THE GREEN GOODS MAN.

Don't talk about the green goods man
That haunts the city's streets,
And pounces viciously upon
Each whiskered jay he meets;
Don't speak to me of "come-ons" and
The lookout at the door,
Of secret passageways and wires
That ramify the floor;
Let up, and persecute no more
The simple man who deals
In paper stuffed valises which
He sells to men with wheels;
For I have found the genuine,
The arch-dead I have seen,
He sells two big worms and a cob
Wrapped in a look of green!

A Kansas paper notes that, of the dozen car-loads of old iron received every week at the local junk yard, "probably nine-tenths consists of farming implements ruined by rust. Many of the implements look as if they could still be saved from the junk pile by a blacksmith; the farmers thought differently, and bought new ones." Such are signs of that caselessness which sometimes accompanies prosperity; but, the same thing precedes adversity—and then, how ugly it looks! If the mortgage also could be left in the field to gather rust and ultimately wear out, the condition of the plow and mower and binder would not so much matter. Since that is impervious to moisture, even to tears, it would seem more businesslike to take care of the machinery that may help to pay it.—The Youth's Companion.

A boy will go to a great deal of trouble, and suffer any amount of agony, in learning to smoke. There is no sickness more heart rending than that consequent upon a first effort at the use of tobacco. A girl having been made deathly sick by pulling at an old pipe, would throw it to the demagogue box-wows and never try it again, but a fool boy is made of sterner stuff and he will never give it up until he learns to smoke. Then he thinks he is a man. Someone should be on hand, when he is suffering from his first tobacco sickness, to lecture him upon the demoralizing effects of the habit he is so painfully acquiring. Perhaps the lectures combined with his pains would be such a punishment that he might refrain.

President Roosevelt has begun his trip through the Southern states. About five days will be spent in the South. While there are those who criticize the President for continuing his trip after his recent accident, reasonable people will agree that it is a wise president, who circulates among his people, familiarizes himself with the needs and conditions of the various parts of the country. President Roosevelt will not be expected to postpone his trip because of such a trifling incident as a smash-up with a street car.—Herald.

This is the time of year when the Chinese dig up the remains of their dead and ship the bones to China for final interment. The bodies are allowed to remain in the local cemetery no longer than three or four years. About this time every year a certain number of corpses are disinterred, the bones scraped and forwarded to the Orient, where they are given proper burial. A number of bodies were treated in this way last week and more will be dug up within the next few days.—Portland Telegram.

An electric car collided with a carriage Wednesday in Massachusetts, the vehicle being occupied by President Roosevelt, the state's governor, private detective Craig, Secretary Cortelison and a driver. The latter and the detective were killed, while the president received a severe cut on the head and several

bruises of a minor nature. The conductor and motorman of the car have been arrested.

Other girls should take warning. Miss Thompson, a prominent young woman of Huntington, Tennessee, was shot and killed recently because she refused to marry the shooter. A posse is after the murderer, and there is satisfaction in the thoughts that they do things "down South" the courts will not be bothered trying him if his pursuers get within rifle shot.—Silverton Appeal.

Twenty five masked men shot and killed 400 head of sheep in Grant County last week. The sheep were owned by Edwin Day and were valued at \$1200. The perpetrators of the crime are said to be miners, who had horses on the range, and were up in arms against the sheepmen. A little more law and order is needed on the ranges in Eastern Oregon.

Don't Forget

the place to sell your produce. Chickens are high, and so are eggs and butter—very high. I always pay the top of the market for produce. You know you will get the highest price when you bring stuff to me, and besides I have one of the biggest stocks of goods in the county to choose from, and the prices will compare with all of them.
