Something New Under the Sun.

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open end bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitionr who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying disease. It cures all inflamation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept E 625 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

Then I spent four years in a college which cost me $250 per year. After that I attended law school three years at an expense of $400 per year, making a total of $2400 that it cost me to learn how to make these deeds." "Gosh," replied the client, "what a durned fool you must have been before they begun on you."—Ex.

A New Trial Ordered.

The supreme court has ordered a new trial in the case of Linn county respondent agt. P. G. Morris et al appellants, on the grounds simply that the case should have been continued until after the indictments were disposed of. The trial was held in the W C T U hall, as the court house at that time was being transformed into the new building. Objection was made to this, but the court does not touch on the matter at all, as it undoubtedly was not material. The opinion of Judge Moore says:

"Flinn's affadavit shows that Morris was the only person by whom the defendant could expect to prove that the entire defalcation did not occur during his last term of office. Fear of conviction under the indictments evidently restrained him from testifying in relation to this important matter, and as the District Attorney had charge of the criminal actions and was apparently holding the indictment in abeyance until this action was tried, we think the court exercised its authority erroneously in not postponing the trial herein till the indictments were disposed of." A new trial is ordered.

Children Especially Liable.

Burns, bruises and cuts are extremely painful and if neglected often result in blood poisoning. Children are especially liable to such mishaps because not so careful. As a remedy DeWitt's Witch Hazel Salve is unequaled. Draws out the fire, stops the pain, soon heals the wound. Beware of counterfeits. Sure cure for piles. "DeWitt's Witch Hazel Salve cured our baby of eczema after two physicians gave her up," writes James Mock, N. Webster, Ind. "The sores were so bad she soiled two to five dresses a day. Peery & Peery.

Electricising Water Power.

Clear lake, 75 miles north of San Francisco and 1,317 feet above the sea level, having its outlet at Cache creek, a stream supplying 327,000,000 gallons of water daily, is to have its forces translated into electricity, sent on overhead copper wires, 20,000 horse-power and upward, to the motors at San Francisco, besides doing lots of work all around the region and on the line of transit. On the way the waste water is to irrigate hundreds of thousands of acres of land, making it bud and blossom like the rose. The water will be shot through Pelton wheels, which will be connected directly with the dynamos, the latter being among the largest and most powerful known. The transmission of electricity under the waters of the bay has been an intricate and difficult problem, but has found its solution, and now presents no obstacle of serious character.

Quite Satisfactory.

The king of the Belgians went out for a walk the other day, and entered a farm to ask for a glass of milk. When he had made a remark in English to his companion, he heard the hostess say to her husband in Flemish: "I wonder what that long-nosed Englishman will give us for the milk?" Whereupon the king took out a five-franc piece and gave it to the woman, saying in Flemish: "Allow me to offer you the portrait of the long-nosed Englishman."

Patti Fears Burglars.

Burglars are the great terror of Mme. Patti's life at Craig-y-nos castle, and she has had all her window shutters fitted with electric bells, which start ringing at the slightest touch, while by the same machinery a gun is fired and a number of dogs are let loose in the grounds. Special watchmen are told off every night on "round" duty, it is added.—Cassell's Journal.

To Remove Grease Spots from Silk.

Rub powdered magnesia into the stains, and hold the silk near the fire, so that the powder may become warmed. It will then absorb the grease, which will be brushed off the silk with the powder.—Cincinnati Commercial Tribune.

SCHOOL NOTES

Miss Cox promoted a class of 12 Friday.

Mr. Fred Carey enrolled in school Monday.

31 enrolled in the grammar department.

Mr. W. J. Gordon, recently from Minnesota, visited the school last week.

The Misses Daley, Miss Bulah Sutherland, Miss Myrtle Myers and Miss Bessie Morris were recent callers.

The class in Physics have been greatly interested during the past week, in the discussion of sound. The rapidity with which it travels, etc.

Rev. Wherry, of Stayton, led the assembly exercises Monday morning and made a few introductory remarks. He spent the forenoon visiting the different rooms.

Did it ever occur to anyone that the average written examination is a nuisance, a farce, a bug-bear a nightmare, a never to be forgotton puzzle on an unfair method of ascertaining the ability of a student or an applicant for a certificate. There is not a teacher in the Scio school, or most sceools but know the ability of each pupil in the class and can locate them in promotions with a greater degree of fairness than any written examination can give them. Very often the pupil in the class who lacks most in scholarly ability will answer a certain ten questions and know very little of the technical information natural to that branch of study. The very best pupil in the class may fail on a written examination.

A noted educator write: In all my experience as an educator, it is my opinion I have never seen a greater wrong than has been done to pupils at times through written examinations.

The present system of written examinations in Oregon does not recognize the experience that a teacher may have acquired during perhaps, years of labor in the school room. A teacher who has once passed an examination for a first, second, or third grade county certificate, ought to be permitted to teach such certificate during life. As it is they must reappear at the county examination and go into competition with youngsters who have never had one whit of experience. It is no wonder that teachers of ability quit the profession in disgust.

It is impossible to select 10 questions in any one branch that is a fair test of the pupils knowledge. Pupils who are continually worrying about examinations can not do efficient work.

The schools some day will be divided into districts of the 1st 2nd 3d grades, making a third grade certificate good only in a third class school. Then it will no doubt be possible to teach for life on any certificate.

Circuit Court.

Judge Boise held an adjoined term of Circuit Court yesterday afternoon and disposed of a number of cases. The case of the state vs. Jas. Gulley for selling liquor to a minor was submitted to him, but he refused to render a decision as it is in Department No. 1.

The state vs. Zimmerman for obtaining liquor by falsely pretending that he was 21 years old was heard, the defendant entering a plea of guilty and was fined $25, which was paid.

Swan vs. Canady, the court overruled a demurrer to the complaint and rendered judgment for the plaintiff.

Hockensmith vs. Bond, a suit in partition, a decree was entered and Sam Brock, John Evans and C. C. Jackson were appointed referees.

Sylvester vs Sylvester, L. L. Swan was appointed guardian ad litem and L. Bartenshaw authorized to sell property.
