EVENTS OF THE DAY

GATHERED FROM ALL PARTS OF THE
TWO HEMISPHERES.

Comprehensive Review of the Important
Happenings of the Past Week,
Presented in Condensed Form, Most
Likely to Prove Interesting to Our
Many Readers.

King Edward of England, has celebrated his sixty-second birthday.
President Roosevelt has formally
asked Senator Hanna to manage his
campaign.

A bill asking statehood for New
Mexico is No. 1 on the calendar in
the house.

The Italian minister of finance committed suicide because he was accused of corruption.

Pope Pius X has held his first consistory and named two cardinals, but neither of them are from America.

Emperor William, of Germany, underwent a successful operation for the removal of a tumor from his throat.

A diplomatic agent of the new Panama republic has written Senator Morgan enlisting his support for the Panama canal.

John Mitchell, president of the Mineworkers' union, is said to be slated for a cabinet position. He denies the report.

Colorado miners have gone on a strike.

The United States battleship Maine has been sent to Colon.

Russo-Japanese conflict is growing more and more remote.

St. Louis jury in the bribery case of State Senator Farris, is unable to agree.

Democrats have selected John S. Williams, of Mississippi, as their leader.

The republican house caucus has unanimously selected Joseph G. Cannon as speaker.

Great Britain was surprised at the quick recognition given the Colombian revolutionists by the United States.

Colombian troops will march on Colon and Panama despite the recognition of the new republic by the United States.

Howard Haynie, convicted of highway robbery by a Seattle court, has been sentenced to six years in the Walla Walla penitentiary.

Governor Chamberlain will call a special session of the Oregon legislature if a majority of the members will pledge themselves to enact no laws other than remedial tax levy.

The Maryland democratic plurality is 12,375.

Representative Herman is working for a place on the river and harbor committee.

It is said King Peter, of Serbia, has announced his intention of abdicating in favor of his son.

All European powers have endorsed the attitude of the United States in the Colombian matter.

Colombia says she will be able to put down the revolution if the United States keeps her hands off.

Senate and house leaders can't agree as to the method of putting the Cuban reciprocity treaty into effect.

There are 2,000,000 sheep on the Oregon ranges. The worth of this year's wool output is placed at \$2,550,000.

Governor Chamberlain has not yet decided whether or not he will call an extra session of the legislature to remedy the defects in the Oregon tax law.

Z. F. Clark, a Portland man who has invented a steel hardening process that will make armor plate bullet proof, has been offered \$100,000 for his patent by New York capitalists.

The Dreyfus case is to be again reviewed.

Two more Americans have been assassinated on the streets of London.

Senate and house leaders are bound to crash over Cuban reciprocity programme.

After an interval of a month the Venezuelan arbitration case has been resumed.

Cable cars at Kansas City, Kan., collided in a fog. One person was killed and 51 injured.

The senate committee will stand by Smoot, the Utah senator, despite numerous protests.

The San Francisco street railway arbitrators have rendered a decision granting an increase in wages.

Six men were killed and ten injured by an explosion at the United States naval arsenal at Iona Island, N. Y.

Authorities in Wyoming may clash over the Indian trouble. The Indian agents want those under arrest released, but the governor refuses to do so.

The epidemic of yellow fever in Texas continues to spread.

Alexander J. Dowle, the Zionist leader, endorses Roosevelt.

During October there was coined at the various mints of the United States \$3,472,120.

T. A. Wood, of Portland, has been discharged from practice before the pension bureau.

Congressman Jones, of Washington, will introduce a bill giving Alaska a temporary government.

The case of W. H. Macken, charged with postal fraud, has been set for November 23.

CAN BE NO WAR.

America Proposes to Protect New Republic of Panama.

Washington, Nov. 11.—When American war vessels were recently ordered to Isthmian waters to protect American and other interests in Panama specific instructions were given by direction of the president, that the American naval force should maintain peace and prevent bloodshed on the isthmus. These instructions were issued in the broad sense, for it was the original, and is the present, intention of this government to prevent any conflict between the government of Colombia and the newly established republic of Panama.

The administration, in carrying out this policy, will prevent the landing at Colon, as well as at Panama, of any Colombian troops that may be sent by the latter government to subvert the Panama republic. Having once recognized the new republic before the world, the United States intends to stand by and prevent encroachments by Colombia as well as by other nations.

Assistant Secretary of State Loomis, Secretary Moody and Admiral Taylor, after a conference this evening, instructed the commanders of American ships in Panama waters directing them in the event the Colombian government attempted to embark troops at any of its ports with a view to making an attack upon the New Panama republic, that the American forces should prevent such embarkation.

Secretaries Root and Hay had a conference today, presumably in regard to the latest developments in the Isthmian affair. As he was returning to his home Secretary Root was asked the direct question as to whether the United States troops would be ordered to the Isthmus of Panama. He replied that while such a thing was possible, it was extremely improbable. He added the fact that in answer to a similar question in New York when he really knew very little about the situation, and he made it now for the reason that he knew nothing more of an intention to employ troops on the isthmus.

CUTTING DOWN GREAT TREES.

Government Urged to Buy Land From California Owners.

Washington, Nov. 11.—In his annual report Captain Charles Young, acting superintendent of the Sequoia and General Grant National Parks, California, in which many giant trees are located, urges the acquisition by the government of the land in those parks, now owned by private individuals.

Now the records are arranged so that many large tracts thus owned, and after waiting in vain for years for the government to purchase their property the owners are beginning to sell off the large timber. Captain Young says:

"The owners have cut them by the wholesale, and put the lumber upon the market, and where once was a fine forest of magnificent giants, there now is but devastation and ruin in the shape of stumps and sawdust piles. It is but just to the owners and for the best interest of the government that the purchase of these patented lands within the parks be authorized by congress if the parks are to be continued."

He says the lands can be secured for reasonable prices. Captain Young says game is increasing.

TIED UP BY STRIKE.

Coal Mines of Southern Colorado Out of Working Order.

Denver, Nov. 11.—More than 10,000 coal miners in Colorado went on strike today for an eight-hour day, increase in wages and other concessions. The strike was ordered by the National executive officers of the United Mineworkers of America.

The miners refused to confer with union representatives concerning the demands of the men. Of the idle men, 6,000 are in the southern coal fields, 2,000 in the northern and 1,800 in Fremont county. One hundred mines have been closed down.

A few independent properties in the northern coal fields and elsewhere in the district are still working. The announcement comes that 600 have gone out in Colfax county, N. M. The others in that territory are now negotiating with the mineowners.

To Guard German Interests.

New York, Nov. 11.—Upon the report of the mail steamer Athen, which has reached here from Santo Domingo, says a Herald dispatch from St. Thomas, D. W. I., Commodore Sheder, of the German squadron at that port, has sent two ships, the Gazelle and the Panther, to Santo Domingo to safeguard German interests. In consequence of this action, the Athen returned to Santo Domingo to discharge her cargo at ports she had been prevented from entering by Dominican gunboats. It is said the German commander has determined to ignore the blockade.

Truth Not Half Told.

Laredo, Texas, Nov. 11.—Dr. D. B. Murray, the international yellow fever expert, just returned from a trip as far as Saltino, said tonight that conditions in Monterey, if judged by other cities where yellow fever has been epidemic, indicated no less than 25,000 cases this year, with the mortality rate placed at 5 per cent. The deaths have been greatly in excess of the number reported in the official bulletins issued in this city and fully 500 cases exist at the present time.

Contention of America.

The Hague, Nov. 11.—In the Venezuelan arbitration case today, Judge Penfield, in behalf of the United States, said the United States was in different to the question of the justice of the war, but the United States maintains that the protocol should not establish any preference in favor of the plucking powers.

HAPPENINGS HERE IN OREGON

HOLD ON TO YOUR PRUNES.

Advice Given to Growers by ex-Commissioner Reynolds.

Salem—"Prunegrowers who have not already sold their fruit should hold it for a price that will give them a fair profit," says Lloyd T. Reynolds, formerly horticultural commissioner for the second district.

"Dealers are around offering to pay a basis price of 1 1/2 cents. Probably a majority of the prune crop this year will average in the 50-60 to-the-pound size, and at this basis growers would get only 3 cents a pound for their fruit. Since the cost of labor and fuel has advanced, 3 cents a pound is about the actual cost of production. Growers are cutting their own throats when they sell at such figures."

"The condition of the fruit market does not warrant such low prices. France had a very short crop and is buying prunes heavily in this country. The dispatches from New York tell us that the packing houses in this country have had difficulty in filling the orders as fast as they are received. The apple crop of the United States is 1,000,000 barrels short and prices for that fruit will be high. Canned goods have advanced very materially. In every view of the situation I can see no reason why prunegrowers should not receive a fair price, if they will ask for it."

It seems to me to be certain that all the prunes will be wanted and the proper care for the growers is to wait until a living price is offered. I do not advise holding for speculative prices, but for a living price. Oregon prunes this year are of first-class quality and they give satisfaction wherever sold.

LIEU LAND REJECTIONS LARGE

Land Agent West Puts Records in Order and Gathers Figures.

Salem—State Land Agent Oswald West has just completed the classification and filing of the correspondence and papers relating to state lieu land selections in Oregon. Heretofore the records have been in confusion and one seeking information regarding any particular selection would have difficulty in finding it. Now the records are arranged so that any desired information may be had at a moment's notice. The list shows that the lieu land selections upon mineral base, which have been passed upon by the Federal Land Department within the past year or two aggregate 74,000 acres, of which about 4,000 acres have been clear listed and about 70,000 have been rejected, or is still pending with the outlook poor for its approval.

Pendleton Owns Its First Park.

Pendleton—Pendleton is now the owner of a city park. For years such a move has been agitated, but nothing was done until a week or so ago, when the council bargained for the property in the east part of the city, where the water supply is secured. The money has been paid over and the deeds filed. The land was purchased from Jessie S. Vert, consisting of one entire block, and for which she received \$1500, and four lots from V. Stroble. The city purchased this property to prevent buildings from being erected there.

Release of 171 Mortgages.

Pendleton—The Pendleton savings bank has filed with the county recorder releases of 171 mortgages. This is the biggest bunch of mortgages that has ever been paid off at one time for a number of years. The banking company held these mortgages, principally against farmers, sheep and cattle men. The amount of some of the mortgages was as high as \$16,000, while some of them were as low as \$50. They averaged \$1500, making the total amount paid \$256,500.

Put Up Much Fruit.

Ashland—The Ashland Preserving Company, which has been operating an extensive cannery in this city the present season, will close operations for the year this week. The season has been longer than usual and there have been more people employed than ever before, the average number of operatives being between 40 and 50. Manager Charles Pierce reports that during the four months run the plant has canned 15 tons of Bartlett pears, 21 tons of peaches, 10 tons of string beans and seven tons of blackberries.

Wood \$7 a Cord.

Pendleton—There is a scarcity of wood in Pendleton. This is due to the lack of cars to bring it from the Blue Mountains, from where Pendleton gets her supply. There seems to be plenty of wood at the belt. Prices are exceptionally high. Fir is selling at \$7 per cord and pine at \$6.50. This price is nearly \$1 higher than last year. Coal is selling at \$8 per ton.

Sale of Great Timber Tract.

Astoria—A deed has been filed for record whereby the Oregon & Montana Lumber Company, of Helena, Mont., sells to Samuel McClure, of Stillwater, Wash., 1566.29 acres of timber land in the Lewis and Clark district. The consideration named is \$1000, but it is supposed a much higher price was paid.

Vacancies in Legislature.

Salem—Not only will a special session of the legislature be necessary to cure the defect in the taxation law, but a special election will be necessary to fill several vacancies in the legislature. The vacancies must be filled before the session is held, according to the language of the constitution.

Will Manufacture Staves.

Houlton Will Have a Plant That Will Employ 100 Men.

St. Helens—It is now a settled fact that the Western Coopers Company, composed of Kentucky capitalists, will build a large stave factory at Houlton, on the Northern Pacific railroad, just on the outer edge of the corporate limits of St. Helens. A dozen men are already at work getting camps ready in the woods, where the bolts for the staves will be cut up and split into the usual size.

A factory site has been purchased from W. H. Dolman, at Houlton, which has ample space for switches and side tracks. Options have been secured on several tracts of timber land, and a contract has been entered into with the Oregon Wood Company to float down 800,000 cords of stave bolts annually. Construction work will begin on the factory at once, and the management state that fully one hundred men will be employed in the mill and stave.

This company owns factories in Kentucky, Arkansas, Georgia and at Seattle and Aberdeen, Wash.

Will in Southern Oregon.

Pennsylvania Capitalists Preparing for a Heavy Cut of Timber.

Roseburg—The Kelleher-Skelley Lumber Company has just been incorporated here, for W. J. Kelleher, John K. Skelley and W. H. Sykes has paid up capital of \$50,000. The company has already acquired about 5000 acres of fine timber land on Billy Creek, a few miles west of Yoncalla, in this county.

A sawmill building has already been erected and part of the machinery is now in place. The plant will have a daily capacity of 50,000 feet of lumber to begin with, and will be ready for operation within 30 days. A flume will be put in from the mill to carry the product direct to the Southern Pacific railroad track at Drain, where a lumber yard will also be established.

Looking for Reservoir Sites.

Ashland—H. E. Green and J. E. Reese, of the hydrographic branch of the United States Geological Survey, arrived in Ashland last night from San Francisco. They are in the reconnaissance service and will cross the mountains eastward from here on an extended exploration and investigating trip to locate possible sites for reservoirs for the storage of waters for irrigation purposes. They go to Pelican Bay, Fort Klamath, The Agency, Sprague River Valley, Bly and Bonanza, and their itinerary will take in all the Modoc lava beds and the Honey Lake district.

In the Sugar Beet Fields.

La Grande—The sugar beet factory here has already this season received 10,000 tons of beets, and has worked over 7000 tons, which means 16,000 sacks of sugar. It is expected that about 1000 tons more of beets will be received by the factory this season, and that the run will continue until about November 10. So far the beet harvest has proved a success, although there was a shortage in the crop, the sugar material in the beet was heavier than last year.

October Asylum Report.

Salem—The report of Superintendent J. F. Calbreath, of the State Insane Asylum, for the month of October shows that the general health of the patients is good. The total cost of articles consumed was \$7153.99, and the expenditures for salaries \$3599.10, or a total of \$10,753.09. The average daily enrollment was 1350, making the cost per capita per month \$9.89, and per capita per day 32 cents.

Malheur County Clean-Up.

Baker City—General Manager O. C. Johnson brought in the clean-up of a 60-day run from the Rich Creek placer mine of the Eldorado Mine & Ditch Company, of Malheur county, today. The clean-up amounted to about 800 ounces valued at about \$16,000. R. E. Corburn, of Carroll, Ia., is the principal owner of the diggings.

PORTLAND MARKETS.

Wheat—Walla Walla, 75c; blue-stem, 70c; valley, 75c.
Barley—Feed, \$20 per ton; brewing, \$22; rolled, \$21.
