"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lovther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely. I went to sleep and did not awake for eight hours. On awakening a few hours ago I felt so grateful that the first work I did on going to the office is to write to the manufacturers of this remedy and offer them my grateful thanks and say, 'God bless you and the splendid medicine you make.' A damage suit against this city is threatened by David Johnson, who sustained injuries three or four weeks ago from an unfinished walk on Water street, near the Mail office. The injuries received by the fall have been a source of much annoyance to Mr. Johnson, and no little pain. The defect still appears in the walk.—Stayton Mail.

The project for a revival of the Halsey creamery has fallen through, much to the disgust of several promoters of the enterprise. The house to house plan of gathering cream and shipping to Plainview was inaugurated in time to shut out what would have scattered dollars where it now scatters cents in Halsey.—Halsey Cor. Herald.

Some careless hunter fired a load of shot through an open door of Lee Miller's residence the other day, barely missing a little son of that gentleman, who was standing in the doorway, and shattering a mirror hanging on the wall. Hunters have also killed a \$20 sheen and crippled a fine cow belonging to Lee Miller.

A fine Jersey cow owned by George Elliott was shot by some one, though not badly injured.—Jefferson Review.

The citizens of Halsey are raising a great kick because their petition for free rural mail delivery has not been granted. And at the same time the people of Turner state that the system has done more to injure the business interests of that town than anything else. People who live in the country and have their mail delivered at their door do not find it necessary to go to town as often as they did before the rural mail delivery system, hence business men are not pleased at the establishment of new routes.

There is some talk of the telephone line extending their system from this city to Jordan, and the people of that section have been asked to provide the poles for this purpose. Our people will probably furnish the poles in the matter of supplying the poles, and we trust that they will see their way clear to assist, as the extension of the line will mean a good deal for this city. It will put us in direct communication with the rest of the country around Jordan, and otherwise help to stimulate the business relations between the two places.

Chester McClain and Thomas Lefler were arrested Tuesday on complaint of W. L. Jones, charged with trespass. The accused entered a plea of not guilty and the trial took place Wednesday afternoon before Justice Johnson and a jury of six men, J. A. Jeffries appearing for the defense and C. A. McNary for the state. The accused admitted that they had been hunting, without permission, on land leased by the complaining witness, and the jury returned a verdict of guilty. Justice Peason imposed the lowest penalty, a fine of \$15 each, and gave the boys 30 days time in which to dig up the amount.—Jefferson Review.

The Morris evaporator has closed down after a run of five weeks. About 9,000 pounds of dried fruit is the result of the season's work, and most of the fruit was raised on Mr. Morris' orchard in the southwest part of town. Prices for dried apples are not as good as they should be, and do not justify the work and expense of drying, where one has to purchase the green fruit. There are many small evaporators through the country, and a large amount of fruit has been offered for sale. Mr. Morris has received a few bids for his fruit, but the figures were not up to his desires, and he still has the fruit on hand.

Death of William Brock.

William Brock, who was accidentally shot on Sunday, October 7, died at the Scio hotel last Friday morning, October 19, about 1 o'clock.

The accident which caused the death of Mr. Brock was a distressing one, and the details have been given in full in this paper. At the time of the accident it was thought that he was not seriously injured, but later developments pointed to the contrary. It was found that he was in a stooping position when the gun was discharged, and a large part of the charge of shot and three gun wads entered the top of his shoulder, tearing away the collar bone and driving downward in front of the shoulder blade. An incision was made at the lower side of the shoulder blade and the wads and a number of shot removed, and the wound dressed. On October 15, he was thought to be getting along in fine shape, but about that time he was taken with a nervous jerking and contracting of the muscles, which indicated lock-jaw. This seemed to grow worse, and he died in a few days, and he was placed under the influence of opiates, but as no improvements were noticeable Dr. Hill was summoned from Albany, and after a thorough examination pronounced the case a doubtful one. The wound was not painful, and he was healing fast. He grew much worse on Thursday, and death claimed him Friday morning. He passed away without a struggle, and in the presence of his wife and children.

Friday afternoon the remains were taken to his late home that they might be viewed by his aged father, who was thought to be too feeble to come to town, and on Saturday afternoon they were laid to rest in the Masonic cemetery.

The deceased was a man well and favorably known in this section, where he had lived for about 10 years. He was about 50 years of age, and left a wife and four small children to fight the battles of life without the aid and comfort of a kind husband and father. The entire community was shocked to hear of the fatal result of the accident, and all extend to the bereaved family as well as to deceased's aged father and surviving brothers, their heartfelt sympathy.

Retirees Wanted.

I will have a representative in Scio during the potato season, and will pay highest market price for choice potatoes. See him before selling. S. H. Gein.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of Philadelphia, when Dr. King's New Discovery cured her of a hacking cough that for many years had made her life a burden. She says: "After all other remedies and doctors failed it soon removed the water from my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." Dr. King's New Discovery is guaranteed to cure all troubles of the Throat, Chest or Lungs. Price 50c and \$1. Trial bottles free at Peery & Peery's drug store.

Robbed the Grave.

A startling incident, is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters, to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim. No one could fail to try them. Only 50c, guaranteed, at Peery & Peery's drug store.

The Salem Light & Traction company has sent F. H. Anson for \$4,000, which they claim the defendant while in their employ converted to his own use, receiving city and county warrants and not accounting for them. The charges are denied and a big defense will be put up. Mr. Anson is now running an opposition plant.

A new mile of standard single track railroad, without taking into consideration the switch tracks and side tracks, requires about 4,500 ties. The average life of a railroad tie is about five years, so that in ten years a railroad will use ties at the rate of about 9,000 for every mile of track.

WANTED—Active man of good character to deliver and collect in Oregon for an old established business. One year's experience sure pay. Honesty more than experience. One year's experience, one year's city city. Knowledge of all the principal cities. Manufacturers, Third Floor, 215 Dearborn St., Chicago.
