Probably the new census will show a list of forty cities with a population of over 100,000 each, and more than a thousand towns of over 1000 each.

According to last year's consular figures, the number of foreigners in China was 17,195, including 2335 Americans. If they are murdered China will be visited by the sternest retribution in her history.

New Orleans gained in foreign exports and imports last year the handsome figure of $23,500,000, or about 40 per cent. When the Mississippi channel is deepened and the Nicaragua canal built the commerce of this valley will astonish the world.

The division of China now seems inevitable. Uncontrollable circumstances lead to such result. Li Hung Chang long ago foresaw this trouble, wisely visited the outside and endeavored to personally make a good and lasting impression in the different countries. Li has his eyes on a throne in south China.

The people of Newberg have accomplished the great feat of securing contracts for over 5,000 acres of beets. It is to be hoped that the projectors of the factory will now lose no time in commencing work. It is everywhere necessary for those who establish beet sugar factories to teach the farmers how to grow the beets. The work of preparing the land for next year's crop should be commenced this year.

There is a desire among some of our people to shoot China pheasants regardless of the law, and this sort of work is going to cause a great hardship among those who enjoy hunting these famous birds, but who have respect enough for the laws of our land to desist from hunting until the open season begins. Shooting birds in open violation of the game law is a practice which should be abandoned, as it is just as much a violation of law as is the committing of larceny, and the person who violates one law is just as much a criminal as the other. There is going to be a large number of China pheasants this year, and if they are let alone there will be plenty for all.

The Best Remedy for Stomach and Bowel Troubles.

"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form. No family should be without it. I keep it in my house at all times." For sale by Peery & Peery, druggist.

The Oregon State Fair should be the best this season than it has ever been. There is a great amount of the finest breed stock in the United States to be found in Oregon at the present time. The management is sparing no expense or energy to get the good stock together, and as the prizes are good the farmers should not be backward about placing what they have on exhibition; the man with the push is the man who is going to get there; people do not want to buy stock without a reputation any more than they want to run all over town hunting for an article when it is paced before them for purchase.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters the wonderful stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c Sold by Peery & Peery druggist.

ALL KINDS OF RACES

Saturday to Be a Day of Many Sports in This City.

Owing to the bad weather on the Fourth of July the race program was of necessity dispensed with, and the money which was set aside for purses made a handsome little balance, to which enough was added by our business men to provide for a day of good races, and these will take place on Saturday (tomorrow) July 21st, and at which time the following will be the program:

BICYCLE RACES.

1-mile, free-for-all—purse, 1st, $7.50; 2nd, $2.50.

¼ mile—1st, $5.00; 2nd, $2.00.

2-mile—1st, $7.50; 2nd, $2.50.

1-mile heat, best 2 out of 3—1st, $10.00; 2nd, $5.00.

HORSE RACES.

300 yards—purse, $30.00.

250 yards—saddle horse, $10.00.

Pony race, $5.00.

FOOT RACES.

100 yards—$10.00.

50 yards—$5.00.

Everybody is most cordially invited, and a good time is assured all who attend. Scio never does anything by halves, and the purses hung up have attracted a good deal of attention both among horse men and bicycle riders, and those who come to town tomorrow will see a number of good races.

In the evening a grand ball will be given by the big 4 orchestra, to which all are given an invitation to attend.

Summer Resorts.

"To the mountains of our people in increasing numbers yearly look for those days of relaxation and recreation necessary to maintain the human machine in fair working condition. The languorous sloth of the seashore proves very seductive while it lasts, but many have decided that the annual outing should provide not only radical change of air and surroundings, but also stimulation of flagging energies as will provide brawn and vigor for the return to labor. For this they urge the mountain climb and ramble, the balsam of the mountain pines, and the clear, unadulterated mountain air."

"In this direction the Shasta Route now affords a wealth of attractions. The entire line of road from Ashland to Redding is studded with charming and accessible hotels and camps, where are cheer and comfort and healing at reasonable cost, and where you can hunt, fish, ride, loaf, or play with equal facility."

"Or if you look for hasling waters none better can be found, hot or cold than the springs of Ashland, Colestin, Anderson, Bartlett, Byron and Paso Robles."

"Before visiting Europe, the people of the Northwest should see the glories of Yosemite Valley, and the wondrous groves of Mariposa and Calaveras; the Parisians are likely to make inquiries concerning these attractive resorts."

Send to Mr. C. H. Markham, General Passenger Agent, Portland, for new booklets on Castle Crag, Shasta Springs, McCloud River, Yosemite, and excursion rates thereto."

The Old Newspaper

Did you ever run across the old home newspaper, ten years old or more? Did it not prove extremely interesting as you read its columns of local news and personal mention? As you look over its pages the many seeming trivial mentions carry with them a mass of tender and pleasant associations. You wonder why you you prized the paper so little when it was first printed, when you find it so full of interest and food for reflection after so many years. It is only when one gets hold of an old local paper and views its panorama of the past, and reflects on what a mirror of local events the papers are, that he begins to estimate their real value as a recorder of current history.—Ex.

Cure for Cholera Infantum—Never Known to Fail.

During last May, an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. For sale by Peery & Peery, druggist.

About Pooling Hops

There will be no pool of the Oregon 1900 hop crop. The Oregon growers fell into the trap laid for them last year by the California growers and do not propose to be fooled again. They will hunt for and find a market at once and not lay back to hold up the market while the other fellows of other states take advantage of the opportunity made temporarily good by Oregon's action. Were all the hop growers of the United States in one pool the scheme would work to perfection, but Oregon can do nothing alone. Many a hop grower of the state has paid dearly for his experience.—Aurora Borealis.

Best Winter Route.

For sunshine, flowers and oranges take the Sunset Route via Los Angeles to all points East. Tourist excursion cars and chair cars to El Paso, Fort Worth, Kansas City, Chicago, Cincinnati, Houston, New Orleans and Washington, D. C.

To Destroy Thistles.

Cut down the plant as low as possible and pour a teaspoonful of sulphuric acid on the crowns of the plants, the acid to be used only in glass, as it attacks all metals and wood and should be handled with great care. If properly applied it will destroy every thistle.

SWIPED NOTES.

A Siuslaw man and his daughter endeavored to kill a bear. The girl was shot through the side by her father, but the bear escaped without injury.

Haven't we still a few thousand Sioux, Apaches and other wild warriors of the plains stowed away somewhere? If only they could be transported to Boxerland and turned loose!

There are sixty "noodle" factories in Switzerland. How many there are in this county is a little difficult to arrive at just now, but there are certainly a few specimens of the output walking around.

Siscoms and Edgewood, two northern California towns, have base ball teams which are to play a match game for $1,500. The size of the purse is the result of a friendly game which resulted in a score of 6 to 5.

It begins to look a little now as though bad-tempered William Waldorf Astor, in publicly advertising that he had not invited Captain Miling to his concert, really did the man he intended to insult a favor.

A late London dispatch sets forth that the South African war has cost Great Britian to date, in killed, wounded, etc., almost 50,000 men. Pretty high price to pay for a write-up in history of a decidedly dubious character.

B. H. Roberts has been expelled from congress, convicted of polygamy by a jury, and fined $150 for having an extra wife. In the case of ordinary citizens it can not be said that the Utah tariff on extra wives comes very high.

A young man in the jail at Portland for forgery threatens to write a book. He demands ham and eggs for breakfast and is named Wise. The authorities should act promptly in this case before irreparable damage is to the community.

Master Lloyd Pruett was recently the happy recipient of a deed to 140 acres of land from Wm. M. Hoag. We were glad to learn of it, for the little boy was crippled in a railroad accident in which Mr. Hoag was interested.—Toledo Leader.

An exchange makes the following report of a birth: Born to the wife of Jim Jones, a boy. The boy favors his old dad in several ways, viz: he is bald, has a red nose, takes to a bottle like a bumble bee to a lump of sugar, and makes a lot of noise about nothing.

Turkey may soon order one, and possibly two warships built in this country. Let us hope the Sultan will not be offended, in view of all that has passed, if we remind him as politely as possible that from now on our credit department will be closed.

Rev. Chas Sheldon, the Topeka "What Christ would do" man, says that he has seen more drunken men in London in a week than he saw in Topeka in twelve years. This seems to be about the right proportion. London is some 600 times larger than Topeka.

The story that a traveler in Rhodesia drove a lot of lions and hyenas away from his camp by throwing English periodicals at them would seem to indicate the prevalence of a hitherto unsuspected degree of literary dash among the oldest inhabitants of South Africa.

The Chinese executioners at Canton have demanded 50 cents instead of 25 for each head they drop off, alleging that they haven't business enough to enable them to make a living at the latter rate. Let them wait till old Li Hung Chang, the local Viceroy, catches a Boxer army or two, and he will probably make their business pretty brisk, for a time at least.

People will be slow to believe the horrible story that Admiral Seymour killed his own wounded to save them from a worse fate at the hands of the Boxers. Civilized soldiers do not shoot their helpless comrades nor do they abandon them to be tortured. They carry them to safety—or they stay and, if necessary, die beside them.

Twenty-five dollars a month on a farm, says a man who is posted, is a great deal better than $50 a month in a city store. As a general thing, at the end of nine months, the former has $150 in cash, three pairs of overalls and a straw hat, while the latter has two suits of clothes, a pair of bicycle pants and $17 in the hole. Yet there are 75 applications for the latter job to one for the former.

Peace has practically been agreed to in the Philippines, the only point still at issue between the United States and the rebels being the expulsion of the friars. The United States cannot expel these people directly, and it is pledged by treaty to secure to them their landed property. But it will investigate their claims to this most strictly, and wherever clear titles cannot be shown, will seize it. In any case the control of the friars over the people has ceased forever.

The barber commission will be in Albany on July 28. It is composed of Sam Howard president, H. G. Myers of Salem secretary, and F. L. Rogers of Oregon City treasurer. In the examination of applicants the commission ask ten questions on each of the following four subjects, sanitary care of a barber shop, mechanical science, science of shaving and surgical science. Each applicant is graded according to the examination passed and experience.

A poster of the Oregon legislature just issued by the secretary of state shows the senate to be composed of 20 republicans, 1 democrat, 2 peoples, 4 citizens, 1 union, 1 citizens-democrat-peoples-union, 1 democrat-peoples. The house of representatives is composed of 35 republicans, 2 democrats, 5 democrat-peoples, 14 citizens, 3 union, 1 democrat-peoples-silver-republican. Rather a conglomeration of party names as far as the opposition to the republicans is concerned.

Cuts and bruises are healed by Chamberlain's Pain Balm in about one third the time any other treatment would require because of its antiseptic qualities which cause the parts to heal without maturation. For sale by Peery & Peery, druggist.

CORRESPONDENCE.

Munkers and Vicinity.

From our regular correspondent.

F. J. Denny was over to Scio Saturday.

Messrs. Goin and Gibson were county seat visitors Saturday.

A. N. Goin has repainted his dwelling house, which adds greatly to its appearance.

Mrs. Jacob Shilling and grandson, Virgil, are sojourning at Newport for a few weeks.

Mrs. T. Kelly was over to Albany Monday for medical treatment by Dr. Hill.

F. E. Wall and family, of Jefferson, spent Sunday at the home of William Wilson.

Mr. and Mrs. Mart Bilyeu were down from Jordan Sunday for a short visit with their daughter, Mrs. George De Vaney. Mrs. Bilyeu left Monday for Albany, where she will remain a couple of weeks while Dr. Hill will operate on a cancer which is under her right eye.

Mr. and Mrs. R. P. Hall and daughter, Miss Grace, returned to Buena Vista Monday, after a visit at the home of D. Donahue.

Last Friday evening Sam Jones, who is employed on the farm of F. J. Denny, killed a 15-pound porcupine near the hop house. It is supposed to be some one's pet which was roaming around.

DYSPEPSIA CAN BE CURED

By using Acker's Dyspepsia Tablets. One little Tablet will give immediate relief or money refunded. Sold in handsome tin boxes at 25 cts. Peery & Peery, druggist.

An Infallible Test.

It has been agreed that newspaper subscriptions are a sad infallible test of a man's honesty. They will sooner or later discover the man. If he is dishonest he will cheat the printer some way—declare he has paid when he has not—sent money in the mails which was lost—will take the paper and not pay for it on the ground that he never subscribed for it—or move off and leave it coming to the office he left. Thousands of alleged Christians are dishonest in this, at least, and the printer's book will tell fearful tales at the final judgment.—Union Scout.

EXPERIENCE IS THE BEST TEACHING

Use Acker's English Remedy in any case of coughs, cold or croup. Should it fail to give immediate relief money refunded. 25cts. and 50 cts. Peery & Peery, druggist.

Ran Over by a Binder.

Dick Peters, who lives about a mile from Albany near the fair grounds, was painfully injured Saturday evening while working with his binder. He was down in front of one of the ponderous wheels endeavoring to fix something in the under part of the machine, when the horses became frightened and ran away, dragging the binder completely over Mr. Peters. He was considerably cut about the face and body, and it was thought seriously injured. Peters was taken to the house and Dr. Davis summoned. The injuries, although painful, are not dangerous.

Card of Thanks.

To our many friends in Scio, who were very kind and untiring in their watchful care during the illness of our beloved wife and mother, we wish to express our most grateful thanks; also for their kindly sympathy with us during our greatest bereavement occasioned by her departure from among us. Yours very truly.

In Memoriam

Lines in memory of my husband, P. O. Smith, who died June 19th, 1900.

He has gone to the silent land,
The husband I loved so well;
How very much I'll miss him
No words of mine can tell.

How sad it was to part with him,
It filled my heart with pain;
But well I know that my great loss,
To him is greater gain.

Death had no terrors for him.
He said, "The way is plain;"
And whispered, "It will not be long
Till we shall meet again."

That thought is comfort to me,
And I'll strive to murmur not,
Tho' often I shall need him,
And tho' lonely is my lot.

I'll look forward to the meeting
Upon a fairer shore,
Where there's no pain nor sorrow,
And where partings are all o'er.

—Mary C. Smith.

Scio, Ore., July 19th, 1900.

Leon Holland, of Salem, who was a corporal of the Second Oregon Regiment in the Philippines, has been granted a pension of $30.

Losses From Grain Rusts

The aggregate loss from rusts in grain is estimated by the Department of Agriculture to be over $40,000,000 annually. The only method of controlling rusts appears to be in the direction of obtaining resistant varieties by crossing and breeding. The loss from smuts of grain is annually reduced through the application of hot water and other methods of treating the seed to kill the smut spores. The present averages yield of grain, says the department report, will be largely increased when the smut diseases are conquered.
