Nothing is the matter with the country. The same climatic conditions that existed a thousand years ago will exist a thousand years hence. The country is all right; it's the people. There are no climatic climaxes in the climate. It's dry and hot and will be to the end, and were it otherwise many of us would not be living here. We love it; bask in its beautiful sunshine; revel in the hot winds; adore because it hardly ever rains. If people are in search of rain they should go to Oregon, where it rains every day and where moss grows on the backs of the inhabitants. The only trouble is that people insist on trying to do things in Kansas that ought to be done in Oregon. People must conform to conditions as they find them. Kansas is all right—drouthy Kansas—where it never rains until it gets ready.—Rossville, Kansas, News.

It will be a long time before the intelligence will penetrate the thick skull of the Easterner, that Oregon weather, from April 1st to November 1st, is one of continual bliss of sunshine and balmy, fragrant, sea breezes, such as would lead a "Jayhawker" to imagine, where he suddenly transferred to our balmy climes, that he had been released from hades and cast into paradise.—Oregon Mist.

Advice from Moscow say Russia is on the eve of another famine. Nearly a third of the provinces of European Russia are officially declared to have produced "insufficient," others "sufficient," and some others still "under the average," crop of cereals. Only two provinces out of the seventy have really good harvests. The official "insufficient" means utter starvation. The famine-stricken area exceeds 500,000 square miles, and is about the same area as that of the great famine of 1891. The population numbers 43,000,000. The hopes founded on the report of two months ago have vanished. The havoc has been wrought by the intense heat and the entire absence of rain when needed. Afterward there were torrential downpours and hailstorms. The appearence of innumberable pests is completing the destruction. As the harvest is now in progress these are final reports.

France and Turkey appear to be on the verge of war. The French ambassador has left Constantinople and diplomatic relations have been severed. It is likely that the Turkish empire however, will ultimately yield to almost any demand on the part of France before risking a war with that nation. The Turkish government has been dead for years, but continues to hange together as long as the nations keep "hands off."

Insurgent officers in the Philippines are still surrendering from time to time, and the supply is not yet exhausted. In Manila, the military force will be increased to guard against possible upraising. The city is orderly, but it is thought best to be on the safe side. A good work is being done in the Islands in educational matters and schools. The natives are very bright and eager to learn.

Well, well! The world must certainly be getting better by big jumps. The Mexican government has declared open war on gambling and will license no more public gambling houses; has notified all army officers and civil employes that instant dismissal will follow if they are caught in a gambling establishment.

Although Congress specifically declared several years ago that the working force of the Library of Congress, should not be under civil service rules, the Civil Service Commission in its annual report recommends that the Library employes be put in the classified service.

The Drain Watchman announces that the next issue will be its last under the present management and suggests the possibility of its publication ceasing altogether at that time.

The busiest and mightiest little thing that ever was made is Dr King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box. Sold by Peery & Peery.

The Chemistry of Soil.

"Undoubtedly one of the most wonderful discoveries of modern chemistry has to do with the soil," says The Saturday Evening Post. "It has been ascertained that the most barren land can be make rich simply by adding to it certain mineral elements which costs but little. On this basis it is estimated that the United States will be able eventually to maintain 500,000,000 people —more than one-third of the population of the world. It is merely a question of supplying the requisite quantities of nitrogen, phosphoric acid and potash. The last two are readily obtainable at small expense, whereas the first may be supplied either by furnishing to the soil condensed nitrogen in the shape of slaughter waste or nitrate of soda or by planting clover, beans and peas, which have an affinity for nitrogen and absorb it from the atmosphere. It is now known that nitrogen is the most important plant food, and, inasmuch as this element composes four fifths of the atmosphere, the question is to absorb it into the soil. It has also come to be unnerstood that only 2 per cent of the material of plants is derived from the soil, the remaining 98 per cent being drawn from the air and from water,."

A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford county Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one the route. I made the trip successfully, and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy, and this time one dose cured me." For sale by Peery & Peery druggist.

The Real Names of Some Noted Rulers

Suppose that some morning there should appear in the newspapers such an item as this: "Mr. and Mrs. Albert E. Wettin, accompanied by their nephew, Mr. Frederick W. V. A. Hohenzollern, sailed yesterday from Liverpool for New York." How many people would give more than a passing glance at this announcement? Yet it would be a piece of news calculated to throw the people of New York, and the whole of this country, in fact, into a paroxysm on excitement and feverish expectation, as must be admitted when the names of King Edward VII, Queen Alexandra, and Emperor William of Germany are respectively substituted for the true family names given in the supposititious item. Then there is the youthful matron, Mrs. Henry Schwerin, who wields more power than any other woman of twenty-one now living. She is known to the world as Wilhelmina of Holland, and is the only Queen in the world to-day with the same power as a King.—September Ladies Home Journal.

Paid to Pool.

The Waldo Hills farmers who recently formed a pool of their grain for the purpose of selling at a price above the usual quotations sold their crops at a total gain of $4200. The oats, aggregating 55,000 bushels, were sold to Simpson & Co., of Albany, at $16.55 per ton for Fall oats, and $16.05 per ton sor Spring oats, Gardner & Co., of Stayton, purchased the wheat, amounting to 11,000 bushels, under an agreement to pay 3 cents above the market price in Salem at any time the farmers are ready to sell. Under this agreement the farmers can store their grain in the warehouse and sell when they get ready, receiving 3 cents per bushel above the Salem quotation on the day of sale. Other farmers of the same vicinity, having a total of about 25,000 bushels of oats, will sell on the same terms as were received for the pool.

A Communication.

MR. EDITOR—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me. W. S. Brockham, Bagnall, Mo. This remedy is for sale by Peery & Peery, druggist.

How the Fall Waists Will be Made.

Seperate waists of cashmere, albatross, viyella, and Scotch and French flannel will be worn this autumn. The colors most used will be bright and dark red, tan the light dark and French blues, gray, pink, and dark and reseda green. Buttons of steel, gilt, and white and smoked pearl will be used on the new waists, which are made with plain backs, long shoulder seams and stitched or tucked fronts with long-waisted and slightly bloused effects. The latest sleeve is a bishop shape with a trifle more fullness at the top than of last year. The wristbands are made large enough to permit the hands to slip through. The "necktie finish" is now seen on almost all waists, particularly the more dressy ones.—September Ladies' Home Journal.

Throat Troubles

"Bardwell, Ky., where I live, is in the extreme western part of the State and only a few miles from Cairo, Ill., where the Ohio empties into the Mississippi River. It may be that throat troubles are common here because of location, but, whatever the reason, I find it wise to constantly keep a supply of Acker's English Remedy for Consumption on hand. It is the best thing I ever came across for coughs, colds and throat troubles, and I have used it in my family for years. No druggist here can be depended upon to have it always, so I am writing this letter to W. H. Hooker & Co., 220 Broadway, N. Y., to order a dozen bottles at a time. My wife is bothered lately with sore throat and difficult breathing, but just as soon as the dozen bottles get here, I will give her a few doses, and she will certainly be well again. I expect to write another letter in a short time saying my wife is cured, for I feel absolutely sure it is what she needs." (Signed) T. A. WARE.

Sold at 25c., 50c. and $1 a bottle, throughout the United States and Canada; and in England, at 1s. 2d., 2s. 3d., 4s. 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above guarantee.

ASHWOOD ORE., Aug. 21, 1901.

Quite a number of my friends before I left Scio, asked me to write them personally what I thought of the future prospects for Ashwood.

I have been here now, most two months, and will write what I honestly think of the future for this place. It will be exclusively a mining town, although grain, alfalfa and fruits do quite well here, and most all kinds of garden vegetable, of course, not so abundant as in the valley, but they do very nicely. Potatoes, cabbage, beans, turnips, beets, etc., grow quite well, plumes, prunes and apples bare well here. But mining will be the principle line of business. There are quite number being developed and all show bright prospects. The Oregon King, needs no comment as it is a fixture all ready.

And I bespeak for Ashwood in the next three years, to have a population of from five to five thousand inhabitants. It has just recently been connected by telephone, with the outside world, and without any doubt, the Columbia Southern R. R. will be here this fall, or early next spring and summer. The Company have all ready bought up quite a lot of land for the town site. Just closed a deal this morning for 80 acres for $3000. I was talking with one of the leading men in the Company this morning, and he says it is true without a doubt.

In my opinion the railroad will not move toward this point until next summer. When ever it starts for a sure thing, I will let you know, if I am here. I think this will be then the metropolis of Eastern Oregon, as well as the terminus of this railroad for a number of years.

It is quite a new location, the soil quite good and good water can be had which is not true of many Eastern Oregon towns. It will then be the central distributing point for freight traffic for Canyon City, Mitchell, Prineville, Burns, Lake View, etc., the same as Shaniko is now.

Its present business houses are one general merchandise store, one blacksmith shop, one hotel, one saloon, with lumber on the ground for another general store. When the time comes, then will be good openings for a drug store furniture store and all lines of business. Have quite a good school house, one camp of the W. O. W. The Religious sentiment is quite good. I am the only preacher here at present, and the crowds are simply immense.

Now I wish to say to my friends, that I do not advise you for the present, to come here, when work opens up and I see a sure chance for work, I will let you know, but I am quite certain that there will be a fine opening here for business or work in the no distant future. I am well and have plenty to do most of the time. Hoping that all good, things may come to you Bro. Phelps, the people of Scio and vicinity,

I am as ever yours,
G. L. SUTHERLAND.

THE HOME GOLD CURE.

An ingenious Treatment by Which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a disease and not a weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralising and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men. WIVES CURE YOUR HUSBANDS!! CHILDREN CURE YOUR FATHERS!! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will, so not wait. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within the reach of everybody a treatment more effectual than others costing $25 to $50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept E 625 GRANT & GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

All correspondence strictly confidential.

One Cat that Earned a Raise in Salary.

Some time ago the cat of the St. Paul postoffice made a record by slaying a hundred and twenty-five rats and mice in one month. In recognition of her abilities the postmaster wrote to Washington, asking an increase in her salary, and she now receives $10.40 a year. Soon after she showed her gratitude by presenting the Government with five kittens, each of which entered the United States service as soon as it was old enough to tackle a rat.—September Ladies' Home Journal.

Stood Death Off.

E. B. Munday, a lawyer of Henrietta, Tex., once fooled a grave digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cure constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50c at Peery & Peery's durg store.

Seven Days At Carnival.

All the transportation lines in the Northwest are arranging to give specially low rates to and from the Portland Carnival, which runs from September 18 to Oct. 19, and the excursion tickets will be good for 7 days. This is the longest limit ever given on such tickets, and will give people ample time to see all the sights connected with the great exposition.

With two full military bands, a military tournament, a horse show, athletic sports, exhibits of mining, agriculture, horticulture and manufacturing, a full midway, fire works, and an array of amusement attractions, the Carnival will be one of the greatest events of the season, and the admission fee is going to be only 25 cents, 10 cents for children.
