Filial Sympathy.

"When I was your age," said Mr. Goldbags sternly, "I earned my own living."

His son looked uneasy, but was silent.

"Well, have you nothing to say for yourself in that connection?"

"N-nothing, sir, except that I sympathize with you, and congratulate you on the fact that it's all over."—London Tit-Bits.

Not Up-to-Date.

"His novel was a failure, I understand."

"Of course it was."

"Why of course?"

"Oh, he was so terribly behind the times."

"In what way."

"Why, he called his heroine Elizabeth, and everybody knows that that is entirely out of date. We are now in the Dorothy cycle of literature, and I have an idea that Josephine is coming next."—Brooklyn Eagle.

The Boy Felt Safe.

A Brooklyn school teacher, whose scene of labor is not on the aristocratic Park Slope, recently told one of his boy pupils, who was insubordinate, that he must behave.

"If you do not do better," said the teacher, "I shall see your father."

"Huh!" said the boy, who was only three feet high, "yer will have to take a pick and shovel to see him. He's dead."—New York Times.

To Form a Habit.

"Poverty is uncomfortable, as I can testify," said James A. Garfield, "but nine times out of ten the best thing that can happen to a young man is to be tossed overboard and be compelled to sink or swim. In all my acquaintance I have never known a man to be drowned who was worth the saving."

Too Strong a Negative.

"It's pretty hard to select a wife nowadays," remarked Mr. Con Seet; "the average girl of today doesn't know enough."

"I've found," replied Mr. Mittens, "that they 'No!' entirely too much."—Philadelphia Record.

A SURPRISED PHYSICIAN.

A Dying Patient Recovers Through the Interposition of a Humble German.

Chicago, Nov. 15.

Some weeks ago Dr. G——, a very reputable and widely known physician living on C—— street, was called to attend a very complicated case of Rheumatism. Upon arriving at the house he found a man about forty years of age, lying in a prostrated and serious condition, with his whole frame dangerously affected with the painful disease. He prescribed for the patient, but the man continued to grow worse, and on Sunday evening he was found to be in a very alarming condition. The knees and elbows and larger joints were greatly inflamed, and could not be moved. It was only with extreme difficulty that the patient could be turned in bed, with the aid of three or four persons. The weight of the clothing was so painful that means had to be adopted to keep it from the patient's body.

The doctor saw that his assistance would be of no avail, and left the house, the members of the family following him to the door, weeping. Almost immediately the grief stricken ones were addressed by a humble German. He had heard of the despair of the family and now asked them to try his remedy, and accordingly brought forth a bottle of St. Jacobs Oil. The poor wife applied this remedy. The first application eased the patient very much; after a few hours they used it again, and, wonder of wonders, the pain vanished entirely! Every subsequent application improved the patient, and in two days he was well and out. When the doctor called a few days after he was indeed surprised.

Chronic Sores

Eating Ulcers, A Constant Drain Upon the System

And a source of worry, anxiety and endless trouble to those who are afflicted with them, particularly so when located upon the lower extremities where the circulation is weak and sluggish. A gangrenous eating ulcer upon the leg is a frightful sight, and as the poison burrows deeper and deeper into the tissue beneath and the sore continues to spread, one can almost see the flesh melting away and feel the strength going out with the sickening discharges. Great running sores and deep offensive ulcers often develop from a simple boil, swollen gland, bruise or pimple and are a threatening danger always, because while all such sores are not cancerous, a great many are, and this should make you suspicious of all chronic slow-healing ulcers and sores, particularly if cancer runs in your family. Face sores are common and cause the greatest annoyance because they are so persistent and unsightly and detract from one's appearance.

Middle aged and old people and those whose blood is contaminated and tainted with the germs and poison of malaria or some previous sickness, or excessive use of mercury, are the chief sufferers from chronic sores and ulcers. While the blood remains in this unhealthy, polluted condition healing is simply impossible and the sore will continue to grow and spread in spite of washes and salves or any superficial or surface treatment, for the sore is but the outward sign of some constitutional disorder, a bad condition of the blood and system, which local remedies cannot cure.

Valdosta, Ga., September, 1900.
Swift Specific Co., Atlanta, Ga.
Dear Sirs:—Something like a rising came on my instep, very small at first, not at all painful, but as it grew larger and began to pain me I consulted a doctor, but in spite of all he could do the sore got worse and began to discharge; then other sores came until the whole top of my foot was one large mass of sores and I could not walk. Then my husband, who had been cured of Scrofula by the use of S. S. S., said he believed it would cure me. I began taking it and eight bottles cured me; my foot healed up nicely. I believe I would have been a cripple for life but for S. S. S.
MRS. C. H. KING.

S. S. S. reaches these old chronic sores through the blood. It goes to the very root of the trouble and counteracts and removes from the blood all the impurities and poisons, and gradually builds up the entire system and strengthens the sluggish circulation, and when the blood has been purified and the system purged of all morbid, unhealthy matter the healing process begins, and the eating ulcer or chronic sore is soon entirely gone.

SSS

S. S. S. contains no mineral or poisonous drugs of any description, but is guaranteed a purely vegetable remedy, a blood purifier and tonic combined and a safe and permanent cure for chronic sores and ulcers. If you have a slow-healing sore of any kind, large or small, write us about it, and our physicians will advise you without charge. Book on Blood and Skin Diseases free.

TALES OF WRONGS

MINERS GIVE COMMISSION EVIDENCE AGAINST MARKLE CO.

Mother and Two Boys Struggle Thirteen Years to Pay Debt of $396—Testimony at Times Was Pathetic, and Surprising to the Commission—Mine Owners Have Little to Say.

Scranton, Pa., Dec. 11.—Tales of eviction from houses owned by C. B. Markle & Co., the narration of the death of a wife as a result of an enforce removal from her home, and the story of a mother whose husband was killed in the Markle mines, and of how she and her two boys struggled for years to pay the Markles the back rent and coal bill she owed them, were the principal features of yesterday's sessions of the coal strike commission. The testimony, as presented by some of the witnesses whose lives are given up to the coal mining industry, was at times pathetic, and surprising to the commissioners, who listened to it with undivided attention.

The miners this afternoon concluded the calling of witnesses against the Markle company, which concern and the conditions surrounding it have been prominently before the commissioners since last Saturday. In the absence of Samuel Dickinson, of Philadelphia, and George R. Bedford, of Wilkesbarre, attorneys for the Markle company, who are reported to be unavoidably absent, only a perfunctory cross-examination has been carried on by J. H. Torrey, of Scranton, who is representing another company before the commission, and who had been asked to take care of the interests of G. B. Markle & Co. as best he could. Much surprise has been expressed that the company has not made greater efforts to refute some of the seemingly damaging testimony that has been presented. It is expected, however, that the company will do so later.

The attorneys for the large coal company have nothing to say regarding the character of the testimony being presented, but those representing the miners are well pleased.

Mrs. Kate Burns, of Jeddo, was one of the witnesses called to the stand, and told how she and her two boys worked 13 years to pay off an accumulated house rent and coal bill due to the Markle company. She was examined by Lawyer Darrow, and in answer to his questions said her husband was an engineer inside the Markle mines. The husband was killed under ground, leaving her with four children, the eldest of whom was a boy of eight years. The company never offered her a penny, but the employes gave her about $180 to defray the funeral expenses. After her husband had been killed she moved from her four room house into one containing only two rooms, one room above the other, and for the next six years she struggled as best she could to get along.

She took in washing, scrubbed for the neighbors, and once in a while she was given the cleaning of the offices of the Markle company. During these six years, she said, she kept her children at school, and when the eldest child was 14 years old she sent him to the mines to help earn the daily bread. At the end of the first month the lad brought home his wage statement, showing that the mother owed $396 for back rent. The boy's wages for the month had been taken off the bill and he came home empty handed. She submitted to this and in the course of time her next boy was old enough to help earn a living and he, too, was sent to the colliery. Like the older brother, the second boy received no pay, his earnings being deducted for rent. The tears of the mother on the witness stand were by this time welling up and when she added that the money she earned for cleaning the Markle offices was never given her, but was kept by the company for rent, the commissioners looked at one another in surprise. She said it took the three of them 13 years to make up the debt, the mother's earnings from neighbors being the principal contribution toward the maintenance of the family. The debt was cleared last August. During the six years from the time her husband was killed until the time when the first boy went to work the company never asked her for rent.

Test Washington Hemlock in Manila.

Washington, Dec. 11. — On recommendation of Senator Foster, the war department has ordered that samples of Washington hemlock timber be carried to Manila aboard the transport Dix, now loading at Tacoma, to be thoroughly tested by forestry and quartermaster officers to determine its resistance to attacks from ants and its ability to stand the weather. These tests are intended to show whether or not this lumber is suited for construction purposes in the Philippines.

Barrett Not the Man.

Washington, Dec. 11.—During a call on Secretary Hay the Japanese minister, Kogoro Takahira, diplomatically but firmly intimated that the appointment of John Barrett as minister to Japan would not be as pleasing to the imperial government at Tokio as that of some other man. No formal protest was filed against Barrett's appointment, but the statements of the Japanese minister were such as to leave no room for doubt as to his meaning.

Fatal Wreck on the Santa Fe.

Los Angeles, Dec. 11.—Peter Peterson, a Santa Fe engineer, was instantly killed and two firemen were seriously injured in a head-on freight collision on the Santa Fe near Peach Springs, Ariz., yesterday. Both engines were wrecked and several freight cars were mashed. Only meager details of the wreck are obtainable.

TUMULT IN CARACAS.

British and Germans Arrested, Houses Stoned, Flags Burned.

Willemstadt, Curacao, Dec. 12.—There was a great patriotic demonstration in Caracas last night when the news arrived that the British and German warships had seized the Venezuelan war vessels at La Guayra. Crowds quickly gathered and paraded the streets of the capital, displaying banners and singing patriotic songs. Violent speeches were delivered at various points. The populace marched to the palace of President Castro, who addressed them. The mob then moved on to the German legation, shouting:

"Death to the Germans!"

The windows were shattered with stones and attempts made to force the doors, but the latter resisted these efforts, and Madame von Pilgrim-Baltazi, the wife of the German charge, who has been ill in bed for the past two months, and therefore could not leave Caracas with her husband, was thus saved from violence. The crowd then marched to the German consulate and the residence of Dr. Koehler, again stoning the windows and attempting to force an entrance. The police made no effort to disperse the demonstration.

The excitement was still intense when, at 10 o'clock tonight, the government ordered the arrest of all German and English residents. One hour later 125 persons prominent in commercial and social life were crowded together in the police station. All the British residents were arrested except Albert A. Cherry, of the Venezuelan Central railway, and W. W. Wallace, manager of the telephone company, who escaped to a place of safety. Ninety-seven German residents were arrested, among them the German consul, Valentine Blohm, and Herr Knop, manager of the German Central railroad. Herr Simmross, chancellor of the German legation, was met by the police near Bolivar square and arrested.

Amid cries of "Death to the Germans!" and "Down with the foreigners!" the populace directed its way to the German residential quarter and gathered outside the Hotel Klindt and the German club, vociferating and uttering insults. The Belgian charge, F. S. Goffart, was arrested by mistake for a German because of his fair complexion. In spite of his vigorous protests, he was taken to the police station, but was released 10 minutes later.

On learning these incidents, United States Minister Bowen and Secretary W. W. Russell went at once to President Castro, and after a long conference succeeded in obtaining the release of Dr. Koehler, Madame von Pilgrim-Baltazzi's physician, and Consul Valentine Blohm. Minister Bowen obtained the official authorization of the Venezuelan government to represent German and British interests during the imbroglio.

The government has placed an embargo on the British railroad to La Guayra and the German Central railroad from Caracas to Valencia.

The populace is still greatly excited, and the situation is regarded as critical. The British and German flags have been publicly burned.

HAWAII NEEDS JAPANESE.

Protest Against Educational Test Provided in Immigration Bill.

Washington, Dec. 12. — The senate committee on immigration yesterday continued its hearing on the immigration bill, the first witness being William Hayward, representing the Hawaiian Sugar Planters' association and the chamber of commerce of Honolulu. Mr. Hayward's objections were directed solely to the educational test requirements of the bill. This test, he said, would keep out of Hawaii the only labor it can obtain, and in time would produce financial ruin. The Hawaiian planters have tried for years, he said, at great expense to get white labor to work in the fields, but without success. Japan is now the only country from which labor can be obtained, and the educational test would keep out all the Japanese.

Colonel Joseph Smolinski, representing the Polish-American Alliance, also spoke against the educational test. He said there are almost 5,000,000 Slavs in the United States, and declared that many Poles who would make excellent citizens would be kept out by educational tests, and their aspirations for freedom be stifled.

A. P. Anderson, representing the American Line steamship company, took exception to the amendments recently made to the bill imposing fines on transportation companies for bringing in diseased aliens.

Sulphur Caught Fire.

Bridgeport, Conn., Dec. 12.—By the ignition of a package of sulphur in a man's lodging house here early today, the occupants of the place narrowly escaped death from suffocation. The fumes of the burning stuff filled the house, overcoming many of the lodgers. The police managed to grope their way through the smoke and opened windows, after which the unconscious men were carried into the open air, where all were revived. It is not known how the sulphur became ignited.

Safe-Robbers at Pocatello.

Pocatello, Idaho, Dec. 12.—The safe in the Western Lumber company's office was blown up by burglars early this morning with nitroglycerine. The burglars secured about $50 in money and $75 in checks. The Studebaker manufacturing company's office and the Bistline company's office were also entered, but as the safes at both places were open and contained no money nothing was secured nor any damage done at either place.

Gold for Mexico.

Mexico City, Dec. 8.—It is reiterated that a powerful New York syndicate is disposed to furnish the government with sufficient gold to establish firmly a gold standard here. The sum named is $50,000,000. Some bankers think half the amount would be ample. There is a strong sentiment for retaining the silver dollars, although giving them a nominal value.

DO IT NOW.

Wise Bros., the Famous Portland Dentists, Advise People Not to Neglect the Teeth.

"Do it now," said Dr. W. A. Wise, the great dentist of the Failing building, Portland, Or., the other day speaking of getting one's teeth attended to.

The doctor used the widely famous saying of the late Rev. Dr. Maltbie V. Babcock, who put all fashionable New York in a fever of immediate intention to do right by simply repeating his sound advice to always "do it now." when anyone thought of performing a good act.

"The many obstacles that long prevented people from taking proper care of their teeth have been almost entirely removed by modern methods," continued Dr. Wise. "The expense is very moderate. The pain is absolutely nothing. Prosperity reigns everywhere and there is scarcely anyone too poor to afford having bad teeth extracted and serviceable new ones put in. False teeth, as we make them, cannot be told from natural ones, and the wearer can eat about as well as ever after a little practice. Everybody with good teeth should offer up a prayer of thankfulness and go immediately to a good dentist and have the teeth examined so as to be sure there are no beginnings of decay apparent. Take the troubles at their inception and only a little work is necessary. And at all events, no matter how far teeth troubles have gone, go immediately and once have your teeth put in perfect order. After that it is an easy matter to watch them and keep them permanently in good order.

"The whole sermon is well summed in Dr. Babcock's words 'do it now.'

"We claim that there are no facilities for dental work in the Northwest superior to what we offer at our offices in the Failing building, Portland, Or. We have thousands of patients and are ready to welcome thousands more."
