Something New Under the Sun.

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying disease. It cures all inflamation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD IN THE HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remecy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept E 625 EDWIN B. OILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

SCHOOL NOTES

Quite a class took the 8th grade examination this week.

Miss Shore, Miss Sims, and Henry Burmeister are assisting in teaching the business class.

Among recent visitors were Miss Bulah Sutherland, Miss Powell Geo. Daley, Miss McCrume of Lebanon, Miss Rowell of Albany, and Mr. C. W. Walker, of Albany.

Mr. C. W. Walker, the first white person born on the Pacific coast, now a resident of Albany, visited the several departments of the school, made an address to the students and sang a couple of songs in "jargon." He told some interesting facts about pioneer days. He was born in 1838 in the house occupied by Dr. Whitland who established a missionary station near Walla Walla in 1836. Mr. Walker's father was a missionary sent out by the American Board and located among the Cayuse Indians near Spokane Wash. The massacre of Whitman and family compelled Rev. Walker to move to the Willamette valley near Forest Grove. The Walkers had much to do with the upbuilding of the F. G. college. Mr. C. W. Walker was in the Modoc war. He went there with 70 Warm Spring indians who made the final capture of Captain Jack possible. He was during many years government clerk, Supt. of indian boarding schools, interpreter, and preacher. He knows all the leading indians of Oregon Washington and Idaho. He at times is employed by the indiyns to take charge of their accounts in settling with the government. He has made several trips at their request, since setting to Linn Co., for which service the indians pay him good wages. Mr. Walker talks "jargon" fluently. It used to be the common language spoken among pioneer indians and Hudson Bay Co's. men. The writer of this article has heard him preach many a time to several hundred Indian people. Taken all in all his life has been a very useful one. He advocates what he thinks is right without fear or favor, and therein lies a most interesting personality of the man.

Had To Conquer Or Die.

"I was just about gone," writes Mrs. Rosa Richardson, of Laurel Springs, N. C., "I had consumption so bad that the best doctors said I could not live more than a month, but I began to use Dr. King's New Discovery and was wholly cured by seven bottles and am now stout and well." Its an unrivaled life-saver in consumption, Pneumonia, La Grippe, Bronchitis; infallible for coughs, colds, asthma hay fever, croup or whooping cough. Guaranteed bottles 50c and $1.00. The Palace Restaurant, conducted by Burkhart & Neeley, at Albany, has an ad in this issue of THE NEWS. The proprietors are both young men well known in this section, and they will be pleased to see their friends at their new place of business, opposite the Revere House. They have fitted up elegant rooms, and will doubtless build up an excellant trade.

Special meetings have been held during the past couple of weeks by the members of the local fire companies with a view to re-organization, and we are informed that considerable progress has been made in the right direction. Several new members have made application, and doubtless the two companies will be revived at an early date, and put in good active service. Scio should not be without fire protection, and the proper way to insure protection is through the services of a good company. The two companies are composed of business men, who are doing service for the sake of protecting their interests, and this fact lends assurance that each ones interests in case of fire will by no means be neglected.

SHEARED

Dr. C. L. Hill has so far recovered from his long siege of sickness as to be able to be upon our streets again and attend to his dental patients.—Wasco News.

A sure preventive of smallpox has been discovered. It is simply a tablespoon of vinegar in a half glass of water. Dr. C. F. Howe, health officer at Atchison, Kan., declares that by drinking this four times daily a person can work over a smallpox patient as nurse. Pure cider vinegar is the best. This is no funny item but a fact given prominence by the American Medical Journal.

A phrenologist examined the heads of Dalton and Wade. According to his description Dalton was the dangerous man who was the leader, while Wade was easily influenced and led by others. A palmist examined the hands of the two men, and according to him Wade was the man to lead for evil, the stronger character, and Dalton the man to follow. It will thus be seen that very little can be depended upon phrenology and palmistry in such cases.

The modern smallpox, an inheritance from our Philippine possession is an odd kind of a thing. The following from the Marshfield Sun is an illustration: The prevailing malady is reigning supreme at Libby. Bill Lawlor 'phoned down this morning, "that there were 20 patients in all stages of the game, in the store yesterday, warming themselves around the stove, and now I am fumigating to beat the band."
