All Doctors have tried to cure CATARRH by the use of powders, acid sprays, inhalers and drugs in paste form. Their powders dry up the mucous membrane causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membrane that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH has at last perfected a treatment which will faithfully cure, not only relieve at once, but permanently cure CATARRH by removing the causes, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "ANTIFLEX" the GUARANTEED CATARRH CURE and is sold at the extremely low price of One Dollar each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use. "ANTIFLEX" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COUGHS IN THE HEAD. CATARRH when neglected often leads to CONSUMPTION—"ANTIFLEX" will save you if you use it at once. It is an ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy beyond the regular price of "ANTIFLEX" the "GUARANTEED CATARRH CURE". Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. E. C. 25, E. W. W. & CO., Philadelphia, Pa.

Marshall J. A. Blyden is making things uncomfortable for those of our citizens who have not as yet paid their dog tax. This is entirely correct, and those who do not pay should be made to pay or dispose of their dogs. There is a surplus of dogs in town, anyway.

We are just a little slow in mentioning the fact that a bright baby baby has been added to the home of Mr. and Mrs. C. D. Compton, in this city last week, but it's better to be late than never, even in a case of this kind. We will try and do better next time.

At the special school meeting held at the city hall in this city last Saturday a tax of seven and one-half mills was levied for the purpose of paying the existing debt of the district. The tax was levied on the basis of year to year until it had grown to about \$700. A tax had been previously voted for the purpose of paying the interest on a change bond, which was placed at five mills, and this amount added to the tax voted at the last meeting will swell the levy to twenty and one-half mills which added to the county and state levy makes a tax of thirty mills in the school district. The city did not levy any tax this year.

In conversation with R. Shelton, our regular real estate agent, this week we were informed by him that he had a large number of inquiries from people in the east who were coming to Oregon in the coming spring, and who were anxious to gain all the information they could regarding the land in this section. A large number of these people who have been for sale have neglected to contract the same with him, giving him a basis to work on. If your land is for sale contact him, and he will contract with him, and he will be able to take the land for you, and he must have property properly contracted before he can do a great deal in the way of land in this country.

If anyone should have a few days of genuine winter, it all happened Friday night, and on that particular evening there was a change of 40 degrees in the temperature, going from 50 to 10. As a result of so sudden a change every pipe and pump in town that contained a bit of water froze up tight Saturday morning. The city water main under the bridge was a solid piece of ice, as it was likewise in numerous other places in town where it was exposed. Numerous pumps and steam pipes about town were served in a similar manner, and in many instances they were burst.

Attention, Farmers.
