PACIFIC COAST NEWS

Commercial and Financial Happenings of Interest in the Growing Western States.

Butchered Seven Whales.

W. C. King, of Sand Lake, writes to the Tillamook, Or., Herdlight, the following story of the killing of seven stranded whales:

On May 10, as O. R. Chamberlain was walking along the beach, he discovered some black objects in the edge of the water, and upon approaching nearer he discovered that they were whales, which had become stranded from some cause or other. There were seven of them, and they were making tremendous effort to get back into deep water, without avail. The tide was leaving them. They would open their mouths and draw in about a barrel of water and then spurt it through the hole in the top of their head 20 feet into the air, and lying sometimes on their sides it was like getting in the cross-fire of a hose company. Mr. Chamberlain made tracks for home to get his gun and a butcher knife to carve them up. On his return he turned loose with his gun to kill them, but after wasting a few shots he saw that he could not kill them in that way, so he sailed into them with his butcher knife, and stuck them as you would a hog. That did the work, and he soon had seven whales strung on the beach that were from eight to 18 feet long.

He at once commenced to strip the blubber from the outside of the body and inside the head. The fat was cut into six-inch strips and thrown across a horse's back and taken home and rendered out, which will amount to several barrels. It has a market value, and Mr. Chamberlain will likely realize considerable from it.

Insurance Rate Loss.

Representatives of the Pacific Board of Underwriters have finally lowered the rate of insurance on all business property in The Dalles, Or. This includes the larger portion of the buildings below the bluff, and the rates in some cases were lowered much more than the citizens had reason to expect. This action on the part of the insurance companies is taken as a result of the increased facilities for fighting fire here above the other cities of the class in the Northwest. A perfect fire alarm system is now in order, and the recent chemical engine and hook and ladder tests have proved very satisfactory.

Quarantine at Ashland.

George H. McGeer, M. D., acting assistant surgeon of the United States marine hospital service, has been ordered from San Francisco to Ashland by the quarantine service, to inspect all Chinese and Japanese passengers of the Southern Pacific passenger trains coming into Oregon from California, and see that they have certificates showing them to have been exempt from the contagion of the bubonic plague before entering Oregon.

Valuable Onyx Mine.

Spokane, May 22.—O. M. Rosendale, a mining engineer of Portland, tells o the onyx quarry, about 50 miles north of here, in Stevens county. Two steam drills and a saw mill are at work mining and cutting the onyx, which is the finest of its kind in this country. It takes a high polish and the colors are rich green and black. The deposit is about 300 by 1,000 feet and the saw mill is fitted with huge gang saws for cutting the mineral slabs. This Stevens county onyx will rival that of the old world.

In a bunch of beef cattle delivered in Arlington, Or., by Joseph Frizzell, there were three steers that weighed 5,000 pounds. An Eastern buyer who saw them said he had never seen finer steers in the Chicago market. The steers were photographed in Arlington, and before an hour 40 copies of the pictures were ordered. They were grade Herefords of the Danneman stock.

The season at the United States fish commission station, at Baker lake, Wash., situated at the headwaters of a branch of Skagit river, is practically at a close. It is estimated that upward of 90 per cent of the salmon taken produced young fry and that more than 10,500,000 healthy young salmon, of the sockeye or blueback variety, were liberated as a result of the work at the station.

The Belgian hare craze has struck Baker City, Or., says the Democrat. Bela Kadish and Moses Fuchs have gone into the business on a limited scale, with the chances of enlarging their business into ponderous proportions off a small capital. Messrs. Kadish and Fuchs received a day or so ge two does from a rabbitry in California, and the pedigrees attached to them would make a Percheron stallion ashamed of himself.

Work is progressing nicely on the water works at North Bend, Coos county, Or. Water is being brought from Pony slough and a reservoir of 100,000 gallons capacity will be constructed on the hill back of town. From this reservoir water will be carried in pipes to every residence in the place and will have a pressure of 55 pounds to the inch.

The Grant's Pass, Or., New Water, Light & Power Company is erecting on the west side of their power house a building for the making of ice. This plant will be supplied with the latest improved horizontal compressors, with a capacity of making six tons of ice a day. The company is also making arrangements to operate an irrigation ditch this summer, that will carry 500 inches of water in an open ditch, to irrigate many hundred acres of land below the power house.

The flouring mills at Chelan Falls Wash., is now running night and day to keep up with orders. The greatest difficulty is transportation up the river. All three steamboats are now loaded to their fullest capacity every trip, and still freight is piling up at Wenatchee.

The Inland Telephone & Telegraph Company, of Spokane, Wash., will begin work in a few days on a new line from Coulee City, in Grand Coulee, to Waterville, Douglas county, in the Big Bend country. This new line will be 45 miles long.

BRADSTREET'S REPORT.

Wheat Higher on Unfavorable Crop Reports.

Bradstreet's says: Continued dullness in many branches and a further shading in several staple lines constitute the leading features in the business situation this week. The weakness of prices is displayed in lower quotations for corn, pork, butter, cheese, wool and cotton among the great agricultural products and petroleum and lead among the mineral products. Wheat is slightly higher, partly owing to less favorable crop reports here and abroad. Continued dryness in the Northwest has given the spring wheat situation a less satisfactory appearance and there is little improvement noted in the winter wheat sections of the central west. It is doubtful, however, if the dry weather has as yet really affected the spring wheat, the chief complaint coming from the lumber interests, which report low streams interferring with the forwarding of supplies.

The industrial situation is, on the whole, rather much better than for some time past, in that new disturbances are fewer and some old ones have been settled. But practical tie-ups in Chicago are still unbroken. At St. Louis all kinds of business have been hurt by the strike of street railway employes, and uncertainty at other cities, particularly in the building trade, has had an unsettling effect upon lumber.

Wheat, including flour, shipments for the week aggregate 5,178,422 bushels, against 3,480,574 bushels last week.

Business failures in the United States for the past week number 155, as compared with 174 last week. Failures in the Dominion of Canada are slightly more numerous, numbering 24 for the past week, against 19 last week.

BAKING POWDER

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful; it assures you against alum and all forms of adulteration that go with the cheap brands.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.

Spectroscopic and other observations show the fixed stars to be self-luminous bodies—suns to the other systems of planets. An analysis of their light indicates the presence of the same chemical elements that exist in our own sun and earth, together with others unknown in our solar system.

The news from Lick observatory that the North star, 255,000,000 miles away from us, has been found to be not one star, but three—swinging around in great orbits like the moon, earth and sun—is another remarkable result of the application of photo-spectroscopy to the telescopic study of the heavens.

If all the dressmakers known to exist in America worked 24 hours of each day for a whole year without stopping for sleep or meals, they would still be able to make only one dress apiece for less than seven-eighths of the women in America.

The meteorological department of the government of India has now four first-class observatories, 174 general stations, and 2,280 rainfall stations, from which regular monthly statements are received.

A SIGNIFICANT LETTER.

New York City, Feb. 15, 1900.

My Dear Carlton:—I know it will please you to learn that my homeward journey from San Francisco was more than pleasant. One striking feature that added very much to my comfort was the dining car service on the Rio Grande Western and the Denver & Rio Grande. This is the finest service of this description I have ever seen anywhere, either in this country or abroad; the food and cooking was all that could be desired, and at very moderate prices. If you happen to know the Rio Grande Western people, I wish you would say to them that it will afford me the greatest pleasure at all times to bear testimony anywhere to the above facts.

Very truly yours,
(Signed) J. ADDISON BAKER, 2nd.

Food That Absorbs Odors.

Flour should not be kept in a store room or pantry where there is cooked foods, as it absorbs odors. Ignorance of this fact accounts for poor bread oftener than an inferior quality of flour. Articles of food that are made of gelatine or milk should always be kept covered, as both milk and gelatine are literal scavengers of the air and absorb not only oders, but germs. Neither cheese, cabbage, fish, nor baked beans should ever be put into the refrigerator. They all leave an oder of which it is difficult to rid the refrigerator, and they also flavor the food.—Cincinnati Enquirer.

Sleep Changes the Verdict.

The jury in a recent law suit unanimously agreed upon the verdict, sealed it and went home to bed. After sleeping over it, they disagreed the next morning. This shows the power of sleep to strengthen the human mind. Those who are troubled with insomnia should try Hostetter's Stomach Bitters. It puts the stomach in good condition and induces sweet, sound sleep. It is the best of remedies for kidney, liver and blood disorders.

And Therefore the Blood Must Be Purified to Cure Disease.

In the blood—here is the origin of a majority of human ailments,—scrofula, salt rheum, pimples, humors, sores, troubles of the stomach, nerves, liver and kidneys, all have their starting point in bad blood, and therefore all may be cured by purifying, enriching and vitalizing the blood with Hood's Sarsaparilla.

PERFECT MANHOOD

Prof. Jules Laborde's Marvelous French Preparation of

"CALTHOS"

For Lost Manhood.

Full 5 Days' Treatment SENT FREE By Sealed Mail.

NO C. O. D. OR DEPOSIT SCHEME.

Every person who is a sufferer from nervous diseases should write the Von Mohl Co., Cincinnati, Ohio, at once, and accept their offer of a five days' trial treatment free of charge. This is no C. O. D. or DEPOSIT scheme but a liberal proposition made to unfortunate sufferers by this long-established concern, which is the largest importer of specifics for nervous and sexual diseases in the world.

The Von Mohl Co. has the sole American rights for Prof. Laborde's French preparation of "Calthos," the only remedy known to advanced medical science that will positively cure nervous debility. This remedy has for years been used as a specific in the French and German armies, and since its introduction into the United States has cured many thousands of sufferers, and the remarkable success of the remedy in Europe has been repeated in this country.

In order to place this wonderful treatment in the hands of every person who suffers the mental and physical anguish of sexual weakness, The Von Mohl Co., has decided to send a free trial treatment to all who write at once. The remedy is sent by mail in a plain package, and there is no publicity in receiving it or taking it. Accompanying the medicine there is a full treatise in plain language for you to read. Take the medicine privately with perfect safety, and a sure cure is guaranteed.

Lost vitality creeps upon men unawares. Do not deceive yourself or remain in ignorance while you are being dragged down by this insidious disease. No matter what the cause may be, whether early abuses, excesses or overwork and business cares, the results are the same—premature loss of strength and memory, emissions, impotency, varicocele and shrunken parts. This specific remedy will cure you at any stage before epilepsy results, with ensuing consumption and insanity. "Calthos" goes directly to the seat of the trouble, no matter of how long standing, and the patient feels the benefit of the first day's treatment. In five days the medicines sent free will make you feel like a new man.

The Von Mohl Co. often receives the most astonishing testimonials from persons who have taken only five days' treatment. They have thousands of testimonials from those who have been permanently cured after having been given up by doctors, misled and ruined in health by disreputable medical schemers, and when they had given up their last hope for health and happiness. No sensible person will permit his name to be used for a testimonial as an admission that he had any of the diseases for which the preparation of "Calthos" is a specific cure. Some irresponsible advertisers are using "made-up" testimonials, but the Von Mohl Co. invariably declines to make public the names or correspondence of any patients who have been cured by "Calthos."

Five days' treatment will be placed in your hands free of cost, and you are earnestly urged for your own sake to send for it without delay. Write to day and send your address. If is not necessary to give embarrassing details of your symptoms. The book accompanying the five days' treatment will enable you to take the medicine in private and treat yourself successfully at home. It costs nothing to try this remedy. It may cost you a great deal more to let this suffering go. Write today. Address THE VON MOHL CO. B, CINCINNATI, OHIO. Largest Importers of Standard Preparations in the United States.
