Willard and Chester McClain, of Buena Vista, were visiting their brother T. D. McClain during the week.

Misses Margarite Donahue and Rilla Denny were callers at Crabtree last Sunday.

Mr. and Mrs. R. S. Derrick came over from the county seat last Saturday for a visit with relatives.

H. O. Shilling returned from McMinnville last week.

Prof. James Shivers accompanied by Eston Bevens, of Independence, were guests at the home of "Uncle." Dan Donahue, the first of the week.

Miss Maggie Munkers, of Albany, spent Saturday with Myrtle Donahue.

"Uncle" Ben Munkers is having his barn newly shingled.

John Gaines is building a first class new fence on his farm.

Miss Janie Wilson gave a very pleasant party at her home Thursday evening. A number of friends were invited to celebrate her fifteenth birthday, and enjoyed a good time.

At the Baptist parsonage in Albany, July 4th, J. Banks, of Newport, Or., and Miss Minnie Watkins were united in marriage. The bride was one of our former school teachers, and a number of friends join in congratulations.

Was It A Miracle.

"The marvellous cure of Mrs Rena J. Stout of Consumption has created intense excitement in Cammack, Ind.," writes Marion Staut, a leading druggist of Muncie, Ind. She only weighed 90 pounds when her doctor in Yorktown said she must soon die. Then she began to use Dr. King's New Discovery and gained 37 pounds in weight and was completely cured." It has cured thousands of hopeless cases, and is positively guaranteed to cure all Throat, Chest and Lung diseases. 50c and $1.00. Trial bottles free at Peery & Peery's drug store.

Samuel W. Fletcher of McCoy, Polk county, has been sued at Hillsboro for $8,000 damages by the son of Mrs. Anna Hatch, who died under such peculiar circumstances some time since in Forest Grove. It is alleged that Fletcher administered poison or otherwise caused the death of Mrs. Hatch.

TAILOR MADE SUITS

2000 Samples to Choose From

You can get any style you want.

You can have any price you want—nearly, and your choice from more different goods than you ever saw in your life before.

Of course you know that every body nowadays who dresses well buys TAILOR MADE SUITS. That is a natural consequence. who would spend good money on han'-me-down clothing—sweat shop product—when he can get perfect fitting tailor made suits for about the same price?

You may be sure that nobody does who has ever worn one of our tailor made suits, for, "once a customer always a customer." He never changes back to wearing the forlorne, antiquated ready—to-wear, clothes—which no kind of glaring head bombast talk will help to sell.

You see our tailor clothes look so extremely fine on a fellow that he feels satisfied with himself and all the world. But how different with the poor unfortunate who wears the shambling sweat shop suits. He feels a sad pity for himself, and nothing but scorn for the one who sold it to him.

The 4 different firms of whom I get tailor—made suit's say that they will forfiet $500 if a single ready—made suit can be found on their premises.

A Good Steak

Choice Roasts, Lard and everything good to eat in the meat line—tender and cut right. If that is what you want, drop in and order it at

SCIO CASH MARKET.

CHAS. CARTER, Prop.

The telephone line between this city and Albany was out of service Wednesday, and the fact caused a good bit of kicking.

L. L. Calavan's many friends in this section will be pleased to learn that he is rapidly improving at the hot springs, and hopes to return within a few weeks fully recovered.

Frank Shelton, who has been mining in Josephine county for several months past, returned to Scio to spend the fourth, and will locate at Hadlyville, in Lane county, for the present.

T. S. Coffey has just received from the eastern factory a new sewing machine for harness making. It is a new kind of a machine, and is a great labor saver, and its work is guaranteed.

Miss Myrtle Myers, who has been a compositor in this office for the past year and a half, has severed her connection with this paper, and will probably go to Salem to work within a short time.

The Scio brass band gave our people some excellent music on the streets last Saturday evening. The boys are not very many in numbers but they make good music, and are improving daily.

A. D. Woodmansee, who has been in poor health for quite a long while, is at Finley soda springs, and is improving in health quite rapidly. He expects to remain several weeks yet, and hopes to return greatly improved.

As the "dinkey" was bringing in a couple of cars last Friday evening and when near the warehouse one of the cars jumped the track, but after about an hour's work it was replaced on the rails without the least bit of damage.

Trout fishing is the order of the day in this section, especially on Sunday, when our people want to get out of town to spend a day in the cool shade in the mountains. Pretty good catches are the general rule, though some do not have the best of luck.

A fire alarm was sounded Tuesday just before noon, and a good size portion of Scio's population were called out in search of the fire, which, however, proved to be a small blaze in the roof of J. A. Bilyeu's woodshed, and was extinguished before the bell ceased ringing.

J. S. Morris has embarked in the produce business in this city, and is now prepaired to pay the highest cash price for all kinds of farm produce. He will make a speciality of poultry, eggs and butter, and if you have any of this sort of merchandise to dispose of you can get the cash for it by calling on Mr. Morris. 2t

Fred Woolley, a printer of many years experience, has accepted a position in this office, and will make this city his home for some time to come. The increasing business of THE NEWS made it necessary for us to employ more help, and we are now prepared to do all kinds of work in the printing line on short notice.

The boys are telling that Sam Zyssett's favorite buggy horse took a lively little spin with him one day last week, and in its wild flight came near running into Joe Morris, who was out in flying colors, and was on his way to a fine farm near Spicer. Sam recovered the horse, however, and isn't saying a word about it, either.

Haying in this section is in full blast, and many of our farmers are through with their work in this line. The rainy weather about the first of the month caught a good deal of hay which had been cut, and lots of it was ruined. The hay crop, however, will be quite large this year, and enough will be saved to meet the local demands.

The closed season for deer ends on Sunday, July 15th, and as there are quite a number of deer known to be roaming around the mountains not a great distance from this city it is not unlikely that there will be some of our people eating "deer meat" before long. And by the way it's pretty good eating, too, and the editor of this paper would like to sample a good sized venison ham.

The machinery for the new saw mill at Roaring river falls is being taken to the new sight, and within a few weeks will be in active operation. As soon as the mill begins cutting lumber the work of building the flume to Larwood will be completed for the delivery of lumber from the mill to Larwood, and as soon as the demand will justify the flume will be extended either to this city or to Crabtree station.

Thos. P. Hanna has brought suit in the circuit court against his wife, May Hanna, for a divorce.

A telephone office has been established at Spicer, and soon one will be put in at Taliman. The company is branching out a good deal and it will not be long until there will be a line up the Santiam as far as Berry or Detroit.

Monday Mrs. Snodgrass, who lives at Spicer, went to the depot for a short time, leaving her aged husband in the house, and when she returned she found him dead. He was sixty-two years of age, and leaves a wife and six children. He was a highly respected citizen, and will be missed by all who knew him.

T. S. Coffey has a new Landis sewing machine for harness making, and was assisted in getting it to work by Mr. Dickens, of Dufer, who is an expert in this line of work. By the addition of this machine Mr. Coffey will be much better prepared to meet the demands of his increasing rade, and the work done by the machine is far superior to that of any similar harness sewing machine.

It's getting about the time of year when a large number of our subscribers' subscription to this paper will expire, and a large per cent of them are still unpaid and we must insist on a settlement of them before the account gets too large. Those who have failed to settle their subscription should do so as soon as convenient, as we are always in need of money, and must have it in order to make our word good, and keep the paper going.

Wm Jones and Thos. Hale, of Jefferson, came up Monday with a span of mules, and were joined here by Ralph Gill, "Jack" Jones and J. A. Bilyeu, and all five pulled out for Mt. Jefferson — two drove the mules to Niagara, and the other three followed on the train. They will use the mules to pack with from Detroit, and the men will "hike" it for about twenty or thirty miles. It will be a pretty nice trip.

James G. Rennie, the Jordan miller, was in Scio the first of the week. Mr. Rennie has been employed by the Portland and Salem mills for a number of years, but has severed his connection with these mills and taken charge of his mill at Jordan and overhauled it and put everything in first-class shape, and is now prepared to do custom work, chop feed and handle grain. He will make a superior grade of flour, and solicits a share of the public patronage.

There is a good bit of wood being hauled to town these days, and it finds ready sale, too. This is just the time of year to buy in a winter supply of wood, and that is just what the writer of this item is going to do, and notice is hereby given that all those who wish to pay their subscription in wood should make the fact known at this office before the first of August, as we want to know just how much we can depend on before the fall rains set in and make wood hauling unprofitable.

Last week M. W. Miller, who lives a short distance from this city, brought to this office a sample of yellow prunes, which grew on a tree on his place, and which were ripe before the last of June. The tree bore same fruit last year, but was quite heavily loaded this season, and the fruit was all gathered before the first day of July. Mr. Miller says that the tree is undoubtedly a seedling, still he does not know much about its origin. The fruit is of excellent quality, though not very large, and is a rich yellow. Mr. Miller contemplates grafting from the tree the coming season, and will endeavor to have more of the trees in bearing before many years.

Dr. A. G. Prill has just received a complete case of eyeglasses for use in testing eyes that require glasses. The case comprises a large variety of glasses—almost every kind known to science, and is accompanied by a full set of instruments for testing the eyes, and getting glasses to fit each eye. Heretofore our people have had to depend on sending away for glasses, or get them of traveling fakirs, and if they did not fit there was no show of ever getting the money out of them. Dr. Prill is now prepared to test the eyes and get glasses that will fit, and if not satisfactory the first time they can be exchanged, and he guarantees satisfaction in all cases. Call and see him when you need anything in this line. 1t

A FEW FARM NOTES

As an annihilator of the horse, the automobile is about the most innocent thing in the world. If this animal continues in existence until extinguished by that uncertain piece of mechanism he will certainly hear Gabriel sound his much talked of trumpet.

The highest price ever realized for a pair of coach horses at public sale in Philadelphia was paid last week at Nichol's Bazaar by D. J. Wright, of Chicago, for Klenkirk and Faversham, a pair of bay trotting bred geldings by Rupert Medium, for which he paid $34,000.

The prune growers, as a whole, favor pooling their crop this year, which will be of great benefit to all concerned. Everyone should support the Cured Fruit association.

During the past two weeks three large tanks of clover have been chopped up in a manner saur kraut and siloed at the Corvallis college farm. Another will be filled with green peas.

The stock ship Dispatch, which left Portland the first part of last month for Nome, had a very successful trip, losing only one steer and one sheep. Shippers are in luck when attended with such success.

Honolulu is purchasing pure bred sheep from the Pacific coast, some going from California. This shows enterprise and thought on the part of the shipper, and there is no reason why Oregon should not get her share.

The South American cattle men have the courage and the money to pay a good price for pure bred cattle. At a recent sale of Shorthorns the bulls averaged $764, and one at $1,600. There is no better market for American breeders than South America offers.

J. M. Osborn, the Shorthorn breeder of Corvallis, is contemplating a trip across the waters. His cattle are in good condition and he may send a sample of them down to the state fair this fall.

The Experiment station farm at Corvallis has harvested three acres of rape, that they estimate will yield 30 bushels of seed to the acre.

M. S. Woodcock, a banker of Corvallis, is taking quite an interest in dairying having one of the best herds of dairy cows in Benton county. He will very likely send a few of his Jerseys to the state fair to compete for the blue ribbons and yellow ochre.

Three Japanese horsemen are in the Blue Grass country visiting the breeding farm and inspecting the horses. These gentlemen own a number of fine horses in their native country, and say that fast horses are in great demand in Japan. One of the objects of their visit to this country is to secure some high class stallions and mares to cross with their native breeds. This experiment has been tried in Japan and the result has been pleasing to the breeders.—Kentucky Stock Farm.

It Saved His Leg.

P. A. Danforth of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25 cts. Sold by Peery & Peery, druggists.

The first time you come to Albany come and see the samples of fotos our $1 Kodak takes. Yours for pills, Dawson.

Death of Mrs. W. E. Curl.

Mrs. Cyrena Payne Curl, wife of W. E. Curl died at her home in this city Wednesday morning, July 11, 1900, aged 77 years. She was born in North Carolina November 22, 1822 and moved to Indiana and from there to Missouri in 1840. She was married to W. E. Curl in Missouri in 1842, and together they lived a contented wedded life for 58 years. In 1875 they came to Oregon and settled near Scio, where they have made their home since, except about six years spent in Albany. Seven children were born to them, the oldest one died in Omaha, Neb., and another died in this state, leaving five children still living. Mrs. Curl united with the Missionary Baptist church in Missouri in 1852, and has lived a consistant christian life since that time. She leaves an aged husband whose joys and sorrows she shared for fifty-eight long years, five children and a host of friends to mourn her death.

The funeral took place yesterday afternoon and was conducted by Rev. C. C. Sperry, of Brownsville, and the remains were laid away in the Masonic cemetery, followed to their last resting place by a host of sorrowing friends

Our people have decided to have a day of racing on Saturday, July 21st, to be a continuation of the fourth of July celebration. A good race program has been arranged, and good purses will be offered. Everybody is cordially invited to come and have a good time, as we were unable to have any races on the fourth, and the money appropriated for the races on that day will be used for the occasion on the 21st.
