That Throbbing Headache
Would quickly leave you, if you
used Dr. King's New Life Pills.
Thousands of sufferers have proved
their matchless merit for sick and
nervous headaches. They make
pure blood and build up your health.
Only 25 cents, money back if not
cured. Sold by E. C. Peery, drug-
gist.

Reduced Summer Excursion Rates.

The Denver & Rio Grande popu-
larly known as the "Scenic Line of
the World," has announced greatly
reduced round-trip rates from Pacific
Coast points for the benefit of teach-
ers who will spend their vacation in
the East, and of delegates to all the
prominent Conventions.—N. E. A.,
at Boston; A. O. U. W., at St. Paul;
B. P. O. E., at Baltimore; Woodmen
of America at Indianapolis; Eagles,
at New York; Myrtle Societies at
St. Louis; Springs, K. of P., at Louis-
ville, and F. P. A., at Indianapolis.
Tickets at the reduced rates will be
based on one fare for the round
trip, but will be sold only on certain
days. These tickets will carry stop-
over privileges on the going trip,
giving passengers an opportunity to
visit Salt Lake City, Glenwood
Springs, Colorado Springs and Den-
ver; and will be good to return any
time within ninety (90) days. Pas-
sengers going via the Denver & Rio
Grande are given the privilege of
returning via a different route.
For the rate to the point you wish
to go, and for dates of sale, and other
particulars, as well as for illustrated
pamphlets, write
W. C. McBRIDE, General Agent,
124 Third St., Portland, Or.

est you. Your satisfaction, as
always, absolutely guaranteed.

Bickner Bros.

Chamberlain's Colic, Cholera and Di-
arrhoea Remedy

Is everywhere recognized as the one
remedy that can always be depend-
ed upon and that is "least to take."
It is especially valuable for summer
diarrhoea in children and is undoubt-
edly the means of saving the lives of
a great many children each year.
For sale by all dealers.

THREW AWAY
HIS CRUTCHES.

A Southern Pacific Railroad Engineer
Joins the Long List of Patients
Cured by Dr. Darrin.

—Albany Democrat.
Portland, Ore.—I hold it to be a
duty as well as a pleasure to make
known, through the press, that
which of all other things is most es-
sential, viz: the way to cure pain
and sickness. I was confined to my
room with sciatic rheumatism, kid-
ney trouble, inflammation of neck
and bladder, general indigestion.
Could not sleep more than an hour
at a time. All means I tried proved
unavailing. I was prompted to visit
Dr. Darrin through the advice of
my friends, who had been cured by
him, though I must say that I had
little faith that electricity would
cure me. I came to the doctor on
crutches. Two weeks' treatment
has cured me. I have thrown
away my crutches, and my other
complaints have all disappeared, so
I can take command of my engine.
I will answer all questions by letter
or in person at 400 Commercial street,
East Portland.
W. HAYS.

Mrs. Easton's Card.
Roseburg, Or.—Dr. Darrin: Please
use my name as among the cured by
you six years ago. I had been afflicted
with granulated eyelids all my
life. The eye lashes were all gone,
and grew back naturally after the
cure of the eyes. I was almost to-
tally blind, and had to be led to your
office. I have been perfectly cured
for six years.
MRS. H. EASTON.
Discharging Eyes Cured.

John A. Eggers, of Roseburg, Or.,
writes: "The discharge from my
ears has stopped and my catarrh is
cured. Many cases are coming from
our section."
Dr. Darrin's Place of Business.

Dr. Darrin is located at the Revere
Hotel until Aug. 1, and will give
free examination to all. 10 to 5 or 7
to 8 daily.

DR. DARRIN'S
TREATMENT.

STARTLING ILLUSTRATION OF
WHAT CAN BE ACCOMPLISHED
BY ELECTRICITY.

This is the First Visit of the Head of
the Firm of Drs. Darrin to This
City.

—Albany Herald.
The philosophy of his treatment
may be briefly stated thus: Force is
spirit in motion. Vital force is or-
ganic motion, or the proper move-
ment of organized particles as they
move to and from the human system.
Disease, in a word, is obstruction—
the result of an impaired vital force,
and it is at least accompanied if not
caused, by deranged organic motion.
These derangements can only be
effected by calling in the aid of the
electro-magnetic or vital forces,
which are concerned in all organic
changes. So powerful is this in-
fluence, that persons who have
many years suffered, have been
restored to health in an almost in-
credible space of time. Dr. Darrin's sys-
tem will not restore a lost member
of the body, or perform other impos-
sibilities, but it will, in a majority
of cases, give relief where other
remedies have failed. The practice
is based on the most strict laws of
science, and is in harmony with all
natural laws. Physicians of every
practice not only acknowledge this
power, but receive the treatment for
themselves and their families, as
well as recommend the treatment to
their patients.

A Wonderful Invention.
It is interesting to note that for-
tunes are frequently made by the
invention of articles of minor im-
portance. Many of the most popu-
lar devices are those designed to
benefit the people and meet popular
conditions, and one of the most in-
teresting of these that has ever been
invented is the Dr. White Electric
Comb, patented Jan. 1, 1900. These
wonderful combs positively cure
dandruff, hair falling out, sick
and nervous headaches, and when used
in connection with Dr. White's
electric Hair Brush are positively
guaranteed to make straight hair
early in 25 days' time. Thousands
of these electric combs have been
sold in the various cities of the
Union, and the demand is constant-
ly increasing. Our agents are rapid-
ly becoming rich selling it.

comb. They positively sell on
sight. Send for sample. Non-size
3c, ladies' 5c—half price while we
are introducing them. See Want
Column of this paper. The Dr.
White Electric Comb Co., Decatur,
Ill.

*** ALL GIVE HIM THE ROAD.**
One Driver for Whom Every Other
Yamander on the City Streets
Quickly Makes Way.

Perennial in his power of attraction,
the city's streets on the way to a fire,
and it fascinates all. And every driver and
every motorman, every man handling
anything on wheels gives the fireman
the right of way and he does so sponta-
neously and gladly, says the New
York Sun.

And often many drivers hold up all
at once to give the driver of the fire
engine his choice of ways, as they
would where two streets cross, and
they do this before they see the en-
gine at all. But they know it's coming
and they hear its whistle.

Here was an engine coming along a
cross street to Broadway, while a
calling. At the first note of it every
motorman or driver who chanced at
the moment to be near the junction of
Broadway and this street, stopped
short, leaving the central space unoc-
cupied, and leaving clear channels
away from it in every direction.
Some of these drivers could know
which way the fire driver would want
to turn when he got to the corner, so
they all stopped, to give him a free
road in whichever way he wanted to
go, and when he had come and gone
dashing round the corner, they all
started on again on their several ways.
But so far as they could they had given
the whole path to him.

AUTOMOBILE SEA SCOUTS.
A Suggestion Which Might Be Adopted
by Naval Powers to Their
Advantage.

As military motor-bicycles have al-
ready proved themselves to be of
value in scouting, it is probable that
in nearly every civilized country they
will be largely used in future land
warfare. Why, if the fast land scout
prove so useful, should not the navy
adopt the same methods? A boat, 60
feet long, with two 25-horse power
engines, built to carry 200 men,
four persons and to be capable of con-
siderable speed, would be a most use-
ful addition to a battleship of a fleet,
says the London Star. The ordinary
torpedo boat is too long and draws too
much water for scouting near shore or
in shallow water, but a launch might
be made to draw less than three feet
of water, and yet have a speed of up-
wards of 20 knots. There would be no
funnel or smoke to attract the notice
of the enemy, and with underwater
exhaust the boat might be made al-
most silent. If built low in the water,
or with the power of semi-submergence,
it would be difficult to hit. Probably
such a craft would be more useful
than anything yet invented in the way
of a scout for sea purposes.

MOUNTAIN PEAK MAY FALL.
Tourists Are in Great Danger from
Threatening Mountain Top
in the Alps.

Although it has been rumored
throughout the Alpine region for
some time that the Aletsch—the great
mountain peak which rears its high
snow-capped head above the great
valley of the Rhone—was in a
more or less shaky condition, no one
expected to hear that there was any
danger of its falling. Now, however,
it is definitely stated that the Aletsch
is on the point of splitting in two,
and may come thundering down almost
any time, says a report from Neu-
châtel, Switzerland.
Damage enough will be done if the
famous peak does fall in its case, but
it is to be hoped that the crash will
come before the next tourist season
begins, for the Gerni, above which
the Aletsch rises, is a greater
extent than any other Alpine peak.
The inhabitants of the region can im-
agine what will be the result if the
Aletsch should come crashing down,
having experienced an occurrence
on a smaller scale when glaciers
from this particular peak have de-
scended upon them. The last one fell
in September, 1895, and many pos-
sibly were killed.

A CHICAGO "QUICK LUNCH."
It Took Only an Hour, But the Chi-
cagoans Must Have Been "Jook-
ing" the New Yorkers.

"Where can we get a quick lunch?"
asked one of the official stenographers
of the National Civic Federation who
came on from Chicago to report the
proceedings of the executive commit-
tee of the industrial department of
that organization, reports the New
York Times.

Before the reporter to whom the
question was addressed could tell of
the neighboring "beef-and-veal" places
which met his idea of a "quick lunch,"
the Chicago stenographer asked how
far it was to the "beef-and-veal" place
where a New Yorker would not go un-
less he had several dollars to spare for
luncheon and a couple of hours to de-
vote to gastronomic delights.

The stenographers compromised on
one of the best downtown restau-
rants.
"We had a good, quick lunch," said
one of the stenographers on their re-
turn. "And it only took us an hour."
"Do you call that a 'quick lunch' in
Chicago?" asked the reporter. "Any-
thing over 15 minutes we call a dinner
in New York."

LAND FOR SALE.

210 acres 4 miles east of Scio, 70 acres
in cultivation, balance pasture, brush,
and some timber; 2 houses, 2 barns, 2
hog lots, 1 hay barn, 10 acres

and some timber, good buildings, or-
chard, price \$4500.

We naturally turn our
attention at this time of
year to our boys

The boy needs a new suit of clothing—of up-to-date
Clothing—not something that was bought five or six
years ago that is dear at any price. We are not
closing out clothing, we are getting in boys clothing
almost every day. We carry strictly up-to-date
clothing and will mail you our catalogue of up-to-date
clothing. If you should not receive one of these
books call or drop us a card to that effect. These
books will not cost you a cent.

Special Attention
Is Called to Our Line of Ladies Shirt Waists.
July is almost here, and not to have a nice shirt waist
or two for special occasions is like not having an
extra pair of shoes for Sunday. We have them both
—shirt waists and shoes. Nice shirt waists from
35c to \$2 and \$3.

SHOES

Star 5 Star Shoes are so nicely made that you get such good
service out of them that after wearing them for months and some-
times years, you don't want to have them mended. In case you
wish to stay with them awhile longer, like an old friend, you can
have them mended for a few cents and then be away ahead when
you consider the first price—often times \$1 to \$2 more of same
quality of shoes of other brands.

G. D. TROTTER, Stayton.
