

Women Who have the Blues

Despondency in women is a mental condition directly traceable to some distinctly female ill. Well women don't have the blues, but comparatively few people understand that the right medicine will drive them away.

Lydia E. Pinkham's Vegetable Compound

overcomes the blues, because it is the safeguard of woman's health.

It regulates the entire female organism as nothing else does. When the dragging sensation and the backache go, the blues will go also.

Read the letters from women appearing in this paper—women who have tried it and know. There are a million such women.

Flattering Report Upon the Property of the Chiapas Plantation and Investment Co.

The report of the committee of business men sent to Mexico to investigate the property of the Chiapas Rubber Plantation and Investment Company has just been made public. The document is an interesting one and gives valuable data concerning the enterprise conducted by the company named.

The property of the company consists of a plantation of 24,000 acres of the choicest rubber land of Mexico, upon which over 700,000 vigorous young rubber trees now thrive. On the plantation also are numerous mahogany trees, some of which are of prodigious growth, thus demonstrating the richness of the soil. The property is located in the department of Palenque, state of Chiapas, and it is unquestionably adapted to the production of rubber and the growth of hardwood timber trees of great variety.

The committee of investigation consisted of Judge Lucien Shaw, Postmaster O. W. Mauley, Rev. L. M. Hartley, of Redlands, Cal., E. A. Girvin and C. A. Westenberg. They visited the property during the current year and in their report the information is volunteered that the rubber tree of the variety known as the Castillia Elastica is indigenous to the country and especially to the lands lying along the river Michol, on which the property of the company has a wide frontage. Under one of these trees 1,467 young rubber plants were counted, all of which had sprouted from the seed that had fallen from the tree during the present year. The trees bloom in their fifth year, and may be safely tapped the year following. Nurseries have been established for the propagation of rubber trees, and all are thriving. A large force of men are employed in building roads, planting trees and developing the property. Managing Director J. W. Ellsworth is now on the property, and his careful attention to the affairs of the company has resulted in the warm commendation of the directorate. The committee pronounces the proposition of the Chiapas Rubber Plantation and Investment Company to produce rubber for sale by cultivating the trees in large number as a feasible and practicable enterprise. The only trouble that has been encountered has been the scarcity of labor, but plans for overcoming this have been perfected. It offers excellent returns for the investment of small capital, and an investment of \$2.50 a month for forty-eight months will insure a fine annual income after six years. The company has a guaranteed stock deposit of \$100,000 with the American Bank and Trust company, of San Francisco, as an evidence of good faith with investors.

The officers of the company are: L. H. Homestead, president; L. S. Sherman, first vice-president; Charles E. Hawley, second vice-president; Dudley C. Bates, secretary. The offices of the company are rooms 63-64-65, Crocker building, San Francisco. Send for prospectus.

Expensive Views.

At a recent London book sale a "View of New York in 1674" cost the purchaser \$2,000, which is less than it occasionally costs the stranger to get a view of New York in 1900.—New York World.

REVIEW OF THE YEAR

BRIEF SUMMARY OF EVENTS OCCURRING IN 1900.

Concluding Year of the Century Made Memorable by Many Important Happenings: Wars, Internal Disturbances, Great Calamities, Etc.

Many and important are the events that make up the chronological record of the closing year of the nineteenth century. The manifestation of anti-foreign feeling in China, which led to the siege of the legations in Peking and the relief expedition of the world-power, was undoubtedly the beginning of changes in the governmental affairs of that ancient kingdom that will shake the dynasty to its foundations and seriously threaten the integrity of the country. The wars in the Philippines and in the Transvaal, legacies from the preceding year, have been continued through 1900 and are passed on to 1901, without having been brought to decisive official conclusions. Organized anarchy was responsible for the assassination of King Humbert of Italy. To the heat of political warfare must be attributed the killing of Gen. William B. Gobel of Kentucky, and the race feeling between whites and blacks was the cause of serious riots in New Orleans and New York. Two occasions upon which many human lives were destroyed by the elements were the great fire at Hoboken, N. J. in June and the destruction of Galveston, Texas, by that memorable September storm. The opening of the Chicago drainage canal, the discovery of the south magnetic pole, and the Paris exposition were three important events in the realm of science and industry. The roll of prominent persons who have made their exit from earth, surroundings since January first embraces the names of those famed in statecraft, industry, literature and music.

The most important events of the year are summarized thus:

Dainty Appetite

Easily satisfied, a feeling of distress after eating, and more or less nausea between meals, every day—DYSPEPSIA!

No need to say anything about the belching, vomiting, flatulence, headache, pain in the stomach.

Dyspepsia cannot be cured except by what gives vigor and tone to the stomach, functional activity to the whole digestive system. That is, food that does not, according to the results of its use in thousands of completely cured cases, is

Hood's Sarsaparilla

Hood's Pills cure liver and stomach troubles and are cathartic to take with Hood's Sarsaparilla.

Cool Bay Butter.

The Cool Bay, Oregon, creamery, makes about 250 pounds of butter a day.
