What are Humors?

They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but are sometimes inherited.

How do they manifest themselves?

In many forms of cutaneous eruption, salt rheum or eczema, pimples and boils, and in weakness, languor, general debility.

How are they expelled? By

Hood's Sarsaparilla

which also builds up the system that has suffered from them.

It is the best medicine for all humors.

Where Vanity Rules.

A French explorer has discovered on the west coast of Africa what he regards as the vainest people on earth. They are the Pahouins, a warlike tribe, whose main employment is the adornment of their persons, chiefly by means of tattooing. Great ingenuity is also exhibited in dressing their hair, which in many cases is arranged in astonishingly elaborate fashion.

A Lawyer's Fine Distinction.

Brooklyn, N. Y., Jan. 20th.—For many years Garfield Tea, The Herb Cure, has been earning a reputation that is rare—it is UNIVERSALLY praised! This remedy presents unusual attractions to those in search of health; it is made of HERBS that cure in Nature's way—by removing the cause of disease; it is PURE; it cleanses the system, purifies the blood and establishes a perfect action of the digestive organs. It is equally good for young and old.

Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—driven from the surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early life, for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards.

In Burmah in Ceylon, and, though fortunately in a lesser degree, in Madras, quarrels are constantly occurring in which knives are brought into play and serious wounds inflicted, resulting more than often not in death. They would thus be rendered harmless for stabbing, while still available for legitimate use.

MILLIONS A YEAR

INCREDIBLE AMOUNT OF MONEY LOST BY THE WORKING CLASSES.

An Interview With George V. Hammond, of Tacoma, Wash., a Man Who Talks from Experience.

The money lost annually by skilled workmen of all occupations figures up to millions of dollars and is becoming greater every year. This amount of money represents mainly time lost and the serious effect upon the social comfort of the workingmen and their families is evident. Mr. George V. Hammond, of Tacoma, Wash., said the other day:

"I have lost my share of time but I am thankful to say that I have not been losing any of late."

"You don't look as if you had lost much through sickness."

"No, and I don't feel so. But the fact remains that I was a very sick man. I took cold along in 1889 and rheumatism settled in my arms and shoulders. I suffered for three years and nothing relieved me until in April, 1892, upon the recommendation of my sister, I began the use of Dr. Williams' Pink Pills for Pale People and found relief in the second box. I took five boxes in all and now am entirely cured and have had no occasion to use them since."

Mr. Hammond resides at No. 610 N. Steele street, Tacoma, Wash., and at the request of the reporter made affidavit to his above statement before James H. Dege, a notary public, on July 5, 1901.

There is a popular idea that rheumatism is caused by exposure to cold and that some localities are infected with it more than others. Such conditions frequently promote the development of the disease, but, from the fact that rheumatism runs in certain families, it is shown to be heriditary and, consequently a disease of the blood.

Frequently an individual, in whose family rheumatism has not occurred, develops the disease, and when a diagnosis of the case is made, it is generally found that the ailment is due to a derangement of the blood.

External applications may afford temporary relief, but to cure the disease it is necessary to treat it through the blood.

Dr. Williams' Pink Pills for Pale People go directly to the seat of the disorder, purifying and enriching the blood by eliminating poisonous elements and renewing health giving forces. They are a positive specific not only for rheumatism, but for such diseases as locomotor ataxia, partial paralysis, St. Vitus dance, sciatica, neuralgia, rheumatism, nervous headache the after effects of grip or fevers, and of other acute diseases, palpitation of the heart, pale and sallow complexions and all forms of weakness, either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers or will be sent postpaid on receipt of price, fifty cents a box; six boxes, two dollars and fifty cents, by addressing Dr. Williams Medicine Company, Schenectady, N. Y. Be sure to get the genuine; substitutes never cured anybody.

Indian Territory Coal Deposits.

Some idea of the value of the coal deposits in Indian territory can be gained when it is known the average thickness of the vein is four feet, which will produce 4,000 tons to the acre. These lands are leased in lots of 900 acres each, which means that 3,500,000 to 4,000,000 tons can be produced by those leasing the land. On this output the lessees pay a royalty of eight cents a ton. The output during the last year was 1,900,127, as against 1,400,441 tons the previous year.

Professor—Yes; I have. I wanted something to discipline my mind.

Wind-Up of Mourning Period.

The year's court mourning for the late Queen Victoria will come to an end on January 22. If the opening of parliament should take place, as is expected, on the following day, it will be the first full state ceremonial function of the new reign. On the opening day of the season the king will be accompanied by the queen and by all the members of the royal family who may be then in England.

Has Voted Many Years.

John Strunk, of Stroudsburg, Pa., 93 years old, failed to vote at the fall election for the first time since he became of age, and then only because his son was unable to drive with him on election day to the polling place, which is 14 miles from his home.

COMFORT IN BOYS' CLOTHING.

Remember that the most essential thing to a child's appearance is comfort. Unless the little fellow is at ease in his garments he will not look well, and, as a general rule, the more simply children are clothed the better will be the result. It is such a mistake to put a healthy, frolicking young chap into a stiff, ill-fitting suit of clothes, with a collar that pinches and shoes that are uncomfortable, in the attempt to make the proper appearance. How much better an easy-fitting, simple little suit, with shoes that are neat and comfortable, and well-made waists and linen collars. For, after all, style does not consist so much in the garment as the

way they are made, and the manner of wearing them. One of the prettiest little overcoats for a youngster of 6 to 8 years is made of tan or brown kersey, with a double breasted front and pretty belt of patent leather, fastening with a heavy brass harness buckle. Turn-over velvet collar, forming a small hood in the back of the coat. Brass buttons and Tam O'Shanter cap of tan leather.

The second lad shows a very popular suit of Scotch goods in a mixed brown. The trousers have a slight bloomer effect, and are very loose and comfortable. Norfolk coat, with yoke in front and back. Single-breasted, and belt of same material.

The last suit is made of the ever popular navy blue serge, which never wears out. The little single-breasted vest and cutaway coat make a very swell little suit, with short trousers, which are pressed with a slight crease in front. The white vests are effective with this style of coat.

Texas is the largest State in the Union, with an area of 266,611 square miles, and Rhode Island the smallest, with 1,247 square miles. Texas would make 213 States as large as Rhode Island, and have four hundred square miles left over, or more than twice as much as in the District of Columbia.

The Department of Agriculture is anxious to encourage the growing of flowers for perfume-making in this country, and attention is called to the fact that conditions in the Southern States, and particularly in Southern California, are exceptionally favorable for industries of this kind. It is believed that in California the essential oil, or attar of roses, might be produced on an extensive scale to great advantage.

During the burning of the Standard Oil Company's tanks at Bayonne, N. J., July, 1900, an immense column of smoke, shaped at the top like an umbrella, rose into the air, where very little wind was stirring, to an elevation, measured by triangulation, of 13,411 feet, or more than two miles and a half. Above the column white clouds formed in an otherwise cloudless sky, and remained visible for two days, the fire continuing to burn and the smoke to rise. After the explosion of a gas oil-tank flames shot up to a height of 3,000 feet, and the heat radiated from them was felt at a distance of a mile and three-quarters, where it was more noticeable than close to the fire.

To Cure Stammerers.

It is said that stammerers rarely, if ever, show any impediment of speech when speaking in whispers. On this fact a new method of treatment has been advocated, which is as follows: For the first ten days speaking is prohibited. This will allow rest to the voice and constitutes the preliminary stage of treatment. During the next ten days speaking is permissible in the whispering voice, and, in the course of the next fifteen days, the ordinary conversational tone may be gradually employed.

An Old Timepiece.

An interesting exhibit at the Smithsonian Institution is an old German clock that was ticking about fifteen years before the birth of the great American republic. It keeps good time and is 140 years old. It is made of hard wood and the work was all done by hand. Every piece of the mechanism is highly polished, and it is put together with hand-wrought rivets of brass. The parts show very little wear and the time piece is so carefully constructed that it does not vary a second in time during twenty-four hours.

The Great Food Staple.

Rice forms a larger part of human food than the product of any other one plant, being the diet of India, China, and the Malayan Islands and occupying a place on the tables of 90 per cent of the inhabitants of the civilized world. One may safely venture the assertion that 800,000,000 people eat rice every day in the year.—New York Press.

Injudiciously Chosen Text.

A church was a considerable time without a pastor. A great number of persons of varied talents preached to them with a view of obtaining the post. All went well until he gave out the text: "See that ye refuse not him that speaketh." Imagine the consternation the people experienced when he read out the text in a lofty and commanding manner. He was unaware of the feeling he created. The people did the opposite from the text. The young man was not called.

Best Monument to McKinley.

There has been much planning for suitable memorialls to William McKinley. There could be no more appropriate tribute paid to his memory than the completion of a trans-isthmian canal, which in his last public utterance he advocated as a project essential to the full success of trade expansion. The canal when built should stand as a monument to the far sighted president who did more than any other man to make its coutsruction necessary.—National Magazine for December.

Earl Cadogan's Immense Estate.

Some idea of Earl Cadogan's wealth may be gathered from the fact that some 13 or 14 years ago he expended a quarter million pounds on the purchase of the Culford estate, in Suffolk, and the rebuilding of the house. Shortly after this he presented an extensive site in Chelsea, known as Blocklands, to the Guinness trust, for the erection of workmen's dwellings. It is probable that during the next few years his wealth will be doubled.

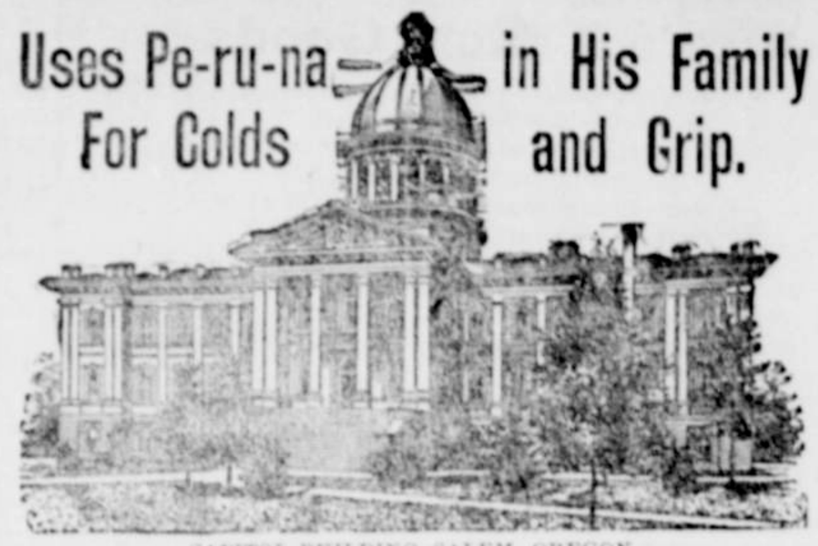
GOVERNOR OF OREGON

Uses Pe-ru-na in His Family For Colds and Grip.



CAPITOL BUILDING, SALEM, OREGON.

A Letter From the Executive Office of Oregon.

Pe-ru-na is known from the Atlantic to the Pacific. Letters of congratulation and commendation testifying to the merits of Pe-ru-na as a catarrh remedy are pouring in from every state in the union. Dr. Hartman is receiving hundreds of such letters daily. All classes write these letters, from the highest to the lowest.

The outdoor laborer, the indoor artisan, the clerk, the editor, the statesman, the preacher—all agree that Pe-ru-na is the catarrh remedy of the age. The stage and rostrum, recognizing catarrh as their greatest enemy, are especially enthusiastic in their praise and testimony.

Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well-nigh universal; almost omnipresent. Pe-ru-na is the only absolute safeguard known. A cold is the beginning of catarrh. To prevent colds, to cure colds, is to cheat catarrh out of its victims. Pe-ru-na not only cures catarrh, but prevents. Every household should be supplied with this great remedy for coughs, colds and so forth.

The governor of Oregon is an ardent admirer of Pe-ru-na. He keeps it continually in the house. In a recent letter to Dr. Hartman he says:

State of Oregon,
Executive Department,
Salem, May 9, 1898.

The Pe-ru-na Medicine Co., Columbus, Ohio:

Dear Sirs—I have had occasion to use your Pe-ru-na medicine in my family for colds, and it proved to be an excellent remedy. I have not had occasion to use it for other ailments.

Yours very truly, W. M. Lord.

It will be noticed that the governor says he has not had occasion to use Pe-ru-na for other ailments. The reason for this is, most other ailments begin with a cold. Using Pe-ru-na to promptly cure colds, he protects his family against other ailments. This is exactly what every other family in the United States should do. Keep Pe-ru-na in the house. Use it for coughs, colds, la grippe, and other climatic affections of winter, and there will be no other ailments in the house. Such families should provide themselves with a copy of Dr. Hartman's free book, entitled "Winter Catarrh." Address Dr. Hartman, Columbus, Ohio.
