## A FEW FARM NOTES

Don't turn your colts out to rustle with the cattle and sheep, but keep them up in a good warm barn during the winter months. Some one may want to buy them in the spring, and a poor colt always brings a poor price.

One of the best indications of a healthy horse market is the buying and selling of young stock. A few years ago no one would buy a prospective horse at any price, but now there is a buyer for every well bred youngster in the country.

The value of dairy education under the best instructors is being shown by the fact that at the National Butter Makers' association held at Lincoln, Neb., the two men that made the highest record were both dairy students. There were 749 entries of butter, but the scoring was so severe that only 10 scored 94 or over. Of these ten five were dairy students or persons who have graduated from dairy schools. The great value of the instruction they had received is demonstrated. It will be a good thing when the common farmers everywhere come to value the dairy schools as they should and send their sons to them in greater numbers.

## A Good-Sized Deal.

Last week A. J. Johnson, one of Scio's most prominent citizens completed a trade whereby he disposes of his entire interests in Scio, for a stock farm in Polk and Benton counties, comprising 4,200 acres. The deal has been on for some time past, and last week the owner of the farm, Mr. E. P. Cadwell, came over here and looked over our city and was so favorably impressed with it that at once closed up the trade. He gets possession of one-half interest in the Scio roller mills, a controlling interest in the Bank of Scio, and Mr. Johnson's residence property in this city, including his garden and garden. The exchange of property will be made inside of 30 days from date of trade, and Mr. Cadwell will then take Mr. Johnson's place in Scio business circles.

A. J. Johnson is one of our best known citizens, and one whom we dread to see move from our midst, and especially will his estimable family be missed from our social circles.

Mr. Cadwell comes among us a perfect stranger, but brings with him a record of whom any one should be proud, as a financier and business man. We welcome him among us, and trust that he may reap success here in the future as he has elsewhere in the past.
