A careful scrutiny of the British war dispatches fails to indicate whether the development of the burghers into bush-whackers will make them limb-burghers or not.

Smaller farms mean more civilized communities, better schools, better society, telephone service and in the near future rural mail delivery. They mean a better type of agriculture; better stock and a greater variety of crops.

It was observed at the first performance of Sousa's band in the American section of the Paris exposition that the enthusiasm of the great audience of Americans that gathered to hear it did not break all bounds until the cakewalk and other ragtime pieces were played. Then the American colony became delirious. It danced and whooped, and demanded encores until the band was exhausted. The Frenchmen present could't understand it.

The glorious fourth has come and gone, and with its many joys and as many sorrows. It was a day on which many exhibitions of patriotism were indulged in by the people of this great country, and again the pledges of freedom were renewed, and the people bound together by new and stronger ties. These celebrations are purely an American affair, and one in which all true Americans delight in taking part. They serve to more strongly bind the liberty loving people of this nation, and show to the world that we are one people, under one flag and look to but one country. May the fourth of July be a day of celebration untill time shall be no more.

It is enough to make a man hate his fellowbeing to see what sort of lunkheads there are who are running little one-horse political newspaper throughout the state. There are several on the exchange list of this paper, and when we look down the column and see massive editorial effusions which state that the democratic national convention will doubtless pass resolutions of sympathy for the Chinese "Boxers" we feel just like taking their names off the list, and not allow ourself to waste any more time in reading such "editorial" rot. A man can conduct a political newspaper on political lines without showing to the entire country that he possesses an empty head.

The Best Remedy for Stomach and Bowel Troubles

"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form. No family should be without it. I keep it in my house at all times." For sale by Peery & Peery, druggist.

Regularity in feeding and milking is an important point in keeping up the milk flow. One cannot milk and feed in the morning at anytime between half past five and half past nine and in the evening between half past four and seven, and expect the cow to do her best. Experiment shows that there is a difference of at least ten per cent between regularity and irregularity. Having a regular hours in the morning to milk, it will not answer to lie abed untill all hours on Sunday morning. If more sleep is wanted milk the cow at the usual time and creep back into bed again. Dairying properly conducted is an exacting employment. There are many chores about the farm that two or three hours earlier or later in doing them makes no particular difference, but milking and feeding the milk cows is not one of them.

Summer Resorts

"To the mountains of our people in increasing numbers yearly look for those days of relaxation and recreation necessary to maintain the human machine in fair working condition. The languorous sloth of the seashore proves very seductive while it lasts, but many have decided that the annual outing should provide not only radical change of air and surroundings, but also stimulation of flagging energies as will provide brawn and vigor for the return to labor. For this they urge the mountain climb and ramble, the balsam of the mountain pines, and the clear, unadulterated mountain air."

"In this direction the Shasta Route now affords a wealth of attractions. The entire line of road from Ashland to Redding is studded with charming and accessible hotels and camps, where are cheer and comfort and healing at reasonable cost, and where you can hunt, fish, ride, loaf, or play with equal facility."

"Or if you look for healing waters none better can be found, hot or cold than the springs of Ashland, Colestin, Anderson, Bartlett, Byron and Paso Robles."

"Before visiting Europe, the people of the Northwest should see the glories of Yosemite Valley, and the wondrous groves of Mariposa and Calaveras; the Parisians are likely to make inquiries concerning these attractive resorts."

Send to Mr. C. H. Markham, General Passenger Agent, Portland, for new booklets on Castle Crag, Shasta Springs, McCloud River, Yosemite, and excursion rates thereto."

Circuit Court

An alibi was proved in the case of the state vs. Ben Mills, charged with cattle stealing, and the jury brought in a verdict of not guilty.

In the case of the state vs Hahn where a verdict of assault was returned, Judge Burnett imposed a fine of $100 and costs on the defendant.

In the damages suit, Weddle vs Hahn for $5500 damages, a verdict for $675 damages was returned about six o'clock Friday morning. Later the case was compromised, Hahn paying Weddle $650 cash, that to include all costs, and Hahn not to appeal or move for a new trial.

Cure for Cholera Infantum—Never Known to Fail.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. The King of Siam owns an "elephant corps," numbering some 500 gray animals. They all are trained for army purpose. A general is in charge.

The royal palaces of Bangkok form a city in themselves. They consist of several hundred individual palaces, surrounded by magnificent gardens and pagodas.

The three new cruisers for the Russian navy, the Askold, the Bogaty, and the Novick, will be fitted with five tall and slendor smoke-stacks, giving them an odd appearance.

Bangkok is a city of waters. It is an Indo-Chinese Venice. More people live in floating houses on the Menam "the Nile of Siam," and the many canals than in permanent buildings.

Was It A Miracle.

"The marvellous cure of Mrs Rena J. Stout of Consumption has created intense excitement in Cammack, Ind.," writes Marion Staut, a leading druggist of Muncie, Ind. She only weighed 90 pounds when her doctor in Yorktown said she must soon die. Then she began to use Dr. King's New Discovery and gained 37 pounds in weight and was completely cured." It has cured thousands of hopeless cases, and is positively guaranteed to cure all Throat, Chest and Lung diseases. 50c and $1.00. Trial bottles free at Peery & Peery's drug store.

Negotiations for peace are being carried on in the Philippines and the prospects seem favorable that terms may be arranged which will give mutual satisfaction. The greatest perplexing problem seems to be the demand by the Filipinos that the friars be expelled, a measure which we can hardly carry out in accordance with our policy of liberality and tolerance. Outside of this matter, there seems little in the way of a satisfactory adjustment, we granting them the essential principles of selfgovernment which we have never denied to them. It is to be sincerely hoped that these negotiations may reach a successful termination. A year of peace will do more toward enlightening these misguided little people in regard to our real intents and purposes toward them than would a thousand years of war. That portion of the county which is now completely under American control is well administered and the sincerity of the people is well evidenced by the faithfulness of the native police.

White Man Turned Yellow

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c Sold by Peery & Peery druggist.

The people of the Willamette valley may form an idea of the sort of weather they may expect during the month of July, from the average for the past twenty-eight years, as compiled by the U. S. weather bureau at Portland. The mean or normal temperature has been 66 degrees. The warmest month was in 1889, with an average of 61. The highest temperature was 102 degrees, on the 23d, 1891. The lowest temperature was 43, on the 10th, 1896. The average rainfall for the month has been 58 inches· average number of days with .01 of an inch or more, 4. The greatest monthly precipitation was 1.80 inches in 1884; least 0.00 inches in 1883 and 1891. The greatest amount of precipitation recorded in any 24 consecutive hours was 1.10 inches, on the 11th, 1878. Average number of clear days, 15, partly cloudy, 9; cloudy days, 7. From the foregoing it will be seen that there have been but two Julys in the past twenty eight years in which no rain at all fell· but the average number of days on which any rain at all fell has only been four.

Admiral Seymour and his fources who have been hemmed in the Chinese for 15 days, have been relieved by a column of British and American soldiers. The forces rescued were composed of Americans, British, Russians and Germans. The harmonious action of the leading nations in uniting to suppress the Chinese uprising, and to protect the interests of the civilized world in China, would convince any nation but China that opposition is a useless and costly experiment.

A storm swept over Paris recently and did some damage to the exposition. A piece of statuary in one of the alleys became underminded on account of rain washing away the earth, and it fell. In the fine arts palace sufficient allowance was not made in some instances for the expansion of glass and iron under the sun's rays, consequently many panes of glass became broken, and when the storm came, water poured into the building in several pieces, threatening the valuable pictures, which were moved to places of saftey.
