Something New Under the Sun.

All Doctors have tried to cure CATARRH by the use of powders, and gaseous, and drugs in paste form. These powders dry up the mucous membrane causing them to crack open and bleed. The powerful acids used in the inhalers have extremely eaten away the same membrane that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the affected parts. This wonderful remedy is known as "SEPTIFER" the SCIENTIFIC CATARRH CURE, and is sold at the extremely low price of One Dollar each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SEPTIFER" is the only perfect CATARRH cure ever made and is now recognized as the only safe and positive cure for that annoying disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLIC in the HEAD.

While in Portland the latter part of last week we received a new press on which to print THE NEWS, and in order to pay for it we are compelled to collect every cent that we can that is on a subscription.

An inspection of our books reveals the fact that we have just a little over \$300 due us on subscription up to the first day of February, so nothing of what should be paid in advance. What is due us on back subscription should be paid at once as we are sorely in need of it, and must have it to pay for our new press and bear the additional expense of printing a better paper.

We have in contemplation numerous improvements in the paper, which will make it much more readable, and hope to be able to make it the best paper in the county. You can help us do this by coming in and paying up what you owe us on subscription.

We also want Mr. M. B. Peery to see that the paper is sent to all who owe us, and we hope that as they will be glad to see it, as possible after receiving the same.

While in Portland last week "eye editor" called at the Aeolian Company's store, to see our old friend Laymore. We have often heard of the Piano, but never saw or heard one played until this last visit. The Piano is certainly a wonderful instrument. It has a great many "tricks" that it is not by any means a "machine" or an "automatic device" for playing the Piano. Had we not been in the same room, we would certainly have thought some great artist was playing the piano in the old ordinary way. With the Piano any one can play the piano, and it has absolute control over the "time" and "expression," he can play any selection just as he feels it should be played. We also want Mr. M. B. Peery to see that the paper is sent to all who owe us, and we hope that as they will be glad to see it, as possible after receiving the same.

We have often heard of the Piano, but never saw or heard one played until this last visit. The Piano is certainly a wonderful instrument. It has a great many "tricks" that it is not by any means a "machine" or an "automatic device" for playing the Piano. Had we not been in the same room, we would certainly have thought some great artist was playing the piano in the old ordinary way. With the Piano any one can play the piano, and it has absolute control over the "time" and "expression," he can play any selection just as he feels it should be played. We also want Mr. M. B. Peery to see that the paper is sent to all who owe us, and we hope that as they will be glad to see it, as possible after receiving the same.
