Something New Under the Sun.

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept E 625 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

You may say either, but the weight of good usage is with "named after;" "named for" has some vogue in the United States, but is no longer current in England; "named after" is in good use in both countries.

Get a bottle of Chamberlain's Cough Remedy and use it as directed and it will prevent the threatened attack. STARVING PARIS DOCTORS.

Not Enough Patients—Free Hospitals Cut Into the Practice of Many Physicians.

A double suicide, which shocked Paris the other day, brought to the attention of the public the financial straits in which, it is said, the majority of the physicians of that city live, says the New York World. Dr. Arnaud de Langlard, an old physician, who had been decorated by the government for brave conduct during the cholera epidemic many years ago, committed suicide with his wife because his practice had dwindled to the vanishing point and starvation was staring them in the face.

In commenting upon the tragedy several newspapers asserted that in Paris not more than one doctor out of five is able to make more than the barest living. Among the causes of this poverty among physicians is the destitution of most of their patients. Medical science has made such great strides, too, that maladies of all sorts are now more quickly cured, and such precautions are taken to prevent the spread of contagious diseases that epidemics are becoming practically unknown. The number of doctors, on the other hand, has rapidly increased. Another reason why there is not practice enough to go around is that in many of the hospitals people can be treated for nothing or at a very nominal figure. Many of these hospitals have training schools, which are free, in which are taught the rudiments of medicine and surgery. These schools are largely attended and many sick people are taken in hand at their own homes by some members of the family who has profited by this instruction.
