A gentle shower—lasting about seven hours—Saturday night put a stop to threshing operations for a few days, but the machines started up again Tuesday. Most of the grain in this section will have been threshed by Saturday night, and none of it has been damaged to any extent. On an average the yield was good, and the grain of excellent quality.

This section of the country is furnishing its quota of the hop-pickers for the Polk county market, and as a result the city and surrounding country is about depopulated. In the description of the dog he states that two inches of his tail has been cut off. Now we would like to know just how a man is going to identify a tail in that way. If a man can tell much has been cut off a dog's tail by looking at it he ought to be able to tell how far it is to the moon.

Extracted A Bullet.

Tuesday morning Dr. J. L. Hill performed an operation on Nathan Sumpter who accidentally shot himself in the head several months ago with a Winchester rifle. The bullet was located at the top of the head by Dr. Hill's X-ray machine and the operation was quickly performed. The bullet was flattened and pretty well used up by coming in contact with Mr. Sumpter's head. He is up and around and does not feel the effects of the operation. This is a very remarkable case, as the ball went through the brain, and several ounces of the brain matter was removed. In three weeks after the accident occurred Mr. Sumpter was on the street and has been able to move around ever since.—Albany Herald.

A Shocking Calamity.

"Lately a bull a railroad laborer," writes Dr. A. Kellert, of Willford, Ark. "His foot was badly crushed, but Bucklen's Arnica Salve quickly cured him. Admiral Robley Evans put it in print and got into trouble. He only voiced what many people thought and think yet about Chandler's policy. The reprinting made smart for a few days but it won't lessen the sale of "Fighting Bob's" book.

Geo. W. Lane, Pewamo, Mich., writes: "Your Kodol Dyspepsia Cure is the best remedy for indigestion and stomach trouble that I ever used. For years I suffered from dyspepsia, at times compelling me to stay in bed and causing me untold agony. I am completely cured by Kodol Dyspepsia Cure. In recommending it to friends who suffer from indigestion I always offer to pay for it if it fails. Thus far I have never paid." Peery & Peery.

HE RIDES IN HIS CARRIAGE.

The Young Man Who Saw a Chance to Get Ahead in the World.

A few years ago circumstances opened up a lucky chance to a young man who was ciding out a poor and unpleasant existence on a scrubby farm in the Piscataquis backwoods. Even this poor bit of earth was not all his own, says the Lewiston (Me.) Journal. He was remote from neighbors, and so far from a sawmill that the buildings were left to tumble down for want of lumber to repair them. In this state of things the Canadian Pacific railway was located around the side of the mountain just above his valley, and hundreds of Italians and other laborers were put to work. It required two years to build this part of the road, working winters as well as in warm weather. The humble farmer saw his chance. He went to the settlements and secured a supply of clothing and knick-knacks to sell on commission, and soon rose to the dignity of having goods of his own. He does not live in the backwoods any more, for as soon as the road was built and the laborers departed he folded his tent also and went forth, bought one of the best farms in Piscataquis, paying cash down and now lives in comfort, rides in his carriage, sends his children to the best schools and all that. His case is one of those which show the advantage of promptly catching hold of Fortune, even if she is found in an unexpected place.
