A YOUNG LADY'S LIFE SAVED.

At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician, of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady 16 years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better, inside of three days she was upon her feet and at the end of one week was entirely well." For sale by Peery & Peery, druggists.

You have seen hundreds of your companions waste away in mill and country with a persistent cough. You have seen hundreds of them die with that terrible disease, Consumption. You have seen wives left penniless, and children thrown upon the mercy of the good world, because the father coughed his life away. The sure way to prevent every day is full of sharp, metallic dust, which is inhaled into the lungs and irritates the delicate lining. In the case of glass blowers, the force of the molten glass forces its way up the tube into the lungs where it gradually breaks down their delicate structure, making every cold a danger to life. You can't expect to quit working and are daily exposed to this fatal dust and intense heat. What you and your friends need is Chamberlain's English Remedy, which will loosen the throat and lungs strong again. It will heal the irritation, loosen up your system, and you need never lose a day's work. I have noticed that in some mills there are no signs of consumption. The reason is that Chamberlain's English Remedy is used by the men working there.

Sold at 25c, 50c, and \$1 a bottle throughout the United States and Canada and in England at 1s. 6d., 3s., and 6s. If you are not satisfied, your money is returned. Write to your druggist and get your money back.

Mr. C. A. Snow, of the Washington Humane Society says: Of late the immense demand for birds in millinery has led to a slaughter of the innocent which has almost depopulated the woods and fields as far as the bird population is concerned. Hence mosquitos. Hence rose bugs. Hence potato bugs. Hence all kinds of insect pests, which finding themselves undisturbed by their natural enemies proceed to multiply like compound interest. The problem therefore reduces itself to this form: Do the people of this country prefer to see women's hats adorned with dead birds, while the owners fight mosquitos and the farmer and gardener fight insects, or do they prefer to see the hats decorated with ribbons and artificial flowers or ostrich plumes, while the bird, in his natural state, ornaments the gardens and roadsides in the intervals of catching noxious insects?

"How dear to our hearts is the steady subscriber, who pays in advance at the birth of each year; who lays down his money and lays it off a halo of cheer. He never says 'stop it, I cannot afford it,' nor, 'I'm getting more papers now than I read.' But always says 'send it, the family like it—in fact we all think it a real household need.' How welcome he is when he steps in the sanctum; how he makes our hearts throbb; how he makes our eyes dance; we outwardly thank him; we inwardly bless him—the steady subscriber who pays in advance."

By a Decision of the Comptroller of the Treasury, \$20,000 appropriated by the agricultural bill for the current fiscal year for pomological investigation, is placed at the disposal of the Secretary of Agriculture to be spent in encouraging the export of American fruit, either in guaranteeing a minimum return to the shippers or in paying all or part of the freight charges. While not so called, it will in reality be a government bounty on fruits exported, to be paid in the discretion of the Secretary of Agriculture.

The Portland people are assured the big "Democratic morning daily," providing 1000 subscribers will join in depositing with Ladd & Tilton \$7.50 each for a year's subscription to that paper. There is no doubt that this enterprise would be a big lift for Portland, but in the meantime there seems to be room for the suggestion that it will take more than a political influence to start the big machine in motion.

"The bravest are the tenderest, The loving are the daring." It is moral courage that characterizes the highest order of manhood or womanhood—the courage to seek and to speak the truth; the courage to be honest; the courage to resist temptation; the courage to do one's duty. If men and women do not possess the virtue, they have no security for the preservation of any other.—Dr. Northrop.

In these days of sharp competition, rivals in business sometimes, in their unguarded moments, say things that should not be said. When crimination and recrimination of this character go to the public they are taken, to a great extent, as granted, and work to the detriment of any town that is trying to forge ahead. Success is based on combined and co-operative effort.

A Cure For Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days the time the child had fully recovered, and is now (nearly a year since) a vigorous healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by Peery & Peery, druggists.

A Few Relishes.

Tomato Sauce: One and three-fourths cups fresh stewed tomatoes, 1 onion, 3 tablespoons butter, 2 tablespoons flour, 1 teaspoon salt, 1 teaspoon pepper. Cook onion with tomatoes fifteen minutes, rub through a strainer, and add to butter and flour (to which seasonings have been added) cooked together. If tomatoes are very acid, add a few grains of soda.

Stewed Tomatoes: Pour boiling water over the tomatoes and then remove the skins. Cut the tomatoes into pieces, rejecting any hard or green parts, put in a porcelain-lined or granite pan, add one slice of onion and simmer gently for 30 minutes, stirring occasionally with a wooden spoon. When done, add ounces butter to every quart of tomatoes, season with salt and pepper.—Mrs. Rorer.
