

PE-RU-NA NECESSARY TO THE HOME

A Letter From Congressman White, of North Carolina.

PE-RU-NA IS A HOUSEHOLD SAFEGUARD

No Family Should Be Without It.

Peruna is a great family medicine. The women prize it as well as the men; it is just the thing for the many little catarrhal ailments of childhood. The following testimonials from thankful men and women tell in direct, sincere language what their success has been in the use of Peruna in their families:

Louis J. Scherrinsky, 103 Locust street, Atlantic, Iowa, writes: "I will tell you briefly what Peruna has done for me. I took a severe cold which gave me a hard cough. All doctors' medicines failed to cure it. I took one bottle of Peruna and was well."

"Then my two children had bad coughs accompanied by gagging. My wife had stomach trouble for years. She took Peruna and now she is well. "I cannot express my thanks in words, but I recommend your remedy at every opportunity, for I can conscientiously say that there is no medicine like Peruna. Nearly everyone in this town knows about the sickness of myself and family, and they have been cured by the use of Peruna. I have written and they all join me in recommending it as an excellent remedy."

Very Respectfully,
George H. White.

Peruna is an internal, scientific, systemic remedy for catarrh. It is not a palliative or temporary remedy; it is thorough in its work, and in cleansing the diseased mucous membranes cures the catarrh. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

HON. GEORGE H. WHITE.

catarrh of the stomach, liver and kidneys. It is just as sure to cure a case of catarrh of the bowels as it is a case of catarrh of the head.

Congressman George Henry White, of Tarboro, N. C., writes the following letter to Dr. Hartman in regard to the merits of the great catarrh cure, Peruna:

Washington, Feb. 4, 1899.
The Peruna Medicine Co., Columbus, O., Gentlemen—I am sure that you are satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have a case of it in my family and they all join me in recommending it as an excellent remedy."

Very Respectfully,
George H. White.

Friendly Tip.

"Homer—I don't know what on earth I am going to do with that boy of mine. He's the biggest liar in seven states."

Next-door—Oh, don't let that worry you; when he is a little older you can get him a job in the government weather bureau.—Chicago News.

FITS

It's a great comfort to me, doctor," said the bereaved wife, "to know that you are made sad by my husband's death."

"Yes," said the physician reminiscently, "he was good pay."—Ohio State Journal.

Hemlin's Blood and Liver Pills cure constipation and all ills due to it; 25c at your druggist.

Dead Man's Check Refused.

A few days ago a man presented a check to William H. Rogers, cashier of the Nassau bank, demanding payment.

"But I can't pay that," said the cashier, "that man's dead."

"But," protested the holder of the check, "he was alive when he signed it."

And, in face of all Mr. Rogers' explanations, the man left the bank convinced that he had a grievance.—New York Times.

Mothers Will Find Mrs. Winslow's Soothing Syrup the Best Remedy to Use for Their Children During the Teething Period.

How Wonderful.
Fudge—This is a most remarkable case. A paper relates that a connoisseur of art, passing an old junk shop, saw a dusty painting lying among the rags in the window, and, taking a fancy to it, purchased it.

Judge—What's remarkable about it?
"The painting turned out to be neither a Rubens nor a Rembrandt."—Baltimore Herald.

Shake Into Your Shoes

Allen's Foot-Powder. It makes tight or loose shoes fit. It is a certain cure for itching, chafing and hot, tired, aching feet, and it keeps them cool and comfortable.

Pharaoh's Fate.

The Pharaoh of the Book of Genesis was long supposed to have been buried in the Red Sea, but examinations of his mummy showed that he had been killed by having his skull split open.

SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

This treacherous disease dwarfs the body and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood. This dangerous and stealthy disease entrenches itself securely in the system and attacks the bones and tissues, destroys the red corpuscles of the blood, resulting in white swelling, a pallid, waxy appearance of the skin, loss of strength and a gradual wasting away of the body.

S. S. S. combines both purifying and tonic properties, and is guaranteed entirely vegetable, making it the ideal remedy in all scrofulous affections. It purifies the deteriorated blood, makes it rich and strong and a complete and permanent cure is soon effected. S. S. S. improves the digestion and assimilation of food, restores the lost properties to the blood and quickens the circulation, bringing a healthy color to the skin and vigor to the weak and emaciated body.

Write us about your case and our physicians will cheerfully advise and help you in every possible way to regain your health. Book on blood and skin diseases free.

LIEUTENANT ROBERT E. PEARY AND FAMILY AND THE SHIP "WINDWARD."

MR. PEARY AND HIS BROTHER

LIEUT. ROBERT E. PEARY'S latest dash to the pole ended at 84 degrees 17 minutes north latitude and 120 degrees west longitude. At this point he was compelled to turn back, not because of physical exhaustion or lack of supplies, but because the ice was impassable for men on foot, in sledges, or in boats.

While Lieut. Peary did not equal the Duke of Albray's record of 86.33, and Nansen's mark of 86.14, he set a new American record. Heretofore the highest American record was that of Lockwood's, the Gremlin expedition, who reached 82.23 degrees north latitude, in 1882.

At 87.47 north latitude Peary found the ice cap broken by immense ridges difficult to surmount. Great saucers opened in the ice in every direction. Dense fogs made traveling almost impossible. The north pole has not yet been reached. It was not to be a quick rush through the ice-bound region. Rather was it to be a siege. Peary was convinced that the only way in which he might accomplish his great aim would be to go forward prepared to remain for several years if necessary, fortifying each step in advance of the main body of the expedition. He might safely fall back a fraction of the way if compelled to do so and still be ready at the instant conditions changed to push on once more. Relief expeditions were arranged to go up after him each year, ready to take him back to civilization if he had gained what he sought, or to return without him if he still had his task before him.

Privations of the sort that drive the bravest men from their appointed missions confronted the daring explorer in the four years that he spent in the frozen fastnesses of the North, cut off from all civilization, and without supporters in doubt most of the time whether he still lived.

Lieut. Peary made his first exploration of the North in 1896, when, having been granted leave of absence by the Navy Department, he penetrated far into Greenland and reached an elevation on the Greenland ice never before attained by a white man. He also reached the first of his race to accomplish as much—the interior plateau of unchanging arctic snow.

In 1891 he made his second venture, accompanied by Mrs. Peary and a small party. His hope was to discover the northern limits of Greenland and seek to push on to the pole if possible. Before he was well on the way his leg was broken in an accident to his ship in the ice. It was the following spring before he could renew his journey, and then he set out with only his companion and his dog and sledges. July 4 he reached his goal, the northern end of Greenland, and there he ran up the American flag. A bay stretched before him, and this water he named Independence Bay in honor of the day. Across the bay was land, visible, but not attainable. He returned home.

His next expedition was begun in 1893, after he had overcome the most trying obstacles in the matter of gathering sufficient funds to make the journey a possibility. He was accompanied by his wife and a small party. His hope was to discover the northern limits of Greenland and seek to push on to the pole if possible. Before he was well on the way his leg was broken in an accident to his ship in the ice. It was the following spring before he could renew his journey, and then he set out with only his companion and his dog and sledges. Before he was well on the way his leg was broken in an accident to his ship in the ice. It was the following spring before he could renew his journey, and then he set out with only his companion and his dog and sledges. July 4 he reached his goal, the northern end of Greenland, and there he ran up the American flag. A bay stretched before him, and this water he named Independence Bay in honor of the day. Across the bay was land, visible, but not attainable. He returned home.

His next expedition was begun in 1893, after he had overcome the most trying obstacles in the matter of gathering sufficient funds to make the journey a possibility. He was accompanied by his wife and a small party. His hope was to discover the northern limits of Greenland and seek to push on to the pole if possible.
