HE HEADS THE LIST.

Sampson Will Be a Witness at the Schley Inquiry—Brooklyn's Officers Also.

Washington, Aug. 23.—It is understood that Admiral Sampson is to be represented before the Schley court of inquiry by counsel, though the Navy officials have no official knowledge on the subject, and point to the fact that the court of inquiry is the only body authorized to admit or debar counsel in such cases. It may, at its pleasure, deny the person under investigation the privilege of having counsel present before the court, or, on the other hand, it may grant the privilege of permitting persons in secondary interest the privilege of employing counsel before the court. So the officials say they have no knowledge officially of the retention of counsel by Admiral Sampson, but privately it is admitted that he expects to be so represented.

The Navy Department today, through Captain Lemay, the Judge Advocate of the court of inquiry, supplied counsel for Admiral Schley with a tentative list of witnesses to be called before the court by the department. The department declines to make this list public, but it is understood that it contained, and in fact is headed by, the name of Rear Admiral Sampson.

Some time ago Admiral Schley, in sending his list of witnesses to the department, included a request for all the officers of the Brooklyn. The department replied that a number of the officers of the Brooklyn would be on the list prepared by the department, and asked to have specifically named the Brooklyn's officers he desired. The Admiral responded today through Captain Parker, of his command. He gave the names of the principal officers of the Brooklyn, and also of seven petty officers, including the quartermasters who were at the wheel during the action off Santiago.

Mother Baptiste, of Denver, Was Killed and Three Others Were Injured.

Durango, Colo., Sept. 2.—By the turning over of the Pullman on the west bound Rio Grande passenger train at 11:18 this morning, Mother Baptiste, of Denver, mother superior of Colorado, was killed, and Sister Mary Nora and Harley McCoy, also of Denver, and Pullman Conductor Whan were injured. The accident occurred at Lobato side track about 100 yards from the high bridge, five miles east of Durango. Railroad men and passengers alike are unable to explain why the car turned over as the train was slower than usual, the track in good condition and there was no baggage on board. The car was dragged about 75 feet.

Mother Baptiste was sitting on the left side and the car turned to the right. She was thrown across the aisle and half way through an open window, her head and shoulders being dragged between the side of the car and the ties. She was dead before any one reached her, her head being split open. Sister Mary Nora is hurt internally and her injuries are quite serious. Harley McCoy was asleep when the car came to rest. His arm slipped through the window and his hand was ground off at the wrist. Conductor Whan had his left hip crushed, and was also internally injured. W. D. The recent rise of ten per cent in the price of plows and the proposed consolidation is the result, all manufacturers say, of an increase in the price of every kind of material and a ruinous credit system that has prevailed for years.

ITS WORST WRECK

GREAT NORTHERN DISASTER AT KALISPELL, MONTANA.

Twenty-eight Freight Cars Ran Down a Steep Grade for Sixteen Miles and Crashed Into the Rear of a Passenger Train—Shock Set Fire to the Wreckage, Consuming Many of the Dead and Living Victims.

Spokane, Sept. 2.—All reports show that the wreck on the Great Northern Railroad, 40 miles east of Kalispell, Mont., was the worst in the road's history, and one of the most agonizing in the annals of American railroading. Thirty-eight lives were lost and 13 persons were injured. Three of the injured will surely die, and the others were seriously hurt.

A strenuous and heroic effort 15 of the bodies were taken from the wreck cars before the flames reached them. All the other victims were cremated, including the bodies of Superintendent P. T. Downs and his son, T. Kirk Downs.

There is a severe grade near the scene of the wreck. Two engines had taken a train of 28 freight cars up this grade and drawn off to take water. While doing this the 28 cars started down the grade. The runaway train dashed down the grade at frightful speed and crashed into the rear of west-bound passenger No. 2 near the siding at Nyack. Superintendent Downs' private car was attached to the passenger and next to it was a day
