BY THE EDITOR

The sentiments expressed in the following from the Woodburn Independent are ours to a dot. Those who answered the call of their country were given every possible honor and credit for so doing, and at the same time the size of the salary paid for the services to be rendered had a great deal to do with the patriotism exhibited in going by a large per cent of those who answered the call, and we do not think that they should point to their military record as an excuse for political honors. They were paid for their services and idolized by our people for their bravery; what more should they expect to receive:

"The Valley Transcript of McMinnville calls attention to the failure to recognize politically members of the Second Oregon regiment. The editor of that paper, a returned volunteer, was defeated last fall for city recorder of McMinnville. This spring Lieut. Campbell of Co. I could not get the nomination for prosecuting attorney; Capt. Heath was refused nomination for congress Lieut. Young asked in vain to be sheriff of Yamhill county; Sergt. Harris and Capt. Lambert in the same county wanted to be recorder, but were turned down, Corp. Mellingen being the Democratic nominee, but he also was beaten; Sergt. Hayes even could not get constable on the Republican ticket; Lieut. Murphy for sheriff and Lieut. Finzer for clerk were defeated at the polls; Capt. Phillips did not "get there," and there are others. The Transcript takes consolation in the thought that at least Gen. Ownen Summers will be nominated and elected governor, but we do not believe the general will fare any better than those lower in rank. And why should he? There were volunteers who returned home poor and deserved offices, but Gen. Summers had drawn a handsome salary and a good and highly remunerative office awaiting him. We believe in rewarding the brave boys when it is consistent to do so, but when the voters refuse to sanction such a sentiment relative to subordinates, it would be rough usage in stepping on the necks of the latter to reach a superior officer who has already been well taken care of."

This office is in receipt of a complimentary ticket to the Oregon State Fair, and our thanks are hereby tendered for the same. The prospects for the coming fair are brighter than ever before, and if Oregon is not properly shown up at this meeting there is no use in trying to have a state fair in the future. Every effort is being put forward for the success of the exhibition, and every one is taking an active interest in the matter of county and individual exhibits, and these features alone will be well worth seeing. The races will be the best ever run over the state track, and will encourage a large attendance.

We should all so live and labor in our day that what came to us as seed may go to the next generation as blossoms, and what came to us as blossom may go to them as fruit. This is one meaning that may be attached to progress.

The law of nature is that a certain quantity of work is necessary to produce a certain quantity of good of any kind whatever. If we want knowledge, we oil for it, if we want food, we toil for it, and if we want pleasure we toil for it. There is no reason for any man thinking he is the only man who works.

Here is co-operation carried to the extreme: 150 mechanics and laborers have just opened a saloon in Boise, Idaho. A carpenter has been selected to manage the enterprise. The stock has all been subscribed for and the undertaking promises to be a success. The profits are to go to the wives of the stockholders. This has secured for the scheme the approbation of the women.

To cook potatoes au gratin, chop cold boiled potatoes rather fine; mix them with an equal quantity of cream sauce; turn them into a baking-dish, cover the top with Parmesan cheese and bake in a moderate oven until a golden brown.—July Ladies' Home Journal.

Summer Resorts

"To the mountains of our people in increasing numbers yearly look for those days of relaxation and recreation necessary to maintain the human machine in fair working condition. The languorous sloth of the seashore proves very seductive while it lasts, but many have decided that the annual outing should provide not only radical change of air and surroundings, but also stimulation of flagging energies as will provide brawn and vigor for the return to labor. For this they urge the mountain climb and ramble, the balsam of the mountain pines, and the clear, unadulterated mountain air."

"In this direction the Shasta Route now affords a wealth of attractions. The entire line of road from Ashland to Redding is studded with charming and accessible hotels and camps, where are cheer and comfort and healing at reasonable cost, and where you can hunt, fish, ride, loaf, or play with equal facility."

"Or if you look for healing waters none better can be found, hot or cold, than the springs of Ashland, Colestin, Anderson, Bartlett, Byron and Paso Robles."

"Before visiting Europe, the people of the Northwest should see the glories of Yosemite Valley, and the wondrous groves of Mariposa and Calaveras; the Parisians are likely to make inquiries concerning these attractive resorts."

Send to Mr. C. H. Markham, General Passenger Agent, Portland, for new booklets on Castle Crag, Shasta Springs, McCloud River, Yosemite, and excursion rates thereto."

There is, perhaps, but a single place in this country where almost all the newspapers of the United States are read. To the Exchange Bureau of The Ladies' Home Journal practically every paper in this country comes—an aggregate of nearly 9,000. It is the rule to read each one within a day after it is received, so a large staff of trained readers is kept employed constantly. By this plan it is possible for the editors to keep in close touch with the reading public, and accurately informed as to the topics that are uppermost in the public mind in every section of the country. In this reading, such selections are made as may be of special immediate interest, as well as matter for future reference and notes that may serve as memoranda or suggest articles. Moreover, everything relating to the Journal is clipped and filed. Thousands of dollars a year are spent in this work alone, but Editor Bok regards it as a very profitable investment, as invaluable information is thus supplied that could be obtained in no other way.

Recent developments in the Cuban postoffice troubles show that the retrenchments made by Fourth Assistant Postmaster General Bristow were imperatively demanded by Postmaster-General Smith some months ago, when he ordered that a system of reform should be immediately commenced in order that the expenses might then be reduced. President McKinley had ordered both the director-general of Cuba to obtain the approval of the postmaster general upon all requisition which showed a deficiency in postal management there. While reports have been made monthly to the governor-general, not a single report ever reached Postmaster-General Smith, so in January last he began to investigate matters on his own account, finding that the expenditures were far in excess of the receipts. He then ordered retrenchment, but was not obeyed.

Mr. S. H. Goin, of Jefferson, returned last week from a three months trip through the east, and rejoices at being in the Willamette valley again. While gone he visited Chicago, Knoxville, Tenn., spent considerable time in Iowa and was in Nebraska and Kansas. At Lincoln, Neb., he called on W. J. Bryan who resides on a small farm in the suburbs. He found him with his pants in his boots attending to his chickens, etc. Western Kansas is all burnt up. He was at Willsonville recently swept by a cyclone, and altogether has had his share of experiences.

In the state department at Salem Saturday four new companies filed articles of corporation and received authority to do business. They were The May Queen Mining Co., which will deal in and operate mines. The Lake Creek Improvement Co., will drive logs and engage in fluming; The Adamant Company will manufacture adamant, plaster, etc.; The Cusick Cemetery Association will conduct a cemetery near Kingston, Linn County.

To make corn pone, put one pint of meal into a bowl; pour over sufficient boiling water just to moisten it; it must not be wet. Cover, and when cool add a tablespoonful of shortening, melted, and two eggs lightly beaten. Add a pint of thick sour milk to which you have added a teaspoonful of soda dissolved in two tablespoonfuls of water and mix thoroughly. Turn into a shallow pan and bake in a moderately quick oven for half an hour.—July Ladies' Home Journal.

Light air and sunlight are important factors in keeping the family and the house in a healthy condition. Nothing could be worse than the habit some people have of keeping the house in darkness from early morning until night. The house should be flooded with light and air for several hours each day.—July Ladies' Home Journal.

Ice-cold water is not so good as iced water—that is, water cooled by ice without coming in contact with it. The less of either the better. It is an excellent practice to drink water—an abundance of it—just before retiring, also the first thing in the morning. It is a cleanser of the system, and is a good diuretic.—July Ladies' Home Journal.

Hon. Percy R. Kelly, of Albany, has been appointed deputy district attorney for Linn county by the newly elected district attorney, J. N. Hart. Mr. Kelly is an experienced, able attorney, and a good clean man, and will look after the criminal business for the state in an intelligent satisfactory manner.

HIS LIFE SAVED

By Chamberlains Colic Cholera and Diarrhoea Remedy.

"I am sure that Chamberlain's Colic, Cholera and Diarrhoea Remedy at one time, saved my life," says A. E. Lafslette, of Gregory Landing Clark county, Missouri. "I was in such bad shape that the doctors said I could not live. When I was at the lowest ebb, one of my neighbors brought in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and I took it and got instant relief. I soon got up and around. That was nine years ago and I am still in good health. Since then that medicine has always been in my house and always will be. It is the best on earth." For sale by Peery & Peery.

Kind words.

A Good Cough Medicine

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlains Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following la grippe, and and find it very efficacious." For sale by Peery & Peery.

A Life and Death Fight.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery which wholly cured me. Hundreds have used it on my advice and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and $1.00. Trial bottles free at Peery & Peery's drug store.
