best known pioneers and is a very capable man. Linn county has not had a more competent man for treasurer since it was organized as a county. Those who know him will vote for him.

Senator Kelly is an able, energetic and reliable lawyer and has served Linn county well during two terms at Salem and will be on hand at the opening of the next session of the legislature to again serve this county.

There are few more congenial or more popular men in Linn county than Bruce McKnight, and he will make a first-class assessor and his election is beyond any doubt. In fact, it is about conceded by the democrats themselves.

John H. Glass represents the active business interests of Linn county and is a safe and reliable man to represent the business of the county in the legislature, which the people will not neglect to see he has an opportunity to do.

The democrats recognize the fact that Mr. Kelly and Mr. Van Winkle are popular men and strong vote getters from all classes and political parties, and for that reason are very much worried about them. They will both be elected.

Chas. H. Burggraf is a self-made man and has forged himself to the front in his calling as architect and builder by hard work and industry and honesty. The people want just such a man in the legislature. He will be there next winter.

Frank D. Cornett is one of the best known and most active grangers in Linn county and will poll a heavy vote in the rural districts. He knows the needs of the farmers and they know they need him in the legislature and will vote to put him there.

Always bring your chickens, eggs and butter to me and you are sure of getting what they are worth. Ross E. Hibler.

Mr. and Mrs. G. W. Johnston, of Fox Valley, spent Sunday in Scio, visiting with numerous friends and relatives.
Quite a large number of our people went on the excursion to the Dalles Sunday last, and all report a very enjoyable time.

There was a wreck at Hubbard Saturday evening. A freight train was on the switch, which by mistake was left open. The Albany load ran directly into the engine of the freight but a little distance up the track. The engine and cars were wrecked and another engine had to be secured for each train. The passengers received a live jar.

County treasurer R. B. Miller met with quite a serious accident while coming to this city Saturday afternoon. The king-bolt of his buggy broke and he was thrown to the ground with such force that his right shoulder was thrown out of place. The accident happened near the farm of F. J. Denny, who assisted him in getting his buggy together and he then drove to this city where medical aid was summoned and the arm again put in place, and on Monday he was taken to Albany. How he escaped sudden death is a mystery.

Several of the papers in this section are saying that a sharp party who was arrested here last week and bound over before Justice Johnson at Jefferson, was a blacksmith from Scio. Blacksmith, all right, but he is no more from Scio than any other town in the valley. He is a member of the floating population, who are in Scio three or four days. It has been the custom to make it appear that everyone who commits a crime of any note in this county is from Scio, and are not going to put up with it much longer. We are the most law abiding people on earth, and we don't want the blame for every crime committed in this neck of the woods.

High School Commencement.
The graduating exercises of the high school took place at the assembly hall in the public school building Monday evening, the hall being crowded to standing room.

The program was well arranged and was carried out in a pleasing manner. Several excellent essays were read, and two poor orations were delivered by members of the class, all receiving hearty congratulations for the able manner in which they performed the parts assigned them. Long handsome bouquets were bestowed upon the members of the different classes, as emblems of the reward for the labor performed.

Some excellent instrumental and vocal music was rendered as well as a few well chosen selections by the concert band. The exercises closed with a very humorous farce entitled "Jumbo Jun," which was well presented and won a hearty applause from the audience.

The high school class consisted of Misses Nellie McDonald and Myrtle Calavan, and Messrs. Claude Calavan, Byron Gill and LeRoy Knowles, who have completed their work in the public school, and are now ready to enter college to complete their education. They have all worked hard to win this result, and in this line perhaps none have worked harder than Prof. Goodies, who deserves much credit for the manner in which he has trained the class and made them perfect in all the lines taken up. We trust that a much larger number will be graduated next year, and that the Scio high school will attain a name and reputation for its superior high school work second to none in the state.
