A WORTHY SUCCESSOR.

Something New Under the Sun.

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membrane causing them to crack, scab and bleed. The powerful acids used in the inhalers have entirely eaten away the same membrane that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SUFFLES" the GREAT CATARRH CURE, and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve RAY FEVER or COLIC in the HEAD. CATARRH when neglected often leads to consumption—"SUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form, and according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SUFFLES" the GREAT CATARRH CURE.

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. E. 625 Evans & Co., 2370 and 2372 Market Street, Philadelphia.

A Hard Bicycle Ride.

Lambert Langdon, a young man from Prineville, made a record breaking ride from Prineville to Albany. He left Prineville Wednesday morning and rode to Fish Lake. He arrived in that place late in the evening and could not get accommodations. He lighted his bicycle lamp and came on through the mountains, resting from 2 o'clock until 4 in the morning and came on down to Albany, arriving there in the afternoon. It is a record breaker and he does not seem to be any the worse for the trip.—Herald.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of ye scrub. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be in easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer time.—Lansing, Iowa, Journal. For sale by Peery & Peery, druggists.

LOCAL & GENERAL

A. G. Prill, Physician and Surgeon, Scio, Or.

Work was resumed on Dr. A. G. Prill's residence Monday.

Wanted—Hands to pull flax, at once. Inquire at the flax mill.

Buy Singer Sewing Machines at cut prices of F. M. French, Albany.

Hansen & Landon of Salem have sent their planning mill to John Stout of Boonville, Ind., for \$15,000.

We refund the money for any Royal Worcester Carpet that does not give satisfaction. W. B. Stevens & Co.

Found—In the lumber flume above Larwood, a light grey man's hat. Owner can have same by calling at this office.

The ladies of the Baptist church served ice cream in the Billeu building on picnic day, and report pretty good success.

The frame of William Brenner's large stock barn was raised last Friday evening, and it is now being rushed to completion.

Haying is about over, and hay is plentiful in this neck of the woods. The price is not very high, and many barns are full to overflowing.

The Woodmen of the World will hold an immense log rolling affair on the top of Mount Taylor on August 3. An elaborate program is being prepared for the occasion.

Prof. E. C. Peery has leased the Harsh residence, formerly occupied by E. E. Larimore, and has moved his family there. They will make this city their home for a year at least.

There is only a few more chances on that bottle of corn, and those who have not retailed their guesses had better do so soon. Everything on the horse track is hot at way down prices. T. S. Coffey.

Mrs. Francis Wessely has purchased the J. S. Morris farm just east of town, and is now having a house and barn erected on the place. It is a fine place, and will make her and her family a splendid home.

The Star mill, on Hoarling river, have again commenced operations, after a short lay off for repairs. They are turning out a fine lot of lumber, which is being handled by H. S. Johnston & Co., of this city.

A good-sized section of V. B. Goin's farm was sold Saturday last by parties who were anxious for a front view during the horse races. People should have some consideration for the property of others, even on a picnic day.

Reports are that there will be all kinds of China pheasants the coming season, as the young ones are quite plentiful. If the law is strictly observed and the young ones allowed to grow to full size before the season opens, there will be seals of them, and hunting them will be a pleasure.

Prof. Shaw, of Salem, did some pretty clever trick bicycle riding in the street near the Scio hotel last Sunday evening. He has quite a record as a trick rider and is certainly good at it. It is a pity for him to do almost anything on the wheel, and many acts are easily handled which seem almost an impossibility.

There is a pretty good lot of dissatisfaction among the creamery patrons, owing to the low price of butter, and the conditions under which the creamery is compelled to operate, but the company hope to get the matter adjusted in a short time, so that all will be better paid, and work in more harmony, and with more profit to the farmer.

A head-on collision took place on the Southern Pacific Sunday morning at Black Butte Summit, 22 miles north of Dunsmuir, between the southern-bound express and a passenger train of seven coaches carrying mastered-out volunteers. Two helper engines, a baggage and a mail car were badly wrecked. A photo of the soldier train was instantly killed, and another had his arm and leg broken.

Scio people—who can spare the time—are making arrangements to go to the several springs and pleasure resorts the present week, and those who are left behind are a lot of good pleasure in spending a week or so in the cool mountains, and we only wish that it was our lot to be able to do so.

The picnic was quite a success, although the time of holding it was a little out of joint, as it was between haying and harvest. There was a fair-sized crowd here, and the amusements were good and thoroughly enjoyed. The Lebanon band came early and entertained with a lot of music, and the day was very pleasantly spent. A dance in the evening was well attended, and a good time had by all. Scio has the name of getting up pretty good picnics and celebrations, and it is no trouble to get a crowd on occasions of this kind.

The battle flag of the Oregon was formally presented to the state of Oregon Tuesday afternoon at 2 o'clock by a committee from the famous battle ship now on the docks at Bremerton. After a parade from the Hotel Willamette to the hall of representatives Governor Goer delivered the address and was responded to by a representative from the Oregon. Miss Ethel Raymond sang Columbia, Margaret Barry recited Sam Simpson's poem, "The Launching of the Oregon," and the flag was raised on the capital with a salute of 21 guns.

A Lebanon farmer arrived in town the other day with a coop of sick chickens in his buggy. He had lost 100 by some unknown disease, and his neighbor had lost 50 in the same way. He was seeking information on chicken diseases, and went with his birds to Prof. Pernot at the college. In the latter's laboratory one of the chickens was dissected and at the lower end of the windpipe a cheesy formation was found which interfered with breathing, and ultimately would have proven fatal. The disease is diphtheritic roup, and is described at length in a bulletin

on chicken diseases recently issued by Prof. Pernot.—Corvallis Times.

Albert Neal, who was so seriously injured by a falling tree a short time ago died at the Scio hotel Friday of last week. It was thought that the only chance for him to recover would be by taking out the broken pieces of his skull, and this was done Friday by Drs. Prill and Hill. He only survived five hours after the operation was completed. Several pieces of bone were removed, and the location of some of them made his recovery almost impossible. He withstood the operation well, but died without regaining consciousness since the accident occurred. The remains of the unfortunate young man were taken to the Billeu cemetery near Jordan, and laid to rest, followed by a large number of grief-stricken relatives and sorrowing friends.

The stomach controls the situation. Those who are hearty and strong are those who eat and digest great plenty of food. Kofal Dyspepsia Cure digests what you eat and allows you to eat all the good food you want. If you suffer from indigestion, belching or any other stomach trouble, this preparation can't help but do you good. The most sensitive stomach can take it. Peery & Peery, druggists, Scio, Oregon.

On Saturday at about noon the farm house and most of its contents owned by Sell Warner, about seven or eight miles south of Brownsville, were consumed by fire. The fire originated in the roof, probably from sparks from the chimney. Mrs. Warner was engaged in preparing dinner and did not discover the fire until she went to the well, some distance from the house, when it was too late to save anything except a little furniture. She was alone at the time, the rest of the family being in the fields. The estimated loss is placed at about \$3,000. Two dogs were burned to death under the building, they retreating to come out until it was too late.—Brownsville Times.

On Saturday at about noon the farm house and most of its contents owned by Sell Warner, about seven or eight miles south of Brownsville, were consumed by fire. The fire originated in the roof, probably from sparks from the chimney. Mrs. Warner was engaged in preparing dinner and did not discover the fire until she went to the well, some distance from the house, when it was too late to save anything except a little furniture. She was alone at the time, the rest of the family being in the fields. The estimated loss is placed at about \$3,000. Two dogs were burned to death under the building, they retreating to come out until it was too late.—Brownsville Times.
