Prehistoric Relics Wanted.

Andover, Mass., Sept. 26th 1902.
Dear Sir—Phillips Academy, Andover, Mass., has recently established a department of Archeology. My object in writing you is to encourage the preservation of stone, bone and clay prehistoric artifacts. In your section of the country, I frequently find "Indian relics." These have a direct bearing on the ethnology, rather pre-history—of America, and as such should be preserved in fire proof buildings for the study and collection of present and future generations.
I am persuaded that there may be persons who have found some remains of the ancient Indian tribes, "Mound builders," etc., and that, possibly, they would be willing to send them to us. We shall be glad to pay express charges on any and all boxes of specimens sent to us, to mention the gifts in our report, and to give the donors due credit in our exhibition cases.
All these axes, pipes, spear heads, clay vessels and strange stones, should be carefully preserved somewhere, where they may be of service to the public and to science. Archeology—especially in this country—is the new science in the United States and is more important than the average reader imagines, for these stone relics have a direct bearing upon the antiquity of man.
I shall be glad to correspond with persons who have relics in their possession. Donating you, I am,
Yours very truly,
WARREN K. MOOREHEAD, Curator.

Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. It's attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquidizes the mucus, always inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, sore throat and lung troubles. F. S. McMahon, Hampton, Ga. A bad cold rendered me voiceless just before an important contest. I intended to withdraw but took One Minute Cough Cure. I restored my voice in time to win the match. E. C. Peery.

Death of Mrs. T. A. Richardson.

Mrs. T. A. Richardson died at her home two miles above Jordan, Monday, of consumption. She was a daughter of Mr. and Mrs. Wm. Whetton, and was about 34 years of age. She had been ill for the past two years, and her death was not unexpected. She leaves a heart broken husband and numerous relatives and friends to mourn her untimely demise.
The funeral was held Wednesday, and the remains were laid to rest in the Blyen Dam cemetery, the services being conducted by Rev. Cole, of Jordan.

Fine Monument Work.

M. N. Richardson has been quite busy during the past week, placing some fine monuments and head stones in the Franklin Butte cemetery. He has put up monuments ordered by Rev. S. A. D. Hamilton, M. C. Next week he will put up a large monument over the graves of Mr. and Mrs. P. S. Brenner, at the Miller cemetery. Any one wishing work of this kind would do well to call and see these fine monuments.

Every building looks to be a very successful school year.

His Life in Peril.

Just seemed to have gone all to pieces, writes Alfred Bee, of Wellburg, Tex., illness and a lame back had made life a burden. I couldn't get to sleep and felt almost all the time as if I were being crushed. I began using Electric Bitters, but they worked wonders. Now I can get anything, sleep like a top, have gained in strength and enjoy hard work. They gave vigorous health and new life to work, sickly, run-down people. Try them. Only 50c at E. C. Peery's drug store.

Wanted for Embezzlement.

They have seen him and saw the missing man is wanted for the embezzlement of about \$10,000 of county funds, and that they have a warrant for his arrest.

Look Out For Fever.

Biliousness and liver troubles, at this season may be prevented by cleansing the system with Dr. Williams' Little Early Bitters. These famous little pills do not grip. They move the bowels gently but expensively and by reason of the tonic properties give tone and strength to the glands.

8 Cents

Eight cents a pound is what a young woman paid for twelve pounds of flesh.
She was thin and weak and paid one dollar for a bottle of Scott's Emulsion, and by taking regular doses had gained twelve pounds in weight before the bottle was finished.
Eight cents a pound is cheap for such valuable material. Some pay more, some less, some get nothing for their money. You get your money's worth when you buy Scott's Emulsion.
We will send you a little free.

Wants a Large Sum for Exposition.

The Lewis and Clark Exposition directors have decided that the state should contribute \$500,000 to the funds for the fair to be held in Portland. It will take considerable persuasive eloquence to make the valley and our county members believe that the state will be benefited that amount by reason of the fair.

Four of the most eminent men in Europe are at the present time suffering from partial blindness. In all cases the nature of the ailment is the same, namely, cataract, and all the illustrious patients are hopefully seeking relief in the resources of medical science. Mr. Gladstone has had several operations performed upon one of his eyes, the result of which, it is believed, will be almost fully to restore his vision, while the other eye is still sound enough to enable him to read and write. Sir William Harcourt's eyes are both much obscured, and his vision has either been altogether darkened. He will presently place himself in a surgeon's hands. Jules Simon was a like plight, but hopes to have the opaque veil entirely removed. And Sig. Cripp, in whose case the ailment has not proceeded quite so far as in the others, has already sought the services of a skilled oculist.
