THE MAN WITH THE RANK CIGAR.

Consider the man with the posthouse wool—
The man who our nostrils shocks
With a composition of microbe food
And Antediluvian socks;
Like a war-horse scenting the battle reek
That waits to him from afar,
We scent the march of the coming freak—
The man with the rank cigar.

He haunts the box where are cheeks abloom,
And his smoke wreathe fumigate
The silken tress and the ostrich plume
That grow on the dainty pate;
He enters the home of the great and proud,
Where the finest of fabrics are,
And 'round him hangs, like a sulph'rous cloud,
The smoke of his rank cigar.

No sacred place in this world he knows—
No throat that he may not choke,
When the sinister light on his stogie glows,
And he spreads all abroad his smoke;
Oh, winds of the east—north, south or west!
Do you know of a land afar,
Uncursed by these horrible fumous pest—
The man with the rank cigar?

Not many people know that Thomas Jefferson was a great inventor. His inventions were all articles of every day use. He devised a three legged folding camp stool that is the basis of all camp stools of that kind today. The stool he had made for his own use was his constant companion on occasions of outings. The revolving chair was his invention. He designed a light wagon. A copying press was devised by him and came into general use. He also invented an instrument for measuring the distance he walked. A plow and a hemp cultivator showed that his thoughts were often on agricultural matters. His plow received a gold medal in France in 1790. Jefferson never benefitted financially by his inventions, but believed they shold be for the use of every one without cost.—St. Louis Post Dispatch.

The mine workers in Pennsylvania, where the present trouble exists, worked on an average of 19 days last year and earned an average of $1.28 per day, a trifle over 79 cents per day for the entire year. They are asking for a ten per cent raise. If granted it would give them 86 cents per day, using last year's average as a basis. Out of this income of $248 the miner must pay $56 for rent, $5 for oil, $14 for powder and $6 for the company doctor. Do you think the demands of these people are unreasonable?

With very few exceptions, the outlook for an excellent crop year in the Northwest is flattering. The farmers generally will get ahead this year and be prepared for improvements. They will be ready to raise more and better live stock, see to the draining of their land when needed, and in every way place themselves in shape for producing more and that more of a better quality and grade in the years to come.

A western correspondent, who is a great admirer of the Angora goat and its mohair, is writing to the Cotton and Wool Reporter, says that Oregon produces the finest mohair in the United States, and gets prices from 5 to 10 cents higher than do other districts. The Boston market is usually about five cents higher than the Oregon. It costs about 3 cents to gather and ship the mohair east.

The American people are a good-natured lot. A few weeks ago they who live in Oregon were engaged in almost a quarrel over a few offices. Today, those same people have forgotten the differences of the campaign and it is no longer possible to tell a democrat from a republican as he walks the streets, with conspicuous buttons and badges upon his coat lapel.

King Edward, of England, who was to be crowned today, was taken suddenly ill Monday last, and an operation was performed upon him by the world's most famous surgeons, and the coronation ceremonies were postponed for at least three months. Great preparations had been made, and the weeks festivities had begun when the king was taken ill with apendicitis, and an operrtion was found necetsary to save his life.

Eight head of the finest sheep that money can buy will soon be making their home within the boundaries of Oregon. A representative of the Baldwin sheep company, of eastern Oregon, recently purchased the sheep in France, and they are now en route to the very far West. Gradually the value of Oregon stock is increasing.

W. A. Booth was elected county judge of Crook county, while J. O. Booth was chosen to a similar position in Josephine county. Both are democrats and are brothers of Senator R. A. Booth of Eugene, and J. H. Booth, Receiver Roseburg Land Office.

The man who could visit the rose show here in Portland and then return to live in the frozen states of the East would be a peculiar mixture of inconsistencies.

### Low Excursion Rates.

The Southern Pacific company announce the sale of reduced rates on account of the fourth of July. These figures will be based at one rnd one-third fare for the round trip, making 4 cents per mile round trip passage to and from stations in Oregon. Tickets will be on sale July 3rd and 4th, and will be good for return up to and including the 6th.

Celebrations will be held at the more important points. Local agents will furnish all details on application.

## SHEARED

The complete official count of the votes at the recent election shows that Chamberlain was elected governor by 256 votes. The total vote cast for him was 39,862 and for Furnish 39,606.

The newly elected county officers will assume the duties of their respective offices on the first Monday in July. The month comes in on Tuesday, so they will not be installed until July 7. The state officials will not take the oath of office until January.

The tabulation of the disasters of 1902, covering less than five months, shows a loss of 48,450 lives from volcanic eruptions and earthquakes, 1340 from storms, 333 from floods, 288 from avalanches, 103 from tidal waves, 39 from snow slides and 18 from waterspouts. The total of 50,511 is calculated to make mankind thoughtful on the subject of catastrophies.

W. Merchant has retired from the firm of Merchant & Co., of the Union Stock yards, Portland Ore, gon, and the new firm will hereafter be known as the Portland Union Stock Yards, W. H. H. Morgan being the president, Wm. H. Daughtrey vice-president and manager, and O. M. Plummer secretary and treasurer. These officers have splendid reputation as business men and, deserve a large patronage. The manager has been engeged in the live stock business in the Pacific Northwest for the past 20 years and is widely known.

Mr. John Selimett, of Hulden, Mo., thinks this little ad in his home paper will restore to him his lost goods: "Lost—One white caff mit him hint legs black. Him was a she caff. Anybody finding him will pay $5 reward. Live teree miles behind the bridge already yet."

### Saved From An Awful Fate.

Everybody said I had consumption writes Mrs A M Shields, of Chambersburg Pa., I was so low after six months of sickness, caused by hay fever and asthma, that few thought I could get well but I learned of the marvelous merit of Dr. King's New Discovery for consumption, used it, and was completely cured. For desperate throat and lung diseases its the safest cure in the world, and is infallible for colds, coughs and bronceial affections. Guaranteed bottles 50c and $1. Trial bottles free at Peery & Peery's.

### The Shasta Route.

In going over the famous "Shasta Route" of the Southern Pacific Co., the travelet ever finds something new to excite his admiration and interest. Starting at Portland one traverses the whole length of the Willamette Valley, the gem of the Northwest. Mt. Hood, Mt. Jefferson, and the Three Sisters and other snow-capped peaks are kept in sight for hours. The prunes, peaches, apples and other fruits are a delight in themselves. The crossing of the great mountain barrier between Oregon and California reveals the grandest mountain scenery in the United States. The wonderful array of towering mountains, and gorges into which we gaze from dizzy heights, forest clad mountain slopes streching up to the line of perpetual snow, and the foaming mountain streams dashing fiercely down deep canons, now and hen stopping for a short rest in ome quiet poll. After a days enjoyment of old Mt. Shasta, the finest peak on the continent, we drop raridly down the canon of the Sacramento to the broad plains of the Sacramento Valley in California, and thence through vineyards and orchards to San Francisco.

### Happy Time in Old Town.

"We felt very happy," writes R. N. Bevill, Old Town, Va., when Bucklen's Arnica Salve wholly cured our daughter of a bad case of scald head. It delights all who use it for cuts, corns, burns, bruises, boils, ulcers, eruptions. Infallible for piles. Only 25c at Peery & Peery's.

### WRITING THE PROTOCOL.

**Difficulties in Making the Chinese and French Languages in the Text Agree.**

The Peking correspondent of the Echo de Chine says that the Chinese authorities were much gratified on the Palace of Ancestors being handed over to them by the French military authorities, to find that nothing had been touched and that all the relics of the dynasty had been respected by the French. Among the objects returned to the Chinese were half a million of pearls and the cases with the collection sent to France by Gen. Frey and returned by order of the minister of marine. The correspondent also says that the terms of the final protocol were fixed on August 15. The paper employed was fine Japanese paper, thick and of square form, furnished by the bixhoprie.

The text was written in French and Chinese and long sittings were necessary dy Messrs. Morrisse, Campbell and the other interpreters of the legations to resolve the little difficulties resulting from the juxtaposition of the two texts. It is known, in fact, that the Chinese etiquette demanded that the name of the emperor and other great personages should be put at the head of the lines in a manner to be above the context, and this rendered almost impossible an agreement between the two transcriptions. The sensational story about the meetings of the diplomatic corps having been suspended because Britain refused its adhesion to the question of the raising of the customs tariffs, says the Shanghai Mercury, is absolutely without foundation.

### Nature is Kind in Norway.

Although coal is scarce, and forests cease to grow many miles southward, the people of the frigid zones of Norway have an inexhaustible supply of peat, which is more easily worked into shape for fuel than either coal or wood and makes a hotter fire than either, writes W. E. Curtis, in Chicago Record-Herald. Peat bogs are found everywhere in arctic Norway, on the desolate table lands, on the rocky sides of the mountains, in the bottoms of the valleys, in the inhabited districts inland, along the shores of the fjords and upon nearly all the islands. The peat bogs of northern Norway, so far as surveyed, cover an area of 4,340 square miles, or nearly four per cent. of the surface of the entire country.

### Virulent Cancer Cured.

Startling proof of a wonderful advance in medicine is given by druggist G W Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and Applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bisters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c. Salve 25c at Peery & Peery's.
