Rheumatism

What is the use of telling the rheumatic that he feels as if his joints were being dislocated?

He knows that his sufferings are very much like the tortures of the rack.

What he wants to know is what will permanently cure his disease.

That, according to thousands of grateful testimonials, is

Hood's Sarsaparilla

It promptly neutralizes the acid in the blood on which the disease depends, completely eliminates it, and strengthens the system against its return. Try Hood's.

AWFUL AGONY

The Story of a Stricken Woman Whom Doctors Were Not Able to Help.

From the News, Connersville, Indiana.

The story of Mrs. Nellie M. Hedden, of No. 621 Summit avenue, Connersville, Ind., contains an important lesson for many American women who suffer in silence rather than face the ordeal that the usual treatment of their troubles entail. It is a story that rings with honest gratitude and does not tell half the misery that the narrator endured. Other women who are suffering as Mrs. Hedden did will know how to understand and appreciate much that cannot be told in a newspaper article. Mrs. Hedden's experience is best given in her own words. She says:

"For nearly a year I endured terrible agony caused by a general breaking down of the nervous system, female weakness and suppression of the periods. I suffered greatly with bearing down pains and was very weak and short of breath. My circulation was very bad, causing numbness of limbs, dizziness and headache all the time. My heart would sometimes feel as if there was a heavy weight on it. I had never been healthy and strong, so you can readily see that I was in no condition to withstand such a combination of ailments.

"I grew worse very rapidly and all the doctors I tried failed to check my decline. A friend of my husband told him how much good Dr. Williams' Pink Pills had done his wife so I commenced taking them and can now state that they are the only relief I ever had. The first box helped me so much that I was thoroughly convinced of the efficacy of the remedy. I continued the treatment for several weeks, using six boxes in all.

"In conclusion I will say that if any one, who is suffering the same as I was, will take Dr. Williams' Pink Pills as directed they will be rewarded."

Signed, ELLIE M. HEDDEN.

Subscribed and sworn to before me this 14th day of November, 1900.

A Strange Flower.

One of the strangest botanical curiosities in the world is the "Wonder-Wonder" flower found in the Malay peninsula. It is simply a blossom without leaves, vine, or stem, and grows as a parasite on decayed wood. This extraordinary flower is something like a yard in diameter, and has a globular cup in the raiddle with a capacity of five or six quarts.

ADVANCE IN FARMING

PROGRESS NOTED IN THIS BRANCH OF INDUSTRY.

Net Additions to Farm Resources Between 1800 and 1900 Was Greater than Value of All Farm Investments Fifty Years Ago.

Farming is so vast an interest that its current condition cannot be expressed in figures. It is not capitalized in stocks and bonds, and its values are not quotable from day to day. But any intelligent farmer can make a comparison of the general state of his industry with what it was six or eight years ago, and will then realize the immense gain that has occurred. In fact, the activity among the railways and the rapid growth of foreign exports largely rest on farm production.

It is stated by the chief statistician of the agricultural section of the twelfth census that the net additions to farm resources in the ten years between 1880 and 1900 exceed the value of all farm investments in 1850. As the writer referred to puts the case: "The increased wealth of our farmers, as the result of their last ten years' labor, equals the farm wealth of the nation reported as the outcome of their toil and economies from the settlement at Jamestown to the middle of the nineteenth century." Advances on the stock exchange fade into a small affair beside a colossal increment like that. In the United States to-day there are at least 5,700,000 farms, or about one to every thirteen inhabitants. In 1850 the number was 1,149,073. In ten years the number has increased 1,150,000, and in the same time farm wealth has expanded by not less than $6,500,000,000. In the twelve adjacent States of Illinois, Missouri, Ohio, Indiana, Michigan, Wisconsin, Minnesota, Iowa, North Dakota, South Dakota, Nebraska and Kansas the number of farms has increased since 1890 from 1,923,822 to 2,220,000. These States added $2,500,000,000 to their farm wealth between 1880 and 1890, and a still larger sum in the last ten years.

The government is not unmindful of the vast import of agriculture. Congress has endowed agricultural colleges in every State and Territory. These institutions represent a value of $53,000,000, and their income is $6,000,000. Their students last year numbered 31,658. The annual national appropriation for experiment stations is $789,000.

When American farmers note what is going on in intensive farming, irrigation, cattle-raising, improvements and preservation of products, management of soils, betterment of facilities to reach markets and new uses for waste products, they will see that their industry is truly the most expansive as well as the greatest. Though the population of the country should continue to double, inside of forty years, there can be no doubt that the farmers of this country, the most scientific and effective in the world, will meet all demands and be the main reliance for foreign nations when their own production runs short.—Chicago Bonds and Mortgages.

IMPOSSIBLE AT THE PRICE.

Artistic Idea Concerning the Value of a Picture.

A certain parvenu of great wealth has hanging in his drawing room a large and hideous daub in oils which some dealer in Paris induced him to buy. He is very fond of taking a caller by the arm, leading him before the canvas and saying:

"Great picture that. By Maccaroni di Vermicelli, you know. Paid £2,000 for it in Paris and got a great bargain. F——" (naming an eminent artist) "says it is worth £10,000."

A few days since this gentleman was lunching at the Artists' Club when the cat came out of the bag. Some one said:

"F——, old Centpercent says that you have appraised that frightful nightmare of his at £10,000. It it right?"

The artist answered smilingly.

"I will tell you how that happened. He asked me to dinner one day, and after we left the table took me to see the picture and told the usual story. Then, turning abruptly, he asked:

"'How much is that painting worth?'

"'Why, Mr. Centpercent,' said I, 'I really would not like to place a value upon it.'

"'Well, I'll put it differently,' said he. 'How much would you charge for such a picture?'

"'I don't mind saying,' I answered, 'that I would not paint such a picture for £10,000.' I had to be civil, you know."—Tit-Bits.

A Baffled Tigress.

An officer of the Bengal Lancers, who was seized by a tigress, owed his escape to a curious accident. The tigress seized him by the breast of his coat and shook him till he became unconscious. On recovering he heard a strange noise at a little distance, as if somebody was sneezing violently. It was the tigress herself. He slowly turned round and gave a furtive glance in that direction.

He could hardly believe his eyes. There was the tigress slinking off with her tail very much between her legs and sneezing most violently and making the most piteous grimaces. The truth dawned upon him like a flash of lightning. In the operation of shaking him his snuffbox had flown open from his waistcoat pocket, and the tigress had received the contents thereof full in her face.—Cornhill Magazine.

Consumption of Tobacco.

The Austrians consume more tobacco than any other nationality or race on the globe, civilized or savage. Recent investigation by eminent statisticians gives the number of pounds consumed annually by each 100 inhabitants of the different European countries as follows: Spain, 100 pounds; Italy, 128; Great Britain, 138; Russia, 182; Denmark, 224; Norway, 229, and Austria, 273.

Cost of Railway Transportation.

In France it costs $1.44 to carry a ton of freight 100 miles; in Germany, $1.28; in Switzerland, $2.80; in Holland, $1.60; in Belgium, $1.36; in Italy, $3.20; in Austria, $2, while in the United States the cost is only 81 cents.

Miss Anderson, City Attorney.

Palmyra, Mo., probably has the only woman city attorney in the United States. She is Miss Anderson, 23 years old, and, in addition to her practice as a lawyer, is a political speaker. She got her first impetus to study law by reading Blackstone while she was convalescing from an attack of typhoid fever.

Appreciative.

Sharp Against Sharp.

Mrs. Frank Carter, 3 Merrill Street, Amesbury, Mass.

This letter should carry Faith and Conviction to the Hearts of all Sick Women.

"I suffered with inflammation and falling of the womb and other disagreeable female weaknesses. I had bad spells every two weeks that would last from eight to ten days and would have to go to bed. I also had headache and backache most of the time and such bearing down pains I could hardly walk across the room at times. I doctored nearly all the time for about two years and seemed to grow worse all the time until last September I was obliged to take my bed, and the doctors thought an operation was the only thing that would help me, but this I refused to have done.

"Then a friend advised me to try the Pinkham medicine, which I did, and after using the first bottle I began to improve. I took in all five bottles of Lydia E. Pinkham's Blood Purifier, four boxes of Lydia E. Pinkham's Dry Form Compound, three boxes of Liver Pills and used three packages of Sanative Wash, and I am as well now as I ever was. I am more than thankful every day for my cure."—Mrs. Frank Carter, 3 Merrill St., Amesbury, Mass.

CANCER SSS

THE ONLY HOPE

The diseases most feared are those which are inherited—handed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grand-children of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or pimple may develop into Cancer. From middle life to old age is the time when the slumbering poison is most apt to break out, a sore or ulcer often degenerating into Cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

The Cancer patient naturally grows despondent as one after another the usual remedies fail, and the sore shows no sign of healing. The impurities that have been accumulating in the system, perhaps for generations, cannot be eliminated nor the poisoned blood made pure by salves, washes and plasters. The proper treatment is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

S. S. S. goes directly into the blood, destroys the virus, stops the formation of Cancerous cells and cleanses the system of impurities. What we say of S. S. S. as a cure for Cancer is supported by the testimony of those who have tested it and been restored to health.

Mr. J. B. Arnold, of Greenwood, S. C., writes: "A tiny ulcer came, just under the left eye. It began spreading, and grew worse rapidly, destroying the flesh as it went. As Cancer is hereditary in my family I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading druggists advised me to try S. S. S., and by the time I had taken the second bottle the Cancer began to show signs of healing, the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remains but a slight scar. I feel that I owe my life to S. S. S."

Begin in time, don't wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a taint in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book on Cancer which we will mail free. Our physicians are ready to help you by their advice and such direction as your case requires. Write us fully and freely—no charge for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.
