BY THE EDITOR

The Oregonian is printing large half-tone pictures and brief write-ups of the editors of the different papers in the state. This is quite a generous act of the great daily, and is highly appreciated by the country paper destroyers.

What is known as "the great fire" in New York City, which occurred in 1835, caused a total loss of \$15,000,000. Saturday's conflagration at the New York wharves destroyed \$10,000,000 worth of property and went far beyond the great fire in fatalities.

The county court has passed a resolution instructing the clerk to present no bills at the regular term of court which have not been sent in prior to the first Monday in the month. This is a pretty good rule, as in the past many bills have been brought in and presented to the court while in session, and in which case no opportunity is given the court to investigate the bill, and in many cases they have to be carried over until the following month. Bills should be presented to the clerk on or before the first Monday in each month.

There is no doubt but what the coming state fair will be the best ever held on the state fair grounds. Every effort possible is being put forth to make the meeting a success, and if the weather is favorable there is no reason why the meeting should not be a success, and a just representative of the enterprise and industries of the state. The farmers all over the state are taking an active interest in the fair, and will doubtless be on hand in greater numbers, and with better exhibits than ever before. The county exhibit proposition offered by the board is attracting wide spread interest, and many if not all the counties of the state will compete for the prize. All in all the state fair the coming fall will be a grand success. Don't fail to attend, and take along something for exhibition.

The county court has let the contract for re-tiling the county bridge at Brownsville, and there are others in the county which need similar attention. The bridges across the Santiam at Jefferson and Stayton should both receive the attention of the court the coming summer. Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c Sold by Peery & Peery Druggist.

Summer Resorts

"To the mountains of our people in increasing numbers yearly look for those days of relaxation and recreation necessary to maintain the human machine in fair working condition. The languorous sloth of the seashore proves very seductive while it lasts, but many have decided that the annual outing should provide not only radical change of air and surroundings, but also stimulation of flagging energies as will provide brain and vigor for the return to labor. For this they urge the mountain climate of the mountains, the clear, unadulterated mountain air."

"In this direction the Shasta Route now affords a wealth of attractions. The entire line of road from Ashland to Redding is studiously charmed and accessible hotels and camps, where are cheer and comfort and healing at reasonable cost, and where you can hunt, fish, ride, loaf, or play with equal facility."

"Or if you look for healing waters none better can be found, but abound at the springs of Ashland, Coalinga, Anderson, Bartlett, Hyron and Paso Robles."

"Before visiting Europe, the people of the Northwest should see the glories of Yosemite Valley, and the wondrous groves of Mariposa and Calaveras. The Parkians are likely to make inquiries concerning these attractive resorts."

"At the Farmers' institute at Grand Prairie, Linn County, a few days ago, one of the farmers who participated in the discussion made the statement that he had realized \$125 a bushel from his wheat, by feeding it to his chickens, while wheat was selling in the market for 30 cents a bushel. There is always a large demand for poultry products in Oregon, and it is no wonder that this industry is increasing rapidly—that it has quadrupled in magnitude in the Willamette valley in the past few years. There is room for further geometrical increase. No poultry products from the Eastern states should be sold in the coast markets, or in the Alaskan or Oriental trade. Our Willamette valley farmers can fully supply all these demands.—Salem Statesman.

COUNTY COURT

It was ordered that hereafter no bills will be taken up or acted upon which have been filed after the first Monday in the month and the clerk is hereby ordered to docket no bills received after the first Monday in the month and any bills so received and filed shall go over until the next term of court.

SWIPED NOTES.

The battleship Oregon is to be drydocked for repairs at Kure, Japan. Case of going to Kure for cure.

Conservative estimates place the value of this year's Hazel River strawberry crop at \$175 an acre above all expenses.

The national banks of Independence are to be consolidated and do business under the name of the Independence National Bank.

An amusing incident occurred at the Motron picnic last Saturday. The gentleman who made the welcoming address prefaced his remarks by congratulating the assembly on the beautiful sunny weather which, but before he had quite speaking black clouds appeared in the sky and the rain came down in torrents.—Bulletin.

One thing which strikes the comparatively disinterested observer more than some others in connection with the present imbroglio in China is the seeming helplessness of the Prime Ministers and other directing officials of the civilized world in the exigency. About the only man up-to-date who seems to know what he wants sufficiently intelligently it appears to be Emperor William.

Two more gray haired men are in Eastern Oregon hunting for the famous Blue Bucket mine. They were boys in 1845 when they passed through the country where the gold was found in lumps and the little girl remarked: "Why I could have filled the blue bucket. These Blue Bucket mines will never be found. But thousands of men are spending their lives today hunting for gold with as little probability of their getting it as the men after the Blue Bucket.

The Rural New Yorker tells a story to the following effect that beautifully adorns the tale and paints a merry moral: "A duck that had laid several dozen eggs during the season complained that while her work record was better than the hen's the latter had books and poems written in her honor, while no one had a word of praise for the duck. A wise old rooster near by said: 'You lay an egg and waddle off without saying a word, while that sister of mine never lays one without letting every one in the neighborhood know it. If you want to get any respect here you must advertise.'

The Best Remedy for Stomach and Bowel Troubles  
"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form. No family should be without it. I keep it in my house at all times." For sale by Peery & Peery, Druggist.
