BY THE EDITOR

"What to Eat" is the name of a Minneapolis paper that comes to us now and then. We would respectfully inform the publisher that what to eat is not so much important just now as how to get it.

There are too many in this world who will not eat their bread upon the water unless they are assured beforehand that it will come back in a few days a full grown sandwich, all trimmed with ham, buttered and rolled up in a warranty deed for one-half of the earth and a mortgage on the other half.

A grand jury is never a very big success at finding out what witnesses don't want to tell. A reporter can give the average grand jury a full hand of aces and then beat them at the game. Reporters have been known to pump out of grand jurymen things that they themselves were cautioned not to tell.

We have hanging up in our anatomy a plain black band of generous dimensions, which appears too small for a belt and too large for a sleeve holder. The article was found on the street, and in case the owner comes in and proves property, the same will be turned over without the customary fee for advertising.—Ex.

A parent writes to us that he is annoyed and pained by his son staying out nights, and asks us if we can present a remedy for this rapidly growing evil. The boy's spine can be broken with an ax, or he can be nailed to the floor with a red-hot railroad spike driven through his abdomen; but the most effectual way is to compel him to wear patched clothing.

Here are some of the terrible things which, according to a country exchange, are likely to befall a delinquent: "Last week a delinquent subscriber said that he would pay up Saturday, if he lived. He's dead. Another: 'I'll see you tomorrow.' He's blind. Still another: 'I hope to pay you this week, or go to the devil.' He's gone. There are hundreds who ought to take warning by these procrastinators and pay up their subscriptions now.

An old timer was in our office the other day, and said when he was a boy at school he read his lessons something like this: "See the cow. Is the cow nice? Yes; the cow can run. Can the cow run as fast as the horse?" But the latest up-to-date style of reading by the average kid is as follows: "Get onto the cow. Ain't she a bute? Sure, she's a coker. Can the cow get a move on herself? Can she hum like a hoss? No she can't in it with a hoss."

There is a time in almost every young man's life, says a wise observer, when he imagines he is really a warm number. When he grows older and, by experience, accumulates a store of good, common horse sense, he views the same class of boys with disgust. He meditates on his past, and wonders if he ever was such a confounded fool. A smart Aleck is about the most despicable mortal that ever drew breath, but the law forbids killing them, and people have to grin and bear their presence in the community.

Danger of Colds and La Grippe. The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Peery & Peery, druggists.

A contributor sends us a story in which is the statement that the fair heroine "lay upon the floor breathing out her life in short pants." This will never do. We can't print such stuff as that. It might suit papers, but we have a reputation to sustain, and shall do it if it breaks the management.—EX.

SIX HEADACHE. Absolutely and permanently cured by using Moki Tok. A pleasant herb drink, cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed by money back, 25 cts and 50 cts. Peery & Peery, druggist.

The Queen's Propriety.

Among the many remarkable things in Victoria's life none more so than the extraordinary longevity of descendants born during her lifetime. She was the mother of nine children and the grandmother of forty. The most remarkable point in connection with these forty-nine persons is the fact that since the birth of the first, sixty one years ago, only seven of them have died, showing that in this instance, at least, the popular opinion is at fault when it attributes weak and diseased condition to all the royal families of Europe. The Queen's nine children survive her, the eldest being Victoria Adelaide, the Princess Royal, who was married to Frederick, afterwards Emperor of Germany, and father of the present Emperor. But one of the Queen's children has failed to become a parent, and that the only one who did not marry royal blood, the late Louise, who became the wife of the Marquis of Lorne, a Scotch gentleman, in 1870. There was much opposition to this marriage, not only from the lady's family, but from the aristocracy of England, which professed to be horrified that a person of royal blood should join with a commoner. Louise had in her composition, however, much of her mother's determination, and besides, she was in love, so the marriage was consummated, and has proved a remarkably happy one.

Besides her forty-nine children and grand children, Victoria was great-grandmother to thirty-one persons, making the large total of eighty of her line born during her lifetime.

PLAYED OUT.

Dull Headache, Pains in various parts of the body, sinking at the pit of the stomach, Loss of appetite, Feverishness, Pimples or Sores, and all positive evidences of impure blood. No matter how it became so it must be purified in order to obtain good health. Acker's Blood Elixir has never failed to cure Scrophulous, Syphilitic poisons or any other blood diseases. It is certainly a wonderful remedy, and we sell every bottle on a positive guarantee. Peery & Peery, druggist.

Will Ascend Mt. Hood.

The Mazamas are planning already for their July outing. They propose to meet at Mount Hood for an educational rally. Religious services will be held Sunday, July 14, at timber line, by representatives of every religious belief. The four days following will be devoted to scientific field work. The club will celebrate its seventh anniversary July 19, at 2 p. m., on the summit of Mount Hood. At this time many persons will stand on the highest point of the mountain to participate in the exercises.

Had to Conquer or Die.

"I was just about gone," writes Mrs. Rosa Richardson, of Laurel Springs, N. C. "I had Consumption so bad that the best doctors said I could not live more than a month. I began to use Dr. King's New Discovery and was wholly cured by seven bottles and an new stout and well." It is an unrivaled life-saver in Consumption, Pneumonia, La Grippe and Bronchitis; infallible for Coughs, Colds, Asthma, Hay Fever, Croup or Whooping Cough. Guaranteed bottles, 25c and \$1.00. Trial bottle free at Peery & Peery's drug store.

Mr. Wood Was Acquitted.

The case of the state vs David Wood was tried in Justice Swartz's court Monday. Mr. Wood resides in the Forks of the Santiam. He was charged with tearing down and leaving down the fence of another, the property being that of his daughter, Mrs. Ethel Sinclair. It appears to be a sort of a family affair. The case was tried before a jury. A number of witnesses were examined. After hearing the evidence the defendant was acquitted by the jury.—Herald.

The claim of other medicines to be as good as Chamberlain's are affectionately set at rest in the following testimonial of Mr. C. B. Glass, an employee of Bartlett & Dennis Co., Gardiner, Me. He says: "I had been adding to a cold and cough in the winter of 1897, trying every cough medicine I heard of without permanent help, until I was in the grip of Mr. H. H. Hoshorn and he advised me to try Chamberlain's Cough Remedy and offered to pay back my money if I was not cured. My lungs and bronchial tubes were very sore and I hid, but I was completely cured by this remedy, and have since always turned to it when I get a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines. For sale by Peery & Peery, druggists.

England has sent 500,000 troops to South Africa so far, and more will have to be sent. The business of cutting off the existence of two little republics proved not as easy as was promised it would be. Those who fight for home and country are not so easily overcome by those who fight for so many dollars a month. The professional fighter is not in it with the man who is forced to go to war to preserve his rights.

"I hobbled into Mr. Blackmon's drug store one evening," says Wesley Nelson, of Hamilton, Ga. "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I suffered, for a long time. I told him I had no faith in any medicine as they all failed. He said: 'Well if Chamberlain's Pain Balm does not help you, you need not pay for it.' I took a bottle of it home and used it according to directions and in one week I was cured, and have not since been troubled with rheumatism." Said by Peery & Peery, druggists.

Two of a Kind.

SHEARED

Man's life is a game of cards. First it is "cribbage." Next he tries to "go it alone" in a sort of "cut, shuffle and deal" game. Then he raises the "duces," while his mother "takes a hand in," and, contrary to Hoyle, "beats the little joker" in her "five." Then, with his "diamonds," he wins the "queen of hearts." Tired of playing "a lone hand," he expresses a desire to "assist" his fair "partner," "throws out his cards," and his clergyman takes a \$10 bill out of him for a "pair." She "orders him up" to build the fire. Like a "knave" he joins the "clubs," where he often gets "high," which is "low," loss. If he keeps "straight," he is sometimes "flush." He grows old and "bluff," sees a "deal" of trouble, when he at last "shuffles" off his mortal coil and "passes" in his checks, and his "trick" is in his "spade." "Life's game" is ended, and he awaits the summons of Gabriel's "trump," which shall "order him up."

A jealous Jerseyman engaged in shooting up a preacher the other day, because of a confession made to him by his wife.

A dispatch says: "Mr. Pjerkwitz is making a name for himself as a pianist." Nobody needs it worse, and he ought to hurry up.

"We caught a burglar in our room last night," writes a Georgia editor, "and we are now in possession of \$5 and a new hat. 'All things come to him who waits.'"

There was a time once when the people of this republic heard a good deal about one George Washington and his little hatchet. Now it's Mrs. Nation and her ax.

A good deal of discussion has been going on lately as to why the British yachts always fail in the cup race. That's easy. The American boats are faster.

The famous seafaring wrecker is going to Chicago to lecture before the Press Club. It is presumed that the club bar will be guarded by a special detail of policemen.

Queen Wilhelmina and Duke Henry were married this week. Has Wilhelmina become Mrs. Henry, or has Henry become Mr. Wilhelmina? Time will probably tell.

The Albany Creamery Association has been incorporated with a capital stock of \$10,000. The original stock was \$5000. The company has purchased the Plainview skimming station.

Invitations to walk up to the recruiting office and sign for a three years engagement with Uncle Sam, at \$16 a month and board and clothes, are now open in every section of the country.

Minneapolis has a handsome woman burglar who is thrilling the town by her reckless daring, and incidentally carrying off many valuables. Naturally she makes a specialty of jewelry and clothes. Don't you think it is nicer to ride a bicycle and think how much nicer it is to ride a bicycle than to walk to work? Or what do you think about it?

It is stated that some Congressmen are opposed to an extra session because they want to get away from Washington before Mrs. Nation has a chance to do her smashing specialty in the Capital saloons.

A certain fop father has a son in college. The other day he wrote him a long letter, in which he took him severely to task for his extravagance, and wound up as follows: "Your mother incloses \$5 without my knowledge."

The Associated Press agent at Ocean Springs, Miss., don't mean to be humorous when he closed a news item dealing with a lynching near that place thus: "Everything was done in a quiet manner, and no cruelties were perpetrated."

Recent discoveries among the ruins of ancient Babylon indicate that over 2000 years before Christ there was such a thing known as official corruption. If the onward march of improvement has made it a fine art by now, who shall wonder.

W. W. Astor, the renegade American who lives in London and has become a British citizen, has captured a duke for a son-in-law. We trust the duke will not, in any of the family fare, remind the duchess of her peddling ancestors.

San Francisco Bulletin: At Cripple Creek, Colo., the miner may go up to his work from the town on an electric car, go down in the mine by an electric hoist, operated by electric signals, the shaft being kept dry by an electric pump, talk to the town and thence to the world by an electric telephone, run a drill electrically and fire his shaft by electric blast. Much of this will soon be done by miners working in the Comstock mines.

Asthma's Clutch

The sufferer from Asthma is constantly wheezing, gasping, choking and clearing his throat. When a storm approaches, when there is a cloud of dust, when a room is being swept, or when there is a bad odor, breathing becomes difficult, the chest tightens, often it seems as though someone was clutching the sufferer by the throat.

times lasts only a few minutes and signals danger for many days. There is only one safe thing to do, and that is take Acker's English Remedy for Throat and Lung Troubles. Just what this medicine accomplishes is shown by the following letter from Mr. N. H. Andrews, a prominent resident of Springfield, Ohio, who writes:—

"W. H. Hooper & Co., New York: Gentlemen—It affords me a great pleasure to assure you that I have received both immediate and permanent relief from my bronchial and asthmatic troubles by using Acker's English Remedy, taken strictly according to directions. It is a blessing to humanity."

Just take one bottle of Acker's English Remedy for Throat and Lung Troubles, and you will find it a blessing to humanity. It is a blessing to humanity. It is a blessing to humanity. It is a blessing to humanity.

Southern California.

Notable among the pleasures afforded by the Shasta Route is the winter trip to Southern California and Arizona. Renewed acquaintance with this section will ever develop fresh points of interest and added sources of enjoyment, under its sunny skies, in the variety of its industries, in its prolific vegetation and among its numberless resorts of mountains, seas, valley and plain. The two daily Shasta trains from Portland to California have been recently equipped with the most approved pattern of standard and tourist sleeping cars, but the low rates of fare will still continue in effect. Illustrated guides to the winter resorts of California and Arizona may be had on application to C. H. MARKHAM, G. P. A., PORTLAND, OREGON.

Will Boom His Business.

S. Laval, a merchant, of Dallas, Tex. writes: "I thought I would have to give up business, after two years of suffering from general debility brought on by overwork and long hours, but four bottles of Electric Bites gave me new life. I can now eat anything, sleep well and feel like working all the time. It's the best medicine on earth." It's a wonderful tonic and health builder for tired, weak, sickly and run-down people. Try it. Satisfaction guaranteed. Only 50c at Peery & Peery's drug store.

Man With Chicken Fever.

M. M. Johnson, of Nebraska, in a recent issue of Orange Judd Farmer, says: "This chicken fever that gets up all some times is contagious, and needs a remedy. I would advise some kind of a tonic, such as holding on to a good job. I can't make fun of any one with that fever, as I had it myself once. It was about six years ago that I first started, and it came in that way: If it costs only one bushel of grain to keep a hen a year, I can buy corn for 15 cents, and if she lays 240 eggs worth one cent each, there will be \$2.25 profit. Then, why should not 100 hens make a profit of \$225, and 1000 hens of \$2,250? Then I took up the broiler question, and found that one cent eggs could be turned into 40 cent broilers."
