All Doctors have tried to cure CATARRH of the nose by the use of powders, ointments and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of catarrh, has at last perfected a Treatment which he faithfully used, not only relieving at once, but permanently curing CATARRH by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the affected parts. This wonderful remedy is known as "SNEEFLER" the GREAT CATARRH CURE, and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNEEFLER" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for all annoying disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve MAXIMUM OF COUGHS IN THE HEAD.

At the last regular meeting of the city council a petition was presented by the W. C. T. U., asking the council to take some action in regard to closing the saloons on Sunday, it being claimed that while the front doors were closed the back ones were at all times in condition to admit visitors. The council appointed a committee of two aldermen to act in conjunction with the marshal and confer with the saloon keepers in regard to a closer observation of the law in the matter of Sunday closing. The result of the conference was that both thirsty parties were closed to all comers on last Sunday. This is correct, as the law should be enforced in full or not at all. A dead law is worse than no law.

Wm. Brenner sold his band of hogs last week, that if what he had left of the band. Some weeks ago he took an invoice of his hog possessions, and was greatly surprised to find that he was "shy" just 23 fine porkers. He said nothing for a day or two, but was soon convinced that his hogs had help to escape, and it was also learned that some of his neighbors were also short on hogs. A search was made for the missing swine, but to no purpose, the hogs had disappeared as though by magic. He concluded to gather up the remaining band and dispose of them, and when the final roundup was made another fine specimen of the hog family was missing. Bill is one of these sort of whole-souled fellows who would give his neighbor a hog in a minute if he needed it, but he does not approve of the idea of losing twenty four nice ones which would tip the beam at about 175 apiece, all at once. It was quite a loss to him, and he would like pretty well to find the address of the person or persons who are responsible for the escape of his porkers.
