Don't attempt to ask the editor to write up or rebuke every evil in the town or community, says an exchange. But when once convinced that such duties need attending to, write an article for your paper and sign your name to it for publication. The man who is too big a coward to write an article for his paper is the man who will stand on the street corner and talk about the cowardice of the editor.

M. N. Richardson was in our midst a short time this week looking after the interests of the late Irving Granite Co., of Portland. He erected two very neat monuments in the Masonic cemetery, one of which J. A. Bilyeu ordered for the grave of his father and mother, two well known pioneers, and the other was ordered by F. P. DeVaney and was placed at the grave of his wife. He went from here to Lebanon where he has some work to put up.

Governor Chamberlain on Aug. 7 granted a full pardon in favor of Lee L. Welch, of Douglas County, who was serving a three years' sentence for the crime of rape, committed in January, 1902. The reason for the pardon is that Welch was only technically guilty under the statute. The girl upon whom the offense was committed was under 16 years of age and was an inmate of a house of prostitution. The pardon states that Welch has since been efficiently punished for lewd cohabitation.

Titled male foreigners are not likely to regard the United States as such a Klondike hereafter, if the suit of Baroness Halkett, the daughter of a New York multi-millionaire, to recover the dowry settled upon her husband by her parents is successful. No longer will they wed American girls, then mistreat them so they are compelled to seek divorce, and live in luxury on the gold taken across the waters when settling for home. Baroness Halkett has engaged the most eminent legal talent in London, and has more than ample means to fight the case, the outcome of which is eagerly awaited by many American wives all over Europe. The success of Baroness Halkett would mean the beginning of similar suits, not only in England, but in France, Germany, Italy, Austria and Russia.

COMMERCIAL GOES WESTWARD.

Having of These Terms and Trade Through the Western Hemisphere.

The European mails and passengers already go from London to eastern Asia by way of Canada, because it is shorter, and there is a saving of ten days to time. The India mail goes by cheap freight traffic from Europe to Asia are the tolls through the Suez canal, the size of ships that can pass the Suez canal, the cost of coal along the route and the distance, says the Engineering Magazine.

Tolls may be abolished, but this is not likely. It will take years to deepen the canal if this project should be advocated. The cost of coal along the route, as well as the distance, will always be a serious drawback. There is abundant and cheap coal in direct traffic from the Atlantic seaboard, at Puget sound, and all along the line of the northern route, and there are an unlimited number of empty freight cars west bound. By building the largest ships in the world, even though they run under the more expensive American register, by filling the west-bound cars at a rate little more than cost of handling, Mr. Hill knows that he can turn the export trade with western Asia from its 300-year-old way past India to the direct Pacific sea route past Alaska.

A Self-Protecting Envelope.

An American has invented an envelope which records of itself any attempt to tamper with its contents. The flap is imbued with some chemical composition which, when operated upon by a dampening process or any other means of penetrating to its inclosure, records the transaction by causing the words "Attempt to open" to appear. It is thought that the inventive will think twice before pursuing their researches in face of such an invention.

WHY DR. DARRIN DOES NOT HIDE HIS LIGHT UNDER A BUSH.

—Albany Democrat.

Those who search the Scripture will find therein words advising mankind not to make a practice of hiding lights under a bushel.

We do not know that it was from studying the Bible that Dr. Darrin got the idea of advertising, but we do know that since he has resided in Albany the doctor has not been afraid to use printers ink.

Experience has proven to the doctor that in no other way can the afflicted learn so quickly that there is a present opportunity to be healed, that chronic cases can be cured; that new life and energy can be imparted to those within whose breasts hope of health had almost ceased to exist; that the worthy poor can be treated free; that all others can receive treatment at a price to accommodate their means at his office in the Bevere House.

A Grateful Patient.

To the editor: For ten years I have been afflicted with ulcerated catarrh of the head and throat and bleeding of the nose. I found no relief until I consulted Dr. Darrin in Salem one year ago. His treatment by electricity and medicine has cured me. I write this that others similarly afflicted may avail themselves of Dr. Darrin's skill while he is in Albany. I reside at Waterloo, Or., and will gladly tell any particulars by letter or in person.

MRS. NELLIE DEMPSEY.

Mrs. C. A. Esteb's little girl, Jefferson, Or., has been cured of discharging ears, dark brown color of the skin from effects of liver and kidney complaint, also diabetes.

Dr. Darrin's Place of Business.

Dr. Darrin can be consulted from 10 to 5 o'clock, 645 1/2, evening 7 to 8, Sunday 10 to 3, at Bevere Hotel until October 1st.

The doctor makes a specialty of all the diseases of the eye, ear, nose and throat, catarrh deafness, bronchitis, lagrippe, heart, liver, bladder and kidney diseases, or those who suffer from spathy or indifference also genito-urinary and skin diseases in either sex, such as blood taint, venereal weakness and lost vigor, varicoles and stricture.

All curable chronic diseases treated at \$5 a week, or in that proportion of time as the case may require. No case published except by permission of the patient. All business relations with Dr. Darrin strictly confidential. Electrical appliances furnished. One visit is desirable, though many cases can be treated by home treatment by writing symptoms.

WHAT BEECHER SAID.

This Eminent Divine Upholds the Advertising Doctor Whose Work Becomes Known.

—Albany Herald.

The most eminent doctor, the late Rev. Henry Ward Beecher, publicly advocated the advertising doctor, as he once stated in the following words:

"I am glad that the doctor cured him. I am glad that the doctor put it into the paper that he could cure him. And if any doctor is certain that he can cure such diseases and don't put it into the paper, I am sorry. What a pity it would have been had this doctor come to town with his health of science and experience, and gone away leaving him uncured. What a pity it would have been if he had been so prejudiced against advertising as to read the responsible certificates of the doctor and give him the go-by—quack! What are newspapers for if not to circulate information? What more valuable information can a newspaper give than to tell a sick man where he can be cured? If a man has devoted his life and labor to the study of a special class of diseases, the necessity of his saying so becomes all the more pressing. His duty to advertise becomes imperative. A really able man, whatever his gifts, makes a mistake if he fails to use those gifts through want of advertising."

The above extract from an able article of the Rev. Mr. Beecher embodies a sound view on the subject of advertising. Suppose Dr. Darrin had come to the city and not advertised, who would know of his presence? Since Dr. Darrin has been in Albany he has relieved more agony and suffering than tongue can tell. His testimonials have substantiated his cures. The fact that his offices at the Bevere Hotel are crowded at the greater part of the time and that few go away dissatisfied, is pretty good evidence of his success.

The editor of this paper is personally acquainted with many of the people named as cured by Dr. Darrin.
