SISTERS OF CHARITY

Use Pe-ru-na for Coughs, Colds, Grip and Catarrh—A Congressman's Letter.

In every country of the civilized world Sisters of Charity are known. Not only do they minister to the spiritual and intellectual needs of the charges committed to their care, but they also minister to their bodily needs.

With so many children to take care of and to protect from climate and disease, these wise and prudent Sisters have found Peruna a never failing safeguard.

Dr Hartman receives many letters from Catholic Sisters from all over the United States. A recommend recently received from a Catholic institution in Detroit, Mich., reads as follows:

Dr. S. B. Hartman, Columbus, Ohio:

Dear Sir:—The young girl who used the Peruna was suffering from laryngitis, and loss of voice. The result of the treatment was most satisfactory. She found great relief, and after further use of the medicine we hope to be able to say she is entirely cured."—Sisters of Charity.

The young girl was under the care of the Sister of Charity and used Peruna for catarrh of the throat with good results, as the above letter testifies.

Send to The Peruna Medicine Co., Columbus, Ohio, for a free book written by Dr. Hartman.

The following letter is from Congressman Meekison, of Napoleon, Ohio:

The Peruna Medicine Co., Columbus, Ohio:

Gentlemen: "I have used several bottles of Peruna and feel greatly benefitted thereby from my catarrh of the head, and feel encouraged to believe that its continued use will fully eradicate a disease of thirty years' standing."—David Meekison.

David Meekison.

Dr. Hartman, one of the best known physicians and surgeons in the United States, was the first man to formulate Peruna. It was through his genius and perseverance that it was introduced to the medical profession of this country.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, O.

What It Costs.

"Do you find you automobile very expensive? "

"Oh, on an avearge 50 chickens, 10 dogs a few ducks and three children run over every year."

For forty year's Piso's Cure for Consumption has cured coughs and colds. At druggists. Price 25 cents.

In a Minute.

Nodd—Well, I wish I knew how to pass away a few hours' time.

Todd—Why, I thought you were with your wife just now.

Todd—I was. I left her in a restaurant looking over a bill of fare."

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

A Marital Confession.

Officer's Wife (fondly)—Do you remember, John, how you used of an evening to hold my hand — 'my sweet little roseleaf' you used to call it, you funny boy—for hours and hours? How silly, silly my old boy used to be!"

Old Boy (grumpily)—Nonsense, Jane, don't be stupid! I was always practical and business-like. I did that just to keep you from the piano!

The Morning After.

"If truth is found at the bottom of a well," he remarked, thoughtfully, "remorse may be said to be located at the bottom of a glass."

For Christmas.

Do you want something particularly nice for your Christmas dinner? If you do, ask your dealer to send you a can of Monopole Asparagus—the finest and daintiest dish ever set before an American king. The label itself is magnificently embossed in blue and gold, in fact, is a work of real art. But the contents of the can are fully in keeping with the label. You'll thank us for calling your attention to it if you once begin to purchase Monopole groceries.

Most dealers handle Monopole goods and if yours doesn't he knows where to get them. We will thank you if you insist upon his doing so.

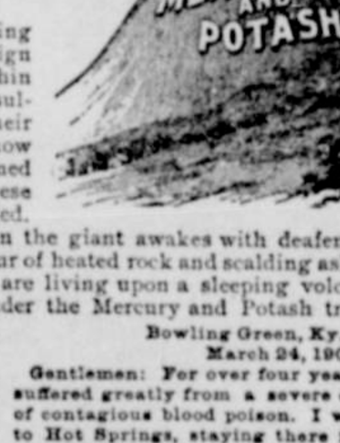
Wadhams & Kerr Bros., packers, Portland, Ore.

The Savage Breast.

"Her music is said to be quite stirring."

"It is; the neighbors are always stirred up over it."

Sleeping Volcanoes



A thin, vapory smoke, lazily ascending from its crater may be the only visible sign of life in the sleeping volcano, but within is a raging sea of fire, molten rock and sulphurous gases. Those who make their homes in the peaceful valleys below know the danger and, though frequently warned by the rumblings and quakings, these signs of impending eruption go unheeded. They are living in fancied security when the giant awakes with deafening roars and they are lost beneath a downpour of heated rock and scalding ashes.

Thousands of blood poison sufferers are living upon a sleeping volcano and are taking desperate chances, for under the Mercury and Potash treatment the external symptoms of the disease disappear, and the deluded victim is happy in the belief of a complete cure, but the fires of contagion have only been smothered in the system, and as soon as these minerals are left off will blaze up again. Occasional sores break out in the mouth, a red rash appears on the body, and these warning symptoms, if not heeded, are soon followed by fearful eruptions, sores, copper colored splotches, swollen glands, loss of hair and other sickening symptoms.

Mercury and Potash not only fail to cure blood poison, but cause Mercurial Rheumatism, necrosis of the bones, offensive ulcers and inflammation of the Stomach and Bowels.

Bowling Green, Ky., March 24, 1902.

Gentlemen: For over four years I suffered greatly from a severe case of contagious blood poison. I went to Hot Springs, staying there four months at a big expense. I then consulted physicians, who prescribed Mercury. Nothing did me any good, in fact, the treatment proved more harmful than beneficial. I mentioned my case to a friend, who told me that S. S. S. had certainly cured him. I at once commenced its use, and in six months could find no trace of the disease whatever. This was about two years ago. I continued S. S. S. for some time to make sure of a permanent cure, and I can truthfully say I am entirely well.

D. M. SANDERS.

The use of S. S. S. is never followed by any bad results. It cures without the slightest injury to the system. We offer $1,000.00 for proof that it contains a mineral of any description. S. S. S. is an antidote for contagious blood poison, and the only radical and permanent cure known. It destroys every atom of the virus and purifies and strengthens the blood and builds up the general health.

SSS

We will mail free our special book on Contagious Blood Poison, which gives all the symptoms of the disease with full directions for home treatment. Medical advice is furnished by our physicians without charge.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

IN WINTER'S GRIP

ATLANTIC COAST SWEPT BY STORM OF WIND AND SNOW.

Telegraph Wires Down and Communication Difficult—Storm is General From New England to Virginia and Throughout the South — All Europe Suffering From Snow and Cold.

New York, Dec. 8.—A furious storm of wind and snow has swept the Atlantic coast for two days, and seems to have been general, not only in the new, but also in the old world. From New England on the North to Virginia on the south, the gale strewed the coast with wrecks, and, aided by the snow, tore down telegraph wires so that communication was seriously interrupted. Railroads were also blockaded by the snow, which ranges from four to 12 inches in depth. As the storm advanced, the cold grew more severe, and the whole seaboard is in the grasp of winter.

The cold wave has extended to the far south, frost being experienced as far as Mississippi. It was accompanied by storms of rain and snow, which quickly melted and swelled the rivers to such a point that they in some cases overflowed their banks and drove away the inahitants, and in one case washed out a railroad bridge. The snowfall and cold weather has been general throughout Europe, England being covered with four inches of snow, the canals in Holland and the harbor of Copenhagen being blocked with ice, and many villages in Switzerland being isolated by the deep snow.

None of Crew Escaped.

Norfolk, Va., Dec. 8.—Reports received in Norfolk tonight are to the effect that none of the crew of the ill-fated schooner Wesley M. Oler escaped. Only one chance of a rescue is known. The German steamer Koln, from Bremen to Baltimore, reported the crew of an abandoned schooner aboard while entering the Capes today.

The three-masted schooners William D. Hilton and Melville Phillips and several smaller craft were blown ashore in the harbor during the gale. The steamer Underwriter, which was towing the Oler from Nassau, has not yet been heard from, and fears are entertained that she foundered in the gale. The crew of the schooner Ida Lawrence abandoned that vessel in a rodderless condition off Hatteras early this morning and were rescued with difficulty by the lifesavers.

WORKING FOR ST. LOUIS FAIR.

Barrett Is Now Securing Exhibits From Oriental Countries.

Washington, Dec. 8.—When the president comes to take up the question of the succession to the vacancy caused by the death of Minister Buck, at Tokio, it is understood that he will name John Barrett, of Oregon, at present commissioner general of the St. Louis exposition to Asia and Australasia, to be minister. Mr. Barrett is now somewhere in the neighborhood of the Straits Settlements. He has been working to secure a good Asiatic representation at the St. Louis exposition, and his efforts have been attended with success, for he has induced both China and Japan to embark upon large government exhibits when they had decided not to be represented in that way. He is now bound for Australia, where it is his hope to change the minds of the premiers in Australia and New Zealand.

CANNOT ACT TILL JUNE.

Election of New Colombian Congress Will Delay Canal Treaty.

Washington, Dec. 8. — If United States Minister Hart, at Bogota, is correctly informed, no treaty providing for the construction of the Panama canal can be ratified by the Colombian congress before June 1 next. He has reported that the congressional elections have been called for the middle of next March, and Colombians here say that a period of at least 60 days is required to assemble a newly elected congress, and then some time must elapse before it is in working order.

Secretary Hay, therefore, has decided to allow the treaty to be ratified in Washington first, presuming that he succeeds in negotiating one, unless the senate interposes an objection, which is not anticipated. It is expected that early this week Dr. Herran, the Colombian charge here, will be given all the powers necessary for him to sign a treaty.

Valuable Letter of Washington.

Boston, Dec. 8.—A letter of George Washington, written October 29, 1785, to his friend, Patrick Henry, governor of Virginia, was sold at auction at a collector's sale to lay for $580, the purchaser being a New York man acting as agent. The letter is given in full in Sparks' life of Washington, and is of some length. Its subject matter relates to a grant of money by the Virginia legislature to Washington in reward for his services in the Revolution, and his refusal of the same.

Wash Off the Bacteria.

Washington, Dec. 8.—Twelve million bacteria inhabit the skins of half a pound of cherries, according to Dr. Ehrlich, a German scientist, who has made extensive experiments in regard to the infection of fruit with bacteria. Currants come next, with 11,000,000 to half a pound, and grapes next, with 8,000,000. An account of these experiments has been trasmitted to the state department by United States Consul Clark Marpy, at Berlin. The doctor urges that fruit be cleaned by either peeling or washing before it is eaten.

The Colorado Robber-Hunt.

Denver, Dec. 8.—A special to the News from La Junta, Colo., says a telephone message from the "J. J." ranch has been received to the effect that a posse last night overtook the three men who robbed the Carlton postoffice and later shot Sheriff Tate, and in a battle which ensued two of the robbers' horses were killed. The fugitives, however, held up a party of hunters, securing fresh horses, and escaped. The posse is still in pursuit.

KILLED IN FIRETRAP.

Fire in a Chicago Hotel Causes Death of Fourteen People.

Chicago, Dec. 6.—Fourteen men met death by suffocation this morning in a fire which occurred at 6 o'clock in the Lincoln hotel, 176 Madison Street. Thirteen of those who lost their lives were stifled while lying in their beds. One victim was taken from the building before life was extinct, but died in the ambulance on the way to the hospital.

Coroner Treager, after inspecting the building, united with Fire Chief Musham in declaring that the building was a veritable trap, and never should have been used for hotel purposes. Chief Musham declared that there were such wide cracks in the floors that the smoke poured through the building in clouds, rendering escape extremely difficult for those on the upper floors.

There was no fire escape on the front of the building, although one was in process of construction. The scaffolding was up, and from it dangled several ropes, down which a number of people slid to the pavement after all escape by the stairway had been cut off.

The hotel was four stories in height, and contained an unusual number of rooms for a hotel of its size. Afterwards Chief Musham declared that they were the smallest rooms he had ever seen in any building. Had there been fewer partitions, he declared, the chances of life for those sleeping on the upper floors of the hotel would have been greatly increased.

F. A. Smih, proprietor of the hotel, declared that there were, as nearly as he could judge without his books, about 125 people in the hotel. It was, in fact, filled to its utmost, and many applicants for rooms were turned away last night with the information that they could not be accommodated. Night Clerk Weber discovered the smoke pouring through the halls shortly before 6 o'clock, and did his best to alarm the guests, but the smoke was so dense and increased so rapidly that he was able to arouse only a small number, and he was then compelled to grope his way to the street to avoid suffocation.

The guests came down the one stairway of the building in all stages of undress, and several leaped from the windows of the second story and escaped without serious injury.

The firemen, who arrived with great promptness, saved many lives by carrying people down ladders from the windows. The smoke on the inside of the building was so thick that the firemen were unable to do more than to take the people out of the windows. Those who were not able to reach the windows in a few minutes after the fire broke out were suffocated. The fire itself amounted to very little. A portion of the third and second floors was burned, and the blaze was extinguished within 40 minutes after the first alarm. As soon as the smoke permitted the firemen to live inside the building, a careful search was made of all the rooms, with the result that 13 men were found to have been stifled before they had been able to leave their beds. All of the dead had rooms on the third and fourth floors.

WOES OF THE MINERS.

Strike Commission Listening to Evidence of Men Themselves.

Scranton, Pa., Dec. 5.—At yesterday's session of the Anthracite strike commission the representatives of the mineworkers continued to call witnesses, mostly practical mineworkers, who told their story of conditions as they exist in the Hazleton, or middle, coal fields. The miners tried to show by these witnesses that the Coxe and other companies had violated the agreement entered into by both sides when the commission was appointed, that the strikers should return to work and be given their old places back where they had not already been filled. Some of the witnesses called testified that they were not given back their old places, and maintained that the men prominent in the union in the various localities during the strike were discriminated against. The commission has decided to invite the mine inspectors to appear before them, because the miners assert that the workmen fear to inform the mine inspectors of dangerous or unhealthy places in the mines, because the inspectors are usually accompanied in the mines by some representative of the company, who may cause the man's discharge. This is a new point before the commission.

Proceedings of the Senate.

Washington, Dec. 5.—The senate was in session today one hour and five minutes most of which time was spent behind closed doors. After the reception of a numer of bills and petitions, Mr. Beveridge had read the resolution adopted by the delegates to the Oklahoma non-partisan convention favoring the admission of Oklahoma and Indian Territory as one state, and opposing the house omnibus statehood bill. The senate then went into executive session, and at 1:50 adjourned until Monday.

No More Outside Aid.

Shamokin, Pa., Dec. 6.—The Ninth District executive board of the United Mineworkers met here today, when it was officially announced that the district would not receive any more aid from the bituminous men for the miners yet idle owing to the recent strike. Secretary Hartley reported that there were between 8,000 and 9,000 men and boys out of work in Schuylkill. Northumberland, Columbia and Dauphin counties, comprising the district. Each local is at present looking after idle miners.

To Investigate Pensions.

Washington, Dec. 6.—A joint resolution providing for a commission to investigate the pension laws has been introduced in the senate by Scott, of West Virginia. The resolution provides that the commission shall consist of two senators and two members of the house. It is given authority to make inquiry into the advisability of a provision for pensions for all persons who served in the civil war for 90 days or more.

To Lay Pacific Cable.

San Francisco, Dec. 6.—The British steamer Silvertown, which is to lay the cable between this city and Honolulu, arrived here today from London, after a voyage of 80 days.

"Dr. August Koenig's Hamburg Breast Tea," writes Mr. F. Batsch, of Horicon, Wis., "enabled me to get rid of an obstinate cough; we feel very grateful to the discoverer of this medicine."

Blameless.

Amateur—When I stand on the stage I see nothing, and I am conscious of nothing but the role I am playing. The audience disappears entirely.

Friend—Well, I can't blame the audience much for disappearing.

The Kind of Seeds That Yield.

Like everything else, there are good seeds and bad seeds. Seeds that grow and seeds that don't grow; seeds that yield and seeds that don't yield, and a little thought given now to the selection of the seed you'll need, will be found time well spent, though realized much better at the harvest if you select the world-famed Ferry's Seeds—the kind that always yield. For nearly half a century Ferry's Seeds have been known and sown wherever good crops are grown, until farmer and gardener alike have learned to depend upon their wonderful reliable growing and yielding qualities, year after year, to the exclusion of all others.

Unfortunately the seed business seems to afford a means for many unscrupulous people, who aim to blind the unwary to quality, through littleness of price and boastful claims; who in reality have nothing to substantiate their claims, no reputation at stake, no past record as proof. It is better to pay a little more for the seed and be assured of a great deal more at the harvest by sowing Ferry's Seeds. The 1903 Seed Annual, which is sent free, postpaid, will be found unusually interesting and instuctive. Write for it today. Address D. M. Ferry & Co., Detroit, Mich.

Conservation of Energy.

"What was your idea in having Bertha learn typewriting?"

"Well, she was always drumming with her fingers, and I thought she might as well do it to some purpose."

THE "PERFECT" LAMP.

Stewart & Grant, Portland, Or., Placing a Wonderful Lamp on the Market.

KEEP YOUR BLOOD CLEAN

I Coughed

"I had a most stubborn cough for many years. It deprived me of sleep and I grew very thin. I then tried Ayer's Cherry Pectoral, and was quickly cured."

R. N. Mann, Fall Mills, Tenn.

Sixty years of cures and such testimony as the above have taught us what Ayer's Cherry Pectoral will do.

We know it's the greatest cough remedy ever made. And you will say so, too, after you try it. There's cure in every drop.

Three sizes: 25c., 50c., $1. All druggists.

Consult your doctor. If he says take it, then do as he says. If he tells you not to take it, then don't take it. He knows. Leave it with him. We are willing.

J. C. AYER CO., Lowell, Mass.

25 CTS. PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION 25 CTS.

Astronomy Before Christ.

About 500 B. C. Anaxagoras of Ionia was born. When he "grew up in wisdom," he was the first to teach the course and cause of both solar and lunar eclipses and to give his followers rules whereby they could distinguish planets from fixed stars. He was punished for declaring that the sun was not a God.

20 MILLION BOTTLES

SOLD EVERY YEAR.

Happiness is the absence of pain, and millions have been made happy through being cured by St Jacobs Oil of RHEUMATISM, NEURALGIA, TOOTHACHE, HEADACHE, LAMENESS, SCALDS, BURNS, SPRAINS, BRUISES and all pains for which an external remedy can be applied. It never fails to cure. Thousands who have been declared incurable at baths and in hospitals have thrown away their crutches, being cured after using St. Jacobs Oil. Directions in eleven languages accompany every bottle.

CONQUERS PAIN

Striking Similarity.

Bachley—Why is a woman like time?

Benedict—Because she never fails to get her man in the end.

Bachley—No; because she reveals all things.—Exchange.

They Work While You Sleep.

While your mind and body rest, Cascarets Candy Cathartic repair your digestion, your liver, your bowels, put them in perfect order. All druggists, 10c, 25c, 50c.

Different Lines.

She—Women haven't a bit more curiosity than men, I'm certain.

He—No; but it's manifested in different lines. For instance, a woman might own a sewing machine without finding out how it is made, but she wouldn't have a seamstress in the house a day without knowing all about her.

FITS Permanently cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for FREE $2.00 trial bottle and treatise. Dr. R. H. Kline, Ltd., 931 Arch St., Philadelphia, Pa.

Youth's Unrestraint.

"Don't you sometimes long for your childhood's happy days?" said the sentimental person.

"Yes," answered Miss Cayenne, there are times when I would enjoy hanging on the fence and making faces at people I don't like instead of having to say: 'How do you do, dear? So glad to see you.'"
