lydia E. Pinkham's Vegetable Compound.

Uterine and ovarian troubles, kidney troubles, ulcerations, tumors, unusual discharges, backaches and painful periods — these are the ills that hang on and wreck health and happiness and disposition.

Lydia E. Pinkham's Vegetable Compound

has a wonderful record of absolute cures of these troubles — a constant series of successes for thirty years. Thousands of women vouch for this. Their letters constantly appear in this paper.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

Commercial and Financial Happenings of Interest in the Growing Western States.

Bounty for Seal Scalps.

Chairman Kendall, of the fisheries committee of the Astoria Progressive Commercial Association, is circulating a petition among the canners and those most directly interested for subscriptions for a fund to be used in paying a bounty of $1 each for seal scalps and $2.50 each for sea lion scalps. The fund is to be placed in the hands of the secretary of the association and warrants drawn against it by the fish commissioner. This subscription list is the result of an effort being made by the association to exterminate one of the greatest enemies to the fishing industry. It is claimed that a sea lion will devour four salmon every 24 hours, and as there are at least 2,500 of these animals hovering about the mouth of the river, 10,000 fish or 4,000 cases, representing about $13,360, are being destroyed each day. The intention of the association is to have the law amended so as to set aside a portion of the license money for paying this bounty, but this cannot be done until the next session of the legislature, and in the meantime the funds are to be raised by subscription.

14 Years for Highway Robbery.

Martin Everett, an American citizen, was sentenced at Vernon, B. C., to 14 years' imprisonment for highway robbery, alleged to have been committed about a year ago at Grand Forks, B. C. Six months ago the case was laid before United States Consul Dudley, and he presented it to the state department at Washington, D. C. The sentence caused great surprise, as it was known that the case had become an international matter. Consul Dudley tonight apprised Secretary Hay of the sentence. His prior representations to the state department were favorable to Everett's contention that his arrest by Canadian officials at Republic, Wash., was unwarranted.

Fattens Eastern Oysters.

Mr. Wachsmuth expects another car load of Eastern oyster seed for his beds near Oysterville. With him the raising of Eastern oysters is no experiment, as he is the pioneer in the business on the North Pacific coast. He has had fully matured Eastern oysters to ship for two years past, and each year has increased his importation of Eastern oyster seed. He has never succeeded in propagating them here, but depends entirely upon the growth of the oysters he plants for his profits. The demand greatly exceeds the supply.

Navigation on the Upper Columbia is to be a reality, it is said, even though the boats of the portage company fail to materialize. J. A. Pound has commenced work at Arlington on a boat that will be capable of stemming the current of the big river at any stage of water.

C. T. Moore, the Blaine, Wash., mill man, who platted the original townsite of Blaine for the Cain Bros., is making preparations for the building of a complete sawmill and box factory on the Semiahmoo side of the Blaine harbor. Everything is arranged, and the mill will be placed in operation as soon as it can be constructed.

Five well developed cases of smallpox are reported at Forest Center, Stevens county, Wash., three and one-half miles north of Springfield. Dr. Baker reports the cases are in three different families. It is said the members of the families have been around town as usual and many people have been exposed. The county commissioners have been notified of the cases and a quarantine has been established on the three families.

The Bellington Bay Rod and Gun Club has made arrangements to procure 20,000 rainbow trout fry for Lake Whatcom. This variety of trout is the handsomest, gamest and best of the trout family on the Pacific coast and the advantages of securing a plentiful supply of these fish are so great that the club intends to establish a nursery for them near the foot of the lake where the young fish can be brought to an age and size to care for themselves.

An unknown man was killed at Marcus, Wash., while attempting to steal a ride on a freight train. His head was almost severed from the body.

H. B. Moyer has temporarily closed his sawmill on the Calapoola. He has between 400,000 and 500,000 feet of lumber, which will shortly find its way to the valley, mostly to Brownsville. Mr. Moyer will soon move his mill below the old logging camp, where he expects to cut nearly 4,000,000 feet every year.

Gross Bros.' Iron Works are manufacturing a quartz crusher for A. E. Wood and F. E. Gilman, to be used at their mines in the Blue river district, says the Eugene, Or., Register. The machine will weigh in the neighborhood of 800 pounds, and is the invention of Mr. Gilman, who claims that it will crush 10 tons of quartz per day. Two ore cars, to be operated by a cable, are also being gotten out for the same men. The motive power to operate the machinery will be a waterwheel.

BRADSTREET'S REPORT.

Further Subsidence of Demand and Prices.

Bradstreet's says: A further subsidence of demand and leveling of prices is noted in several lines this week, this leveling being no doubt aided by the unsettling effect of the rather more than usually disturbed considerations in labor circles. Its net result is something approaching dullness in many channels of distribution, increased conservatism in the making of ventures and a disposition to digest business already arranged for before making new engagements. That the basic conditions of general business, such as the outlook for crops, the export demand and the increased purchasing power of the people at large, have not been much reduced, but, on the contrary, actually improved, seems evident from the advices received this week.

Business at wholesale is relatively quieter, which is not unusual at this period, but more than ordinarily marked attention is being concentrated upon retail demand, which is, of course, relied upon as a measure of progress of actual consumption.

Touching this public demand, it may be stated that relatively best reports come from the Pacific coast and from the Northwest.

Flour shipments this week are very large. Wheat, including flour, shipments for the week aggregate 4,537,022 bushels, against 3,863,863 bushels last week.

For the week failures number 153 in the United States, as compared with 182 last week.

Failures for April in the Dominion were fewer than in April a year ago, but liabilities were nearly 15 per cent heavier.

ANOTHER FAST TRAIN.

The Rio Grande Western Railway' "The Great Salt Lake Route," has resumed its fast train services to the East, making the run from Portland to Chicago in three days and a half. No layover is necessary, and only one change of cars is made. Those who desire it have the privilege, however, of a daylight stopover either at Salt Lake City or Denver. Three daily express trains are run, leaving Ogden, Utah, at 7:15 a. m., and 1:15 and 7 p. m. The morning train carries a through standard sleeper to Chicago, via the Burlington Route, and the night train one via the Chicago, Rock Island & Pacific Railway. The tourist sleepers and chair cars run daily as formerly through from Portland to Denver. Twice a week tourist excursion cars are run through from Portland to Boston. All trains carry dining cars, making the trip across the continent via "The Great Salt Lake Route," most desirable. The Rio Grande Western Railway is the only road running through Salt Lake City, and with its connections—the Denver & Rio Grande and the Colorado Midland—takes the passenger through the famous Rocky mountain scenery of Colorado.

No Use for Thrones.

Napoleon Bonaparte is quoted as saying to Dr. O'Meara at St. Helena: "If I was in England now, and the French nation was to offer me the throne again, I would not accept it, because if I was to do so I would be obliged to turn bourreau (executioner). I would be obliged to cut off the heads of thousands to keep myself upon it, which would not be pleasant to me. Oceans of blood must be shed to keep me there. No, no; I have made enough of noise already in the world; perhaps more than any other man will make; perhaps too much. I am getting old, and only want retirement. What could I do in France? Alone, to set myself against all the powers of Europe. Madness!" —Century.

Electric flatirons are used exclusively in many large laundries; their advantages are apparent. The heat can always be controlled so as to keep the iron at the right temperature thus obviating the danger of spoiling a finished dress by smut from an iron heated by gas.

Poisonous snakes when with young are sluggish and retiring in their habits. The little ones are born with fangs and poison glands in full perfection, and are dangerous even before tasting food or water. The young are much more active than the adults and probably their poison is more virulent.

The injury to soil by flooding by a high tide is variously estimated to last from five to 20 years. A late investigation in Essex, England, showed that the soil was left with two per cent salt, mostly to the complete destruction of earthworms.

Useful Kitchen Table.

A clever housewife has devised a kitchen table which is most servicable, especially in a small room. She had a carpenter make a second top for the ordinary table and had it fitted on to that with hinges at the back. The top shuts down tightly over the table and is used for the daily service, but when bread or pastry is to be made, it is raised, and a fresh pine surface, never used for anything else, is ready.—Washington Star.

Only Two Centers in the Universe.

There are but two centers in the universe, God and self. We recognize either the one or the other of these as the center about which all things revolve and towards which all things are drawn, in our existence. In the one case we consider our neighbor, the world, our interests, our duties, and our pleasures, in their relation to God, and in God's relation to them. In the other case we consider all these things in their relation to self, and the relation of self to them. How is it in your case?—S. S. Times.

Andrew Carnegie on Trusts.

A director of the Standard Oil Company has recently published in the Independent an article declaring trusts to be good for the workingman. To the May Century, Andrew Carnegie of the Carnegie Company, which rivals the Standard Oil for first place among the world's great corporations, will contribute an essay taking the same ground. In this article, which bears the title "Popular Illusions About Trusts," the great steel manufacturer argues that the evils of trusts are generally self-corrective; that no trust can live long unless it secures a virtual monopoly of the commodity it deals in; and that "the only people who have reason to fear trusts are those who trust them." In the same magazine "The Real Danger of Trusts"—their menace to the independence of the individual and the state—will be pointed out in a vigorous editorial.

An Inappropriate Gift.

She—I've bought a Noah's ark as a birthday gift for the Jones little boy.

Proposed Alliance With England.

If the United States and England should form an alliance, the combined strength would be so great that there would be little chance for enemies to overcome us. In a like manner, when men and women keep up their bodily strength with Hostetter's Stomach Bitters, there is little chance of attacks from disease. The old time remedy enriches the blood, builds up the muscles, steadies the nerves and increases the appetite. Try it.

Compliment With a Sting.

Talk about delightfully put compliments. I heard a girl at a supper deliver herself of a perfect jewel the other night. She leaned across the table—the table next to me—to say it, and she meant well.

"Oh, Miss Dumdum," she said, cordially, "I've got a trade-last for you."

"A swap?" asked Miss Dumdum, beaming with anticipatory delight.

"Uhhuh," answered the other. "Lieut. Bulbul said it."

"Oh, do tell it!" pleaded Miss Dumdum, eagerly.

"It was an awfully nice one," said the first gril, "and Lieut. Bulbul meant it too. He said you waltzed divinely. He said he was awfully surprised, too, to find it out, so I know he meant it. He said he wouldn't have thought from seeing you walk that you could dance at all."—Washington Post.

Shawe—Ah! She looks like a very ordinary woman.

Sniff—I know it; but I visited there while her baby was cutting his first tooth. You may not believe it, but at the time nothing in that woman's conduct would lead anyone to suspect that anything unusual was going on!—Puck.

The Small-Minded Man.

"Well," said the small minded man, "I have found out another woman's age."

"How did you do it?" asked the listener.

"Why, I asked her suddenly how many years it was since 1873."

"But how did you find out her age?"

"She figured it up by subtracting five from 32 before she thought."—Indianapolis Press.

Decorations to Be Restored.

The old question of restoring the traceries to the windows in the palace of the doges at Venice is again agitating artistic Italy. The exterior of the palace as it stands today was begun in the early part of the 13th century, and required 100 years for its completion. In 1577 fire destroyed all but the walls. Up to that time the windows were enriched with beautiful tracery.—N. Y. World.

How Polly Knew.

A "befo'-de-war" matron was teaching one of the little darkies on her plantation how to spell. The primer she used was a pictorial one, and over each word was its accompanying picture, and Polly glibly spelled "o-x, ox," and "b-o-x, box," etc. But the teacher thought she was making too rapid progress, so she put her hand over the picture and said: "Polly, what does o-x spell?" "Ox," answered Polly, nimbly. "How do you know that it spells ox, Polly?" "Seed his tail," replied the apt Polly.—Argonaut.

PERFECT CURE for PAINS and ACHES

ALABASTINE

ALABASTINE is the original and only durable wall coating, entirely different from all kalsomines. Ready for use in white or fourteen beautiful tints by adding cold water.

LADIES naturally prefer ALABASTINE for walls and ceilings, because it is pure, clean, durable. Put up in dry powdered form, in five-pound packages, with full directions.

ALL kalsomines are cheap, temporary preparations made from whiting, chalks, clays, etc., and stuck on walls with decaying animal glue. ALABASTINE is not a kalsomine.

BEWARE of the dealer who says he can sell you the "same thing" as ALABASTINE or "something just as good." He is either not posted or is trying to deceive you.

AND IN OFFERING something he has bought cheap and tries to sell on ALABASTINE'S demands, he may not realize the damage you will suffer by a kalsomine on your walls.

SENSIBLE dealers will not buy a lawsuit. Dealers risk one by selling and consumers by using infringement. Alabastine Co. own right to make wall coating to mix with cold water.

THE INTERIOR WALLS of every church and school should be coated only with pure, durable ALABASTINE. It safeguards health. Hundreds of tons used yearly for this work.

IN BUYING ALABASTINE, customers should avoid getting cheap kalsomines under different names. Insist on having our goods in packages and properly labeled.

NUISANCE of wall paper is obviated by ALABASTINE. It can be used on plastered walls, wood ceilings, brick or canvas. A child can brush it on. It does not rub or scale off.

1000 YEARS OF WASTE

Ever since grate fires were invented, householders have been wasting 80 per cent of their fuel, for most of the heat went up the chimney. But now there is a wonderful change, for everybody who sees it adopts the New Columbian fire grate that has a new system of draughts, makes a white flame, no smoke at all, and sends all the heat into the room.
