### Fire at the Flax Mill.

Tuesday morning about 3 o'clock, T. J. Munkers noticed a light in the direction of the flax mill and upon investigation discovered the engine house to be on fire. He promptly turned in an alarm and in a very short time a crowd was on the scene. By the time the crowd had arrived the building had collapsed around the engine and the fire was making good headway along the belt-house to the mill, in fact if it could have turned for five minutes more, unimpeded, Scio's principal industry would have been a mass of ruins, but those to first arrive tore down the belt house and succeeded in stopping the flames from further progress in the direction of the mill. The engine was somewhat damaged but can be repaired in a few days while it will take but a short time to rebuild the engine house. During the hot weather a watchman has been employed at the mill but for the last few days there has been no one there. The fire was caused by a misunderstanding on the part of the watchman as to the time he was to leave the mill, and on the morning of the fire he had just turned 10 o'clock, while the manager supposed he was staying until the engineer arrived in the morning. In the fore part of the night his reports having put out several little fires in and around the engine room, and at last thinking there was no danger had gone to bed. He was under the impression he was off duty at about 1 o'clock. As near as can be estimated at the present time the loss will be between \$150 and \$200.

### Many Willing to Marry.

The management of the Portland Carnival has had no less than a dozen applications from as many young men throughout the state including one or two from nearby towns in Washington, to be married under the auspices of the Carnival. Half of these applications have had to be turned down because the directors could not take care of all of them and provide entertainment and the usual supply of presents to start the young couples off in life happily. The notice given by the manager that swains without the price should be set up in house-keeping at the company's expense was sufficient to start a rash of applications that fairly took their breath away. There will be a triple wedding ceremony on Wednesday evening, September 10th at 8 o'clock, in the presence of the Queen and her court and many high dignitaries. The presents for each couple aggregate from \$10 to \$200. One of the fortunate young men who is to be married at the Carnival lives at Tillamook.

### The Dog Poisoner at Work.

Tuesday morning at the time of the fire at the flax mill, "Tody," a fox-terrier owned by M. M. Peery was seen around, and about daylight he was dead. His death was undoubtedly caused by poison. Later we learned a dog of John Gill's was also poisoned.

### Eaten By a Cougar.

An adventure by pleasure seekers in the mountains near Lebanon Springs, turned out to be of a very thrilling nature. They went for a watch at the deer park, and in planning the ambulance, tethered the pack-horse a short distance from where they would lay in wait for the deer. So far, so good. But next morning when they went for the horse his clean-picked bones were left in testimony of a sumptuous feast by the king beast of the mountains—Mr. Cougar. The boldness of this attack, which occurred not less than 100 yards from where these hunters were lying, is a warning that may be heeded to advantage. A hungry cougar is very dangerous company.—Harrisburg Bulletin.

### Will Colonize.

A Newport correspondent of the Portland Journal contributes the following items of interest: C. Frank Cooky of Minneapolis, with two other gentlemen from Minnesota, have purchased 600 acres of land along the Corvallis & Eastern railway, and will colonize this whole section. They are already about to settle fifty destitute, well educated, extensively educated and cheese making. The natural rich grasses that grow abundantly will insure the dairymen quick returns from small investment. There are other industries which will be coached by Manager Stone and Mr. Cook which will bring thousands of dollars to the state within the next few years. Wallis Nash, who owns a ranch of 300 acres here, has just sold it to Mr. Cook and is being considered by a number of Quakers for a colony.

### Big Military Demonstration.

Since the exciting days of the Spanish war there has not been a greater mobilization of troops, regular and volunteer, than will be seen at the Portland Carnival on September 10th. Permission has just been given by the War Department for the entire garrison at Vancouver to parade at Portland on that date. It will be the greatest military demonstration in years and is an event which all patriotic people desire to see. There will be in the two-mile line, 2000 men, 400 horses, 12 pieces of artillery and 6 military bands, including the Oregon National Guard.

### Attempted Train Wreck.

As the second section of the north-bound overland passenger train was nearing Shedd Wednesday of last week it was found that a pile of ties had been placed on the track, with the evident purpose of wrecking the train. Fortunately it was discovered by the engineer in time to prevent an accident. The first section had already passed by in safety, and it is believed traps made the attempt to wreck the train.—Herald.

### How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens. Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

### Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

### A Youthful Financier.

Two years ago Way no Greenwood, a nine-year-old boy, picked enough prunes and hops to buy four sheep and now his flock has increased to fourteen. Last year he sold \$4 worth of wool and his wool crop this year brought him \$10. His mother says he is always eager to earn a dollar or a dime, and that he expects to finally buy a farm with the proceeds of his sheep. Who will tell us of some other youngsters that are earning and saving money.—Folk County Itemizer.

### Sawing Wood.

The sing of the wood saw fills the air these days, and reminds one that the winter season is fast coming, and that it is high time that we should stack up a good supply of fuel for winter use. Powell & Abbott have purchased the interest of Henry Myer in the saw, and are doing a good bit of whittling at the numerous wood piles in the city.

Gaines was hauling lumber to Albany from Lerwood when he fell asleep and his team turned aside and went into the Davis picnic grounds near Cralsree, where the driver found awake and realized the situation.—Democrat.
