BY THE EDITOR

HOWEVER much the energy and enterprise of Hon. H. W. Corbett may be admired, it is a patent fact that his age and bodily infirmities render him unsuitable for a representative of this state in the senate of the United States, says the Eugene Register. Personal ambition is not unworthy when honorably directed toward the attainment of a position of dignity and influence. But in choosing a senator for a term of six years, the people of the state cannot be expected to lay aside considerations of public welfare to enable any citizen, however eminent, to secure an opportunity to gratify a personal whim or caprice. Never in the history of the state has there been a time when the need of the right man in the right place was so apparent. The expansion of business at home and abroad, the development of internal resources, the great tidal wave of immigration that is now setting in, the struggle of ambitious neighbors for supremacy, present the necessity of proper representation for the state in congress. It is conceded on all sides that Oregon must be in a position to grasp the prizes as they come. It will never do to make a mistake in electing a senator. Too much depends on the coming man.

SOME of the papers throughout the state are taking up the wail of the Oregonian and are advocating the election of H. W. Corbett, senator from this state. We are not espousing the political ideas of any person or party, neither are we going to try to make our readers believe that the sun will cease shining unless Mr. Corbett is elected. On the contrary, we are of the opinion that the state's interest can and will be better served by the election of a man younger in years, and more up to date in ideas than Mr. Corbett. We have nothing against Mr. Corbett, but think that he has outlived his political usefulness, and should now step down and give room for a man younger in years, and who is more in touch with the people of the state. Men who by years of political jobbery have earned th title of "boss," and who have been the main spring of political machinery for a quarter of a century should not at this day of reform and enterprise seek to block the wheels of progress by seeking offices of public trust which their infirmities will prevent them from filling in a way befitting to the state and her people.

IN choosing a United States senator the legislature should seek to elect a man whose interests would not prevent him from working for the whole state, or that part of it which he represents. To choose two senators from Portland would be an injustice to the other sections of the district, inasmuch as Portland seeks more favors than the whole state at large. We people up this way would like to see some good telling work done for the Yaquina bay harbor. When Mr. Hermann and Mr. Mitchell were representing Oregon at the nation's capitol they were able to secure appropriations for sections of the state other than the Columbia river and its outlet. This state of affairs should exist now, but the chances would not be bettered by the election of the next senator from Portland.

SOME boys and men, too, are waiting for opportunities which seldom come. Others are out creating them. It is needless to say which is the most useful ones to the world. Better a dozen times fail in an effort to create an opportunity than to sit down and wait for old opportunity to come along your path. Ten chances to one, you would not know what opportunity was if you did not attempt to make one.

THE free rural mail delivery system is being extended throughout the country, much to the convenience and benefit of the farming communities. In Oregon many new rural delivery routes have been established, and applications have been made for many more. The routes established in Linn county have given perfect satisfaction, and several new routes have been asked for.

A KANSAS CITY judge is drafting an ordinance providing for a whipping post for wife-beaters. Frequent poultices of the cat or stout club on calloused hides have a tendency of reviving fond recollections of youth, besides giving the victim an impressive dose of his own medicine.

The ladies of our vicinity had a fine Christmas dinner at our school house in honor of our Sunday school. It was a grand success, as it took the cake off the top shelf. Mr. editor, you ought to have been there. Any time you want a square meal come out in the Santiam vicinity, as our women are all fine cooks and appreciate waiting on our visiting friends.

L. Cameron, proprietor of the Star Mill & Flume company, was in our midst Sunday night, the guest of S. W. Gaines. He reports having a slight accident at their mill one day last week, which resulted in the breaking down one of the bents of 20 feet of their mill by piling 15,000 feet of lumber on it and it had not been finished when the whole thing gave way and went 16 feet below—only a slight damage.

Old Uncle Johnnie Richardson was down from near Dotyville, to enjoy our famous Christmas dinner, and to visit with his old friend, S. W. Gaines, and was conversing over the sheep disease, so called leech of of the liver. He relates his experience of "feeding" his on salt and vitriol, which had greatly helped them. As some were quite sick he administered a tablespoonful of powdered vitriol to each and soon afterward killed the sheep and disected them and found all the leach of the liver to be dead, and also disected the galls and found them full of worms, all alive, resembling the angle worm, one worm was a true type of an eel, three inches long. Sheep men should take pains to disect a few dead sheep and examine, and try the vitriol as a preventative, as it will not hurt them.

The Dairy Industry.

The dairying interest in the Willamette valley for 1900 has been a very profitable industry. According to the Portland Telegram there will be an output of 1,000,000 pounds of butter and 50,000 pounds of cheese in the valley. This is about half the product of the whole state. There are 30 creameries in operation in the valley at this time and five cheese factories. There is promise of six more creameries being added to this list before the close of this season. This does not include creameries in the coast counties.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of appetite. Try it. Only 50 cents. Guaranteed. How to Cure Croup.

When given as soon as the child becomes hoarse, or even after the croupy cough has developed, it will prevent the attack. This should be borne in mind and a bottle of the Cough Remedy kept at hand ready for instant use as soon as these symptoms appear. For sale by Peery & Peery, druggists.

A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. One application gives relief. For sale by Peery & Peery, druggists.

Oregon Growing Better.

The Oregon penitentiary furnishes a study in criminology, in the steady decrease in crime during the past five years which is shown by its roster of prisoners which was 69 less on December 1 than on the 30th of November, 1896, this deduction coming down gradually every year. Following is the number of prisoners in the institution on the 30th of November each year since that time: 1896, 349; 1897, 337; 1898, 318; 1899, 313; 1900, 280. At no time in the past two years has the number of convicts been less than it is at present.

MOKI TEA

Positively cures sick headache, indigestion and constipation. A delightful herb drink. Removes all eruptions of the skin, producing a perfect complexion, or money refunded. 25cts. and 50cts. Peery & Peery, druggist.

SHEARED

About 34,000 head of sheep, 10,000 head of cattle and 2,000 head of horses are being wintered in Eagle valley, Oregon. This valley produces more alfalfa to the acre than any spot on earth.

The cattlemen of Eastern Oregon want a bill passed at the next legislature compelling cattle buyers to brand their cattle either with their own brand or a road brand before driving them to the railroad for shipment.

Special Agent Ormsby has established a mail route from this city to Sidney and appointed A. J. Shoemaker carrier, which insures prompt service. It is probable that two more routes will be established from this city.—Jefferson Review.

The most successful farmers are now unanimous in their approval of silos and the soiling of cattle by the ensilage system. Twice as many head of cattle can be kept upon any farm and at a greater profit per head in this manner than by the old pasture and meadow system.

Every farm should in reality be a factory, and the chief end and aim of every farmer should be to work the produce of the farm into perfectly finished products before seeking a market. Butter, eggs, wool and meat are finished products. Farm run upon this schedule will never run down or grow weaker in fertility.

Pneumonia Prevented.

Among the tens of thousands who have used Chamberlain's Cough Remedy for colds and la grippe during the past few years, to our knowledge, not a single case has resulted in pneumonia. Thos. Whitfield & Co., 240 Wabash avenue, Chicago, one of the most prominent retail druggists in that city, in speaking of this, says: "We recommend Chamberlain's Cough Remedy for la grippe in many cases, as it not only gives prompt and complete recovery, but also counteracts any tendency of la grippe to result in pneumonia." For sale by Peery & Peery, druggists.

Nobody ought to have the blues, girls least of all. And yet girls do suffer from moods of depression, and are miserable because they are misunderstood, or because their lives are vague and indefinite, or because they are hedged in by circumstances and cannot see their way out. When we are young we do not realize that we cannot force affairs as we choose; this is a lesson which we learn as we grow older. There is great peace in living for a single day as it comes.—January Ladies' Home Journal.

World's Champion.

"I tried many remedies to cure piles," writes W. B. Smith, of Latham, Ill., "but found no relief till I used Bucklen's Arnica Salve. I have not been troubled with piles since." It's the only champion pile cure on earth and the best salve in the world. 25c per box, guaranteed by Peery & Peery, druggists.

We think we are somewhat of a creamery county, but we hardly have got a start yet, judging from the record of Humbolt county, Cal. That county has 46 creameries with a number of skimming stations. The output during the fiscal year was 3,000,000 pounds of butter, which sold at an average price of 20 cents per pound. The lowest price paid patrons was 18½ cents per pound. About 45,000 milch cows were needed to feed the creameries with the necessary milk supply. During the month of September alone $125,000 was paid to the patrons of the creameries. All the butter was marketed in San Francisco.

Spitting Blood

"I used to cough a great deal and spit blood, and my neighbors in Dayton, Ohio, where I live, said among themselves that I had consumption, although they did not tell me so to my face, for fear of making me despondent. I kept on coughing and trying different sorts of medicines, but nothing seemed to reach my trouble until I got hold of a bottle of Acker's English Remedy. I prayed for health all the time, and my prayers were answered as soon as I began taking this celebrated English expectorant and tonic. Since my recovery I have told hundreds of sufferers from coughs, colds and weak lungs that Acker's English Remedy would cure them. Some of them won't try it, and it does seem to me terrible when anyone deliberately refuses to be cured. There ought to be a law compelling consumptives to take it. Even if they don't care for their own lives, the public's welfare should be considered. Don't you think so too? I hope such a law will soon be enforced."

(Signed) MRS. RICHARDSON.
