Scio cannot afford to have her creamery stand still for any great length of time, and if it will not pay to run it under the system which has governed its operations in the past then some other means must be employed. About the only true solution of the matter is to work more milk. The creamery has at no time in the past received sufficient milk to exceed its capacity, and therefore the expenses have been proportionatly too large, although it has been operated just as cheaply as was possible. It costs very little more to handle milk enough to make 200 pounds of butter per day as it does 100, hence the proportion of profit is much greater when the plant is operated at its fullest capacity than otherwise. Those of our farmers who are taking their milk to the creamery have received a good figure for it, and one that has paid them well for their trouble, and the true soluti n of the creamery problem is to supply more milk.

It is indeed surprising how closely the weather during the past month has conformed to the predictions of Rev. Earl R. Hicks, in his almanac for 1901. There are many who claim that weather predictions for any great length of time ahead, are not reliabl, but by careful observance of the weather and Mr. Hicks' almanac one is compelled to acknowledge that he knows whathe is talking about.

A few years ago our farmers would have fainted at the suggestion that the public roads be macadamized. At the farmers' congress in Salem last week the idea was encouraged. After experimenting for so many years, and having made no appreciable advancement, it is time that the only true remedy be adopted.

There is a likelyhood that the big bridge at Albany will be made a toll bridge at the present session of the legislature, and if so Albany will have a better chance of paying for it than she has had in the past, still it is a question as to whether the toll receipts will much more than pay for collection or not.

A trust has been formed on Bibles, and the American Bible Society, which in the course of its fifty years of existence has given away over 67,000,000 copies of the word, has been knocked out of business by the trust. Its great plant in New York is offered for sale.

We are in receipt of a copy, in pamphlet form, of the message of Governor T. T. Geer, to the legislature which is in session at the present time. The message contains statements of the states financial condition, as well as suggestions for the guidance of our lawmakers.

The official details of Cornelius Vanderbilt's estate shows that his income from divdends and interest was $1,730,290 a year or $3.30 a minute.

Portland detectives are on the eve of capturing the "tall" man and "short" man.

This is the season for grips—political and otherwise.

He Tried a Sample Bottle

Nearly every day people come into drug stores and ask the Druggists to recommend some medicine for their trouble. Very often they refuse to do so, because, as a rule, they do not believe it proper to advise anyone to take a patent medicine of which they do not know the ingredients. It is the physician's business to prescribe. Some make an exception, however, when

anyone has a cough, cold or throat and lung trouble. "I always recommend Acker's English Remedy, because I know just what it will do. It has cured every case where I have seen it tried. It is the best expectorant and tonic I ever handled in my 14 years' experience. I will give just one instance of a gentleman who had been troubled for years with a nasty, hacking cough. I advised Acker's English Remedy. He tried a sample bottle, and was cured before he had taken half of it at no cost whatever. This is an exceptional case, however, as it usually takes two or three bottles."

(Signed) A. B. Cook, Bellefontaine, Ohio.

Sold at 25c., 50c., and $1 a bottle, throughout the United States and Canada; and in England, at 1s. 2d., 2s. 3d., 4s. 6d. If you are not satisfied after buying, return the bottle to your druggist and get your money back.

We authorize the above guarantee.

DEAH OF QUEEN VICTORIA.

Victoria, Queen of England, died Tuesday evening, at half past six. She died surrounded by her children and grandchildren. Her death was painless and was so quiet that the group around the bed scarcely knew when the queen stopped breathing. It became evident before 4 o'clock in the afternoon that she was sinking. Her breath became shorter and the pulse feebler. The medical attendants gave warning that death was near. The Bishop of Winchester and the Rector of Whippingham read prayers for those in extremis. The queen is said to have bade farewell in a feeble monosyllable to her family, assembled at her bedside at mid-day. She first recognized the Prince of Wales, to whom she spoke a few words of great moment; then Emperor William and the others present filed past and heard a whispered good-bye. All those in the bed room were in tears.

Albert Edward is hailed as king.

The Ordinary Sleeper.

The Pullman Company now operates two grades of sleeping car via the Rio Grande Western Railway. The ordinary sleepers are entirely new, and the berths, both upper and lower, are fitted up complete with mattresses, blankets, sheets, pillows, curtains, etc., with stoves arranged for making tea, coffee, etc., requiring nothing to be furnished by passengers. Uniformed Pullman porters are in charge of the cars, who are required to keep them in good order and attend to the wants and comforts of passengers. The cars are very handsome and commodious, and while not so elegant, are just as comfortable as standard or palace sleepers. Both first and second-class passengers are permitted to occupy these cars on payment of the Pullman berth rates, which are less than half of the rates charged in the regular Pullman sleeping cars.

The ordinary sleepers are carried daily on trains via Rio Grande Western Railway between Denver and San Francisco and Portland. On five days in each week the sleepers are run through between Los Angeles and San Francisco, or Portland and Denver, Omaha, Chicago and Boston.

A Deep Mystery.

It is a mystery why women endure backache, headache, nervousness, sleeplessness, melancholy, fainting and dizzy spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mrs. Phebe Cherley of Peterson, Ia., and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me, and, although 73 years old, I now am able to do all my housework." It overcomes constipation, improves appetite, gives perfect health. Only 50c at Peery & Peery's drug store.

Life Lines.

It is not good for a man to be alone but it's positively dangerous for his wife

Love is like a razor—it's the very devil if it dont run smooth

A sip of the cup of sorrow often makes a man drink too deep, and he falls into the gutter.

A man hardly knows how he stands with the girls when she says she regards him as a "friend."

Publicity is an unmitigated evil—it leaves so little scandal for us to whisper of our friends.

Brought Good Fortune.

A small item in his own paper lately brought amazing good fortune to Editor Chris. Reitter, of the Saginaw (Mich.) Post and Zeitung. He and his family had the Grip in its worst form. Their doctor did them no good. Then he read that Dr. King's New Discovery for Consumption, Coughs and Colds was a guaranteed cure for La Grippe and all Throat and Lung troubles; tried it and says: "Three bottles cured the whole family. No other medicine on earth equals it." Only 50c and $1.00 at Peery & Peery's drug store. Trial bottles free.

How to Make Hens Lay.

The News has a proposition that may not exactly solve the question, "How to Make Hens Lay," but it will help you to make more money out of your hens than you are now doing. If you pay up all arrearages and one year in advance, we will send you The Western Poultry News one year free. It is a big 16-page paper published at Lincoln, Neb., and is recognized authority on poultry matters, many of the best known poultry experts contributing their experience.

For the Sake of Contrast

Compare one of the shirts done up at the Salem Steam Laundry with those you have been wearing and it will be as plain as black and white that their superior methods are the triumph of fine laundry work in its exquisite color and finish. Shirts, colars and cuffs laundried there in a manner equal to new at the very lowest prices. Laundry sent every monday morning from the express office, and returns Saturday.

It is said that Edison is working on an invention that will enable every farmer to light his residence and barns with electricity at a less cost than coal oil. The plan is that each and every individual owns an electric plant with the capacity of any home.

Linn County Entitled to It.

EUGENE, Ore., Jan. 8, 1901.

EDITOR EUGENE REGISTER.—Will you kindly allow me a little space in your columns for a few words inregard to the "tempest in a teapot" that is now raging in regard to this land dispute between this county and our neighboring county of Linn?

Having resided in Linn county for over a quarter of a century I think I know the people pretty well and know whereof I speak, and such being the case cannot help but notice the different spirit now here, to what that was a dozen or so years ago in Linn county when this same land was given by them to this county. It was shown by the citizens of this county and the residents of the Mohawk that that part of the county was naturally tributary to Eugene from the fact that all the streams flowed towards Eugene and as a natural consequence the people there would not have to cross mountain barriers to go northward to Albany for supplies and transact business, but could follow down stream to Eugene. I say when this was shown to the people of Linn county no trouble was encountered and the request was granted and Mohawk and Mabie were added to Lane county.

It was supposed at that time that Lane county got this land from Linn because the waters flowed into Lane, making it tributary to this county. Now this being a fact, the Calapoola is a Linn county stream so that being case, that valley surely ought to be turned back to its former owner, so its residents can follow down the natural outlet to the Willamette same as they can on the Mohawk.

With regard to this talk of additions to southern Linn county on account of division of county, removal of county seat, etc., that is all pure imagination, and cuts no figure at this time. The main thing now in sight is the great mineral deposits that are being opened up on the head waters of the Calapoola and Blue rivers which in a short time will come to the front as a mining camp. The past summer there has been considerable development work done on the Calapoola side of Gold Hill and nearly all of these parties are Linn county people and of course it is but natural that they want a wagon road to go up the valley of the Calapoola, and just here I would like to say that these people have already expended considerable money on mountain trails into this section and have a good wagon road well advanced towards completion towards the Lane county line and intend to push it through to the mines this coming summer.

This new wagon road coming into our camp from the north will in no way work any hardship or be any detriment to the roads already built into our camp but on the contrary will help to attract people and capital into our new district. We need the Lucky Boy wagon road extended to the summit of Gold Hill on the east and with the new Linn county road from the north and the present Gate Creek road greatly improved coming to the summit from the west, we shall then begin to get ready to do something with the many fine gold prospects in this new camp.

we have as fine indications on the surface for gold as any camp on this coast and with this have water, timber and good climate but everything is at a standstill for lack of transportation facilities and the sooner we all awake to this fact the better it will be for this whole section of country and especially to Eugene.

The Mother's Favorite.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Peery & Peery, druggists.

Bite of Culinary Wisdom.

White meats require thorough cooking, while red meats are usually served rare

Avoid banging oven doors while baking it is the cause of many cakes and pastry being heavy.

Salt spread on the oven bottom under a baking pan will prevent scorching; asbestos mats are also good

"Steeping" means infusing in water maintained below the boiling point

Canned goods of all kinds should be emptied from the cans as soon as they are opened. They should never on any account be left to stand in the cans.

Dried orange peel allowed to smolder on a piece of red-hot iron or on an old shovel will kill any bad odor in existence and leave a fragrant one instead.

Use boiling water when it first boils or the gases escapes and the water becomes flat.

Brush the bottom crust of a fruit pie with white of egg and it will not be soggy.

Brass kettles should be kept clean with salt and vinegar in order to avoid verdigris poison.

Add one or two teplespoonfuls of sugar to strong turnips when cooking.

A Prominent Chicago Woman Speaks

Prof. Roxa Tyler, of Chicago, vice-president Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I will never be without this splendid medicine again." For sale by Peery & Peery, druggists.

Southern California.

Notable among the pleasures afforded by the Shasta Route is the winter trip to Southern California and Arizona. Renewed acquaintance with this section will ever develop fresh points of interest and added sources of enjoyment, under its sunny skies, in the variety of its industries, in its prolific vegetation and among its numberless resorts of mountains, shore, valley and plain.

The two daily Shasta trains from Portland to California have been recently equipped with the most approved pattern of standard and tourists sleeping cars, but the low rates of fare will still continue in effect.

Illustrated guides to the winter resorts of California and Arizona may be had on application to

The kidnapper frowned darkly, "what's the matter?" asked the old pal whom had not seen for years. "I expected," the kidnapper answered, "to find $25,000,- in the sack I had hung by the chimney in the deserted cabin, but all I got was a note saying the ___ was only a stepson! Curses on the man who declines to be a father to his wife's other children! We must move to have our divorce laws amended!"
