Something New Under the Sun.

All Doctors have tried to cure CATARRH

by the use of powders, acid grass, inhalers and drugs in paste form. Their powders dry up the mucous membrane causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membrane that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharge, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "STYPTER" the GUARANTEED CATARRH CURE and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use. "STYPTER" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for this annoying disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve any fever of cold in the head.

CATARRH when neglected often leads to CONSUMPTION. "STYPTER" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay, but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "STYPTER" the GUARANTEED CATARRH CURE.

E. P. Cadwell, for a short time a resident of this city, is now residing in Mexico, and according to the Oregonian, is doing quite well raising tomatoes for the Chicago winter market. He may get along nicely in Mexico, but he didn't have the smoothest of sailing in Scio.

Last week B. Shelton sold the Thos. Allison farm, on Crabtree creek, six miles southeast of Scio, containing 2.5 acres, to Joseph Supor, of Olivet, Minn., for \$5250. This is one of the best farms in this section of the country, and the price paid is considered cheap for this quality of real estate.

Eli Lukenbach and E. J. Daley went up Roaring river one day last week on a fishing excursion. ED. said he had better luck than ever—he caught one fish. He thinks there is some sort of a magic way of landing the members of the finny tribe on the bank, and he has failed to catch onto the trick in the proper style, but he is improving, and if he keeps on he will some day become a great angler.

Some low-born son of Adam, without the fear of God in his heart, swiped Frank Dreury's bicycle Tuesday evening of last week, and now there is a reward offered of \$10 for the wheel, and \$10 more for the arrest of the thief, whether he be friend or foe. Frank says perhaps someone hid it in a spirit of fun, but if they have the fun part of it is all off, and he intends to make it warm for the offender, if he can get his hands on him. LATER—The wheel was found in Wm. Brenner's barn, but the man who put it there is keeping pretty silent.

We Went Hunting.

In company with Mayor H. Shelton, M. M. Peery and Wm. C. Miller, the editor of this paper spent the greater portion of last week in the wilds of upper Crabtree creek, camping at the thriving little village of Dorgaville. There is no finer sport than hunting the cunning deer in their wild mountain homes, and right here we want to say that there is no better people to sleep with than the three above named—with the exception of "Bill" Miller, who would persist in sleeping with his big hunting boots on.

Several crowds of hunters have been in that section of the country since fall, and order among the young men who attended the school, which does not speak well for their reputation, and the boys had better keep still or the women will try to hold them in check, as they say their patience is about thread bare.

Mr. Editor if you are an expert China Pheasant hunter call around some leisure day and S. W. will show you where you can get a fine mess if you will hand him out the two last before you start home, as he is very hungry for a bird, but don't do like the others who shoot and bang all day and never say turkey once to me. I will look for you out soon as I have a few fat ones left.
