

The Sanjiam News. PUBLISHED EVERY FRIDAY AT SCIO, LINN CO., OREGON. By IRA A. PHELPS.

EDITORIAL HASH

The general opinion is that the 4th of July committee will do the proper thing if they contribute the balance of \$100 on the 4th of July fund to the woodenman carnival.

The difference between the haphazard, happy-go-lucky dairying of a former era and the methodical, systematic dairying of the present time is in appliances, that between the wooden churn with upright dasher or back-breaking crank, by means of which sour cream was laboriously agitated until the "but-ter-cream," and the modern separa-

tor, whereby the butter fat is ex-tracted from rich, sweet milk as soon as it is drawn from the cow. The difference in the product of the two types of dairying is that be-tween the soft, white and yellow "straked" butter of the old process, with the aroma of the churn still lingering about it, and the firm, golden-tinted butter of the cream-ery, uniformly colored and as sweet as a nut. The former, perhaps, traded for calico in the embryo de-partment stores of the country cross-roads, awaited, usually in a cedar washtub, the coming of the village customers; the latter, in rolls of uni-form weight (sometimes, it must be confessed, uniformly short), neatly wrapped and stamped with the name of the creamery, carefully shipped and kept in the "ice box," meets the demand of the con-sumer of the present day. The charge is a decided one, and is not remarkable only because growth is the accepted condition and evolution has passed from their into fact.

On the 1st of August the United States Treasury contained \$504,354.14 in gold. The latest estimate of the amount of gold in bank and in the hands of the people was \$639,407,296. Assuming this estimate to be correct, there was in the United States at the close of the last fiscal year gold coin to the amount of \$1,124,729,261. It thus appears that a nation of 70,000,000 people has in its treasury and in circulation more than one-fourth of the world's store of gold. Of course, estimates of the amount of gold in the several counties and of the amount in the hands of the people in this county can only approximate correctness. Still, for purposes of the comparison of the financial condi-tion of the several counties, they serve fairly well. The United States possesses more than one-fourth of the world's stock of gold and about one-twentieth of the estimated popula-tion of the world. This fact has the greater significance since gold has become the basis of all kinds of currency in the leading commercial nations. Should there ever again be a general demand for gold for currency, the United States, of all nations, would be in the best condi-tion to stand the strain. The Bank of France is second to the United States only in its store of gold, its present stock being \$478,258,320. The Bank of Russia contains \$345,498,144, the Bank of Austria-Hun-gary \$199,314,123, the Bank of Eng-land \$183,330,581, and the Bank of Germany \$158,383,434.

A Cure For Cholera Infantum. "Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an in-fant child of our neighbor's was suf-fering from cholera infantum. The doctor had given up all hopes of re-covery. I took a bottle of Chamber-lain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good. It ac-cording to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous healthy girl. I have recom-mended this Remedy frequently and have never known it to fail in any single instance." For sale by Peery & Peery, druggists.

The State of Oregon has brought suit against Sylvester Pennoyer, George W. McBride and Phil Neethan, as Governor, Secretary of State and State Treasurer, respec-tively, during the period between September, 1890, and January, 1895, to recover the entire amount of the defalcation of George W. Davis, clerk of the school land board ap-pointed by them. Davis was ap-pointed clerk of this board on July 14, 1891, giving bonds in the sum of \$5,000. Attorney General D. B. Blackburn and District Attorney J. N. Hart are attorneys for the State.

Chamberlain's Colic, Cholera and Diarrhoea Remedy has a world wide reputation for its cures. It never fails and is pleasant and safe to take. For sale by Peery & Peery, drug-gists.

"Why not spend the vacation at Yaquina Bay, where he had ex-celent fare, good fishing, good boat-ing, safe bathing, alluring rides and rambles. The courses and exercises at the Summer School, of 1901, at Newport, will afford great variety of instructions, diversion and enter-tainment. No other resort offers equal attractions and advantages."

A Grocer Says "I guess everybody in Bellevue, Ohio, knows O. B. Callahan, the grocer. I am in his em-ploy, and am about as well known as he is. A grocer is a place where you have cold gusts of wind coming in every time the door opens, and there is a good deal of fanning about out-doors too. Anyhow, I catch cold very often, but the minute I begin to sneeze I reach up on the shelf and take a dose of Acker's King-lish Remedy. I feel just as if it is wonderful how quickly it stops a cough or cold. I have used it myself, and in my fam-ily for a number of years. It works like a charm. I suppose some of the folks would have run into consumption before this if I had neglected to keep a bottle ready all the time for immediate use. I wouldn't think of using anything else for throat and lung troubles. I know what Acker's Remedy, actually does, so what sense is there in experimenting? Certainty is better than chance."

Sold at 25c., 50c. and \$1 a bottle, through-out the United States and Canada; and in England, at 2s. 2d., 4s. 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

By authorizing the above paratitole. H. H. BOOKE & CO., Proprietors, New York. For sale by Peery & Peery Scio Ore.

County Court.

Petition of D S Young for reduction of taxes, dismissed. Petition of P D Mason et al for release of land for taxes, continued.

Bill of account of survey of road from Brownsville to Sweet Home valley and report approved. Also in matter of application of Mr. Bickard for county road.

J. W. Hilde presented bill for dam-ages amounting to \$987.75. A bridge over which he was driving collapsed. The matter was continued until the September term.

THE HOME GOLD CURE.

An anguishing Treatment by Which Drunkards are Being Cured Daily in Spite of Themselves.

It is now generally known and un-derstood that Drunkenness is a disease and not a weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intox-icating liquors, requires an antidote ca-pable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without pub-licity or loss of time from business by this wonderful "home gold cure" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous trans-formation of thousands of Drunkards in-to sober, industrious and upright men.
