Something New Under the Sun.

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open and bleed. The powerful acids used in the fulualers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying disease. It cures all inflamation quickly and permanently and is also wonderfully quick to relieve HAY FEVER OR COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case, without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept E 625 Edwin S. Giles & Company, 2330 and 2332 Market Street, Philadelphia.

Left on the Door Step.

Saturday morning a baby boy only a few hours old was found on the doorstep at the residence of Mrs. E. E. Davis at Albany. Mrs. Davis is absent from the city and the house is unoccupied. It had been left there some time during the night, and was making considerable noise when found. It was wrapped in an old blanket in a most inhuman and criminal way, and was probably left there with the idea that it would smother or perish. Chief of Police Coates was notified and the child was taken to his house and then to the Orphans' Home. The police are at work on the case and while it is a difficult matter to handle, they think that they have a clue to the monsters who perpetrated the audacious deed. A cruel-hearted woman who would consent to such an act, deserves severe punishment. This is the second case of this nature in the city in recent years.

ONLY FUNNY TO FOOLS.

How War Appears When Viewed from Certain Different Points.

A number of printers, all of whom were born since the last war, were sitting about the office of Secretary Marsh one day lately when an "extra" was brought in which indicated that war with Spain was near at hand.

"If we have war it will afford our navy some good practice—just what it needs—and be better than a dozen sham battles," suggested one.

"And Spain will find it quite a change from bull fighting."

"I don't believe there will be any war," said a baseball crank. "Just as we think everything is all ready you'll see a sign up: 'No game to-day. Wet grounds—too sloppy on the Atlantic.'"

"I think we'll have to make up a purse for Spain," said the pugilist of the party. "But if she don't stand up for four rounds she don't get any of the receipts."

"You boys are very cunning," said the veteran Marsh, wheeling about in his chair. "It's easy to see that none of you know what war means. I'm older than any of you, and I know. In 1864, when I was working on the old Tribune, eight men from that office enlisted in the Twenty-fourth Michigan. They were all fine fellows, the best of the lot. Six of them never returned. The other two got back so wasted and changed that it was hard work to recognize them, and they were carried from the depot to the hospital on litters. One of them, Witherspoon, a personal friend of mine, was shot through the wrist. Both died. I saw several regiments leave here, 1,200 to 1,500 strong, composed of the finest young men in the state. I saw them come back with only 300 to 500 maimed and broken men—men that had practically ended their lives. That is what war is. It is only funny to fools."—Chicago Evening News.

CHANCES OF MARRIAGE.

Things for the Young Girls and Spinsters to Ponder Over.

What useful knowledge the facts concerning marriage and age constitute for women who are unmarried! They clearly indicate to the woman whose age is from 20 to 24 that she shall particularly favor the attention of men from 20 to 24, or 25 to 29. She had best pay particular attention to the former, because the sterner sex marries much more frequently at that age than after reaching the age of 25. So a spinster from 25 to 29 years old has the surest choice of men aged from 30 to 34 and 35 to 39, the former group supplying the better chance to her.

Out of every 100 women on the average only 32 remain unmarried.

Now, then, how is it as to what may be called the marriage combinations? Naturally these are only four in number—widows and widowers, bachelors and maids and vice versa. The fact shows that 85 out of every 100 marriages are those of the bachelor and maid and that the bachelor and the widow rarely wed. This is by no means to be construed, however, that the widow is unpopular. On the contrary, she holds her own with the maids, apparently without difficulty. There is, in these modern days, apparently as much cause for taking the advice of the elder Mr. Weller to "Mart as ever."

There was not much doing at the flax mill the first of the week, owing to the fact that several of the men were ill, and hands were scarce. There are a good many men, women and children now in the fields pulling flax, and as the harvest approches men seem to be hard to find.

The golden grain in this section of the country is being cut in large quantities, and soon the hum of the thresher will be heard in all directions. The yield promises to be much larger than in many years past, and if the price will advance a few cents the farmer will be happy.

The hardwood sawmill near Crabtree burned to the ground Tuesday morning about 3 o'clock. It was located in the old Cameron mill building, and was owned by a Portland firm. They had cut eighty-nine carloads of ash and oak lumber the past few months, and were almost done in that neighborhood, when they expected to move the mill to a new location near Jefferson. Just where they will now locate is not known, but it is certain that they will have to get new machinery wherever they go.

The creamery has ceased operations for the present, although it may start up again in a short time. The plan they were working on together with the low price of butter made it unprofitable for the patrons, and it was thought best for all to shut down for a short time at least. We hope it may be able to start up again shortly.

J. J. Barnes and A. T. Powell are going into the gopher trap manufacture on quite an extensive scale. They have purchased the right to make and sell a new fangled trap in Linn, Marion, Polk and Benton counties, and are going at it in earnest. They have a good trap, and with a little work will undoubtedly do well with it.

A report comes from Mehama to the effect that John Taylor, a young man residing near Stayton, while peeling tanbark in the mountains six miles east of Mehama, was caught by a falling tree and his shoulder crushed. He was carried out of the mountains by his companion. He is in a critical condition. —Herald.

The entire flax crop around Jefferson is looking very fine, and if nothing happens to it, will be abundant, and will prove very remunerative to those who were lucky enough to try the experiment. But what about the new building to receive the straw and the machinery that was to be put into it. It is time for the company to be on the move.—Review.

L. W. Pomeroy has his baler at work in the hay fields near Millersburg this week, and reports a large crop of fine hay in that neck o' the woods. George Griffin and George Glass each have a baler which will begin work next week, and are promised all the work they can do. The hay crop as well as the grain is very heavy this year, and the prices are fair.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of ye scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be in easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer time.—Lansing, Iowa, Journal. For sale by Peery & Peery, druggists.

ACKER'S ENGLISH REMEDY

Will stop a cough at any time, and will cure the worst cold in twelve hours, or money refunded. 25 cents and 50 cents. Peery & Peery, druggists.

Anti-Gum puts new life in your wheel.

Gored by an Angry Cow.

Mrs. Swyter, who lives near the Calapooia bridge west of town, was driving a cow and small calf across the bridge to her home Saturday evening. The calf refused to go, when part way across the bridge and when Mrs. Swyter urged it the cow turned on her and attacked her savagely. Mrs. Swyter's little girl, a child four or five years old, was with her mother and the infuriated cow made plunge after plunge at the helpless woman and child. The mother protected the baby as best she could and was tossed about by the cow. She was knocked into an unconscious condition and when Mr. Swyter returned home from Albany about 6:30 o'clock he found his wife, on the bridge insensible. She was vomiting blood and seemed in great agony. Dr. W. A. Trimble was called and relieved the unfortunate woman's sufferings as much as possible. He found upon examination that she was badly bruised and hurt internally, and is in a very serious condition. She recovered semi-consciousness for a short time and related the story of how it happened. She suffers great pain constantly and no doubt was subject to an unusual amount of punishment from the cow. The animal has been known to be of a vicious nature and this was the first time that she had been handled by a woman.—Herald.

The Best Liniment for Strains.

Mr. F. H. Wells, the merchant at Deer Park, Long Island, N. Y., says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe lameness in the side, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by Peery & Peery, druggists.

[A great, big shoe sale going on at Hibler's.

PURELY PERSONAL

Dr. Stewart was a county seat visitor Saturday last.

Mrs. M. B. Craft is on the sick list this week, but is improving.

Mr. and Mrs. J. J. Barnes were visiting in Portland over Sunday.

Miss Monia Daniel is visiting with friends in the Larwood neighborhood.

E. V. Smith, of Munkers, was a coast visitor Saturday, accompanied by his oldest son.

Oscar Johnson was up this way the first of the week, with his numerous trunks and samples.

J. S. Morris and family are at the blackberry patch near Niagara, on the roaring Santiam, this week.

Mrs. O. B. Cyrus was over at Albany Saturday last, selecting a stock of fall and winter millinery goods.

Clay Compton left Saturday for eastern Oregon, where he will look over the country for a few weeks.

Miss Lulu Morrow returned from Portland Wednesday, where has been visiting for a couple of weeks past.

Mr. Jirgel, of San Francisco, was in the city the past week, looking at some of R. Shelton's real estate bargains.

Miss Ollie Morris went to Portland last week, where she will remain for a few weeks, having secured employment in the big city.

Mr. and Mrs. J. W. Compton returned from a berry picking trip the first of the week. They report a pleasant and profitable trip.

E. E. Larimore was up from Portland over Sunday, packing and shipping his household goods and shaking hands with numerous friends.

Joseph Ouper and Messrs. Knaf and Burch, of Olivia, Minn., were in Scio last week, looking for farms, with the intention of locating among us.

Joe Hutchins returned the first of the week from Portland. He went down last week to go to steamboating, but was called on account of the illness of Thomas Allison.

Mr. and Mrs. L. W. Richardson are taking a few days' vacation in the mountains this week. Miss Daily Daley is in charge of the confectionery store during their absence.

J. S. Morris returned last week from his trip to Acme, on the coast, and his health in some respects was considerably improved. He says that Frank is doing well, and likes his position well.

Mr. Lewis and daughter, Miss Ethel, of Roseburg, returned home Saturday last, after a couple of weeks' visit with her sister, Mrs. W. E. Arnold, who lives a short distance east of town.

Prof. Ray Baker has moved his family to Scio, where he will reside during the coming fall and winter, and occupies the Shelton residence, recently occupied by Miss Monia Daniel and her father.

The writer and his family spent Sunday at Newport, and while we had a very pleasant trip it was considerably dampened by the rain and fog, which persisted in coming down in large quantities all Sunday afternoon and night. Newport was not over lively, although there were quite a number of people there, some camping, some in cottages and a number at the several hotels.

Sodaville Springs Improvements.

The $1000 appropriated by the last state legislature for the improvement of the mineral springs at Sodaville has been expended to good purpose. She springs have been rewalled, all fresh water entirely shut out and new encasements built, so the soda water will be better and much stronger than ever before. The spring building has been repaired, the walls replastered, the cement floor rebuilt, all wood work freshly painted, a large veranda built around the south and west sides of the building, new walks laid and a new fence surrounding the grounds. The second floor of the building has been finished off for a public library and reading room.

Excursion Rates.

A special round trip rate of $2.50 from Albany to Mill City, Berry, Niagara and Detroit has been put in effect on the Corvallis & Eastern railroad for hunting or fishing parties. Tickets good going on Saturdays and returning Monday, giving three days in the mountains of good sport and recreation. Good hotel accommodations at Mill City, Gates, Niagara and Detroit, at reasonable rates. Tickets for sale at the ticket office without special order.

Also a rate of $2.50 from Albany to Newport, Yaquina and points this side, good going Saturday and returning Monday, giving a three days' outing at the coast or along the line for hunting or fishing parties. Ample hotel accommodation at Elk City, Toledo, Yaquina and Newport.

Season excursion tickets to Newport of $4.50, and Yaquina of $4.00 are on sale good to return until October 10th. For full particulars apply to E. V. Smith, agent, or Edwin Stone, manager.

Will Work the Mines.

B. P. Taylor, formally a resident of Stayton, now living at Pomona, California, is in the city for a few days. Mr. Taylor and his brother, L. S. Taylor, A. L. Lawton and A. D. Craig, the latter three of Colorado Springs, are interested in the mines on the Santiam river, having purchased ten claims there, or what is known as the Savage-Mohney mine, formerly owned by Savage & Mohney, of this city, and Weatherford & Wyatt, of Albany. The property is located 30 miles south of Gates and six miles south of the Anidem mines. He has brought samples of the ore to this city with him. The ore is all free milling and they own one claim of gold bearing quartz and nine claims of oxidized quartz. The samples are rich with specks and flakes of gold and the assay is a good figure.

The road to the mine has not been used for the past four or five years, except for pack horses, and is badly obstructed by fallen trees. The Taylor-Lawton-Craig party intend clearing off the road this fall and construct several miles of new roads and next spring will establish machinery to the value of $40,000 in their mines. The development work at the mine will go on throughout the winter, and by spring all will be in readiness for the machinery.

Mr. Taylor leaves today for his home and will then visit Colorado Springs, but expects to return in three weeks' time and will personally superintend the mining work. All of the party are experienced miners, each having made a considerable fortune in the Cripple Creek mines.

Mr. Taylor says the outlook for placer mining on the Santiam is not excellent, there being only small quantities of placer gold found in the gravel of the old river bed. But large quantities of free milling ore is the awaiting development.
