S. E. YOUNG & SON, ALBANY, OREGON

Death Claims Two Victims.

Lola Ramer, was born in Pike Co., Ill., June 9, 1866. She came to Oregon in 1888, for the benifit of her health, which had been failing for some time. Relief was only temporary, and after the first few years of her residence here she was a sufferer most of the time until her death; which occurred at 7 o'clock on the evening of May 19, 1901, thus being 34 years 11 months and 10 days old. She was laid to rest at Providence cemetary, the funeral services being conducted by G. L. Sutherland. Thus one by one,

"The old and the young,
The low and the high,
Shall moulder to dust,
And together shall lie."

Lula (Osborn) Bilyeu—Wife of M. E. Bilyeu was born in Illinois, July 8, 1866, died May 19, 1901, at Scio, Oregon, aged 34 years 10 months and 11 days. She was married to M. E. Bilyeu Feb. 28, 1886. She was the the mother of five children, all of whom with her heart broken husband she leaves behind to mourn the loss of mother, and her kind and loving care. She was a christian in life and example, though did not belong to any creed,—always kind, patient and loving to her family and friends, never gossiping of putting her fingers into other peoples affairs. While her grave was most beautifully decorated with flowers, in token of tender friendship and esteem, as she was laid away in Franklin Butte cemetary. Their sincerity is yet to be made manifest, and the sweet fragrance of the flowers are now to be scattered along the life and pathway of the dear little ones she has left behind, in kindly administrations to their wants and needs, which they so much need in their future life, and in which the good Master will say—"In as much as ye have done this, for one of these little ones ye have done this for me" also.

One year ago the trustees voted to establish a High School course, a business course, and a teachers course. The wisdom of said action is already apparent. Fourteen pursued the business course wholly or in part, six will graduate next week in the Elementary business course and receive certificates. There are a few, no doubt, in Scio or vicinity that fully realize the immense stride the school has made forward during the past year in its curriculum of work, what seemed one year ago to be a doubtful experiment, is one assured fact. The work cannot fail to grow in importance from year to year slowly but surely and the district will wake up some day and see that for which they hoped and planned when they built the school building accomplished. Six pursued the teachers work, two received county certificates and more will no doubt pass in August. Five took the Higher work and four are one year already on the way to a higher education. The last legislature passed a high school law and the Scio High School has received official recognition making it a high school in fact as well as in name. The work of that department is now under the direction of the State board of education.

We have been informed that several boys in this neck o' the woods were making pin money by hunting China pheasant nests and robbing them, having found a market for the eggs. This is one of the gravest violations of the game law, and the boys who sell eggs are just as guilty as the man who buys them, and we trust that the pratice will be stopped immediately, or the matter will be placed before the state game warden.

It is pretty generally given out that the C. & E. railroad company anticipate a change in the running of the train from Detroit, and that after the first of June the train will run from Detroit in the morning and will go as far west as Corvallis, return in the evening. This will give us a train to Albany in the fore noon and return in the afternoon. This train run on a schedule similar to this several years ago, but at that time the company did not find it as profitable as at present. The new schedule will give a train through from Detroit to Yaquina in one day, and will afford our people a better opportunity of visiting the than we have had in the past.
