EVENTS OF THE DAY

GATHERED FROM ALL PARTS OF THE
TWO HEMISPHERES.

Comprehensive Review of the Important
Happenings of the Past Week,
Presented in Condensed Form, Most
Likely to Prove Interesting to Our
Many Readers.

The cruiser Albany has been sent to
Cuba.

Great Britain will send an expedition
to make Tibet respect trade treaties.

Four men, while blasting stumps
near Columbus, Ohio, were blown to
pieces.

Japanese are becoming bitter toward
Great Britain on account of alleged un-
faithfulness in Manchuria.

France has instructed her ambassador
at Washington to receive the minister
from the new Panama republic.

Senator C. H. Dietrich, of Nebraska,
has been indicted by the federal grand
jury at Omaha for selling a postoffice.

Lord Kitchener, commander in chief
of the British army, was thrown from
his horse in Simla and sustained a
broken leg.

The reports of the pension bureau
show that the pensions issued during
the first four months of the present fiscal
year exceeded the same period of
last year by 25 per cent. The pension
issue last year was the largest in 10
years.

Forty people were killed and 23 others
injured in a railway collision near
Kentwood, La.

Rockefeller, Hill and Gould have se-
cured control of the steel trust as part
of a big railroad scheme.

Both sides of the Chicago street car
strike are willing to arbitrate, but will
not make the first advance.

The National W. C. T. U. has started
a fund to carry on the agitation for
ousting Senator Smoot, of Utah.

Diplomats have not confirmed the
movement of Colombian troops on Pan-
ama and there is little fear of invasion.

The president has asked advice from
the heads of departments on preparing
that part of his message dealing with
land reform.

The United States has tendered war-
ships to the Colombian agent and Pan-
ama so they can hold peace conferences
if so they desire.

A caucus of Democratic members of
congress has decided to support the
Cuban reciprocity bill, but will try to
have some amendments made.

During the fiscal year which closed
June 30 there were 3,553 persons killed
and 45,997 injured in railroad wrecks,
against 2,819 killed and 39,800 injured
the year before.

The thirtieth national convention of
the W. C. T. U. is in session at Cincin-
nati.

The Great Northern railway has se-
cured a loan of \$7,290,000 for improve-
ment of the system.

The czar of Russia has wired the
Manchurian viceroy that there must be
no war with Japan.

Representative Jones, of Washing-
ton, has introduced a bill dividing the
state into two judicial districts.

Dispatches from Bogota say Colum-
bia will never recognize the republic of
Panama and will fight to the last.

The Oregon delegation in congress
has asked Roosevelt for his aid in se-
curing the 1905 fair appropriation.

Andrew H. Green, one of New York's
oldest and most remarkable citizens,
has been shot by a negro, who is be-
lieved to be insane.

Chicago street car strikers have been
joined by the firemen. A few cars
are being run with police protection,
but they are carrying no passengers.

Representative Lacey, of Iowa, has
introduced a bill providing that when
any stream shows signs of being over-
fished the secretary is authorized to es-
tablish weekly closed periods during
the fishing season.

Democrats will oppose any canal
treaty negotiated with Panama.

The diplomatic agent of Panama has
been received by President Roosevelt.

The powers have notified Turkey that
she must accept the Macedonian reform
plan at once.

Senator Foster will win his fight for
a place on the committee of commerce
over Mitchell.

Vancouver, B. C., Chinese are work-
ing a new scheme to evade the laws.
Corporations with large capital on
paper are being formed and Celestials
without a penny are now classed as
merchants. This entitles them to go
to China and return as they please.

Rear Admiral Beardslee died of
apoplexy while visiting in Georgia.

The San Dominican republic has
fallen into the hands of the revolu-
tionists.

Senator Mitchell will give a banquet
to all of the Western senators and at
that time explain fully the 1905 ex-
position.

The department of the interior has
withdrawn 2,142,000 acres of land in
the Great Falls, Mont., land district.
The withdrawal is for the purpose of
investigating in connection with a
proposed irrigation scheme.

Columbia has sent general Reyes to
try to make peace with Panama.

PROTEST IS FILED.

Colombia Holds That America Violated
Existing Treaties.

London, Nov. 18.—The Colombian
authorities have cabled to London a
long protest against the United States'
action toward Panama in which they
allege the "main responsibility for the
secession of Panama lies with the
United States government, firstly, by
fomenting the separatist spirit, of which
there seems to be clear evidence; secondly,
by hastily acknowledging the indepen-
dence of the revolted province; and, finally,
by preventing the Colombian govern-
ment from using proper means to repress
the rebellion."

The cable message goes on to say that
President Marroquin has energetically
protested to the United States, and
wishes that his protest should be known
throughout the civilized world. The
president contends that the United
States has infringed article 35 of the
treaty of 1846, which, he asserts, im-
plies the duty on the part of the United
States to help Colombia in maintaining
her sovereignty over the isthmus, and
adds that the "Colombian government
repudiates the assumption that they
have barred the way to carrying out
the canal."

He asserts that since 1835 they have
granted canal privileges to different
people no less than nine times, and
claims that the treaty concluded with
the late General Huilburg, when he
was minister at Bogota, July 18, 1870,
has been ignored at Washington.

After giving the previously stated
reasons for the Colombian senate's fail-
ure to approve the Hay-Herran treaty,
and asserting that the delay in negotia-
tions had not affected the ultimate issue
of the canal project, the protest of Pres-
ident Marroquin points out that Colum-
bia had "constantly endeavored to act
in a friendly manner with the United
States, even asking for the assistance
of the American marines to insure the
transit across the isthmus," says the
rising occurred when the government
was not prepared, having withdrawn
most of its troops when peace was re-
established last year, and concludes:

"The hastiness in recognizing the
new government, which sprung up un-
der the circumstances, is all the more
surprising to the Colombian govern-
ment, as they recollect the energetic
opposition of Washington to the ac-
knowledgment of the belligerency of the
Confederates by the powers during the
Civil war."

CAN SUGAR GAINS.

Washington, Nov. 18.—The depart-
ment of agriculture, in its official crop
report for November, announces that
the indications are that the world has
entered on a new era in the production
of cane sugar. The department quotes
estimates placing the total sugar pro-
duction of the world in the year 1903-4
at 10,425,800 tons of 2,240 pounds each,
including 4,342,800 tons of cane sugar
and 6,083,000 tons of beet sugar, and
says as to cane sugar:

"During the past five years the
world's output of this product has in-
creased from 3,000,000 tons to more than
4,000,000 tons, quantitatively the
greatest increase ever made in any five-
year period in the history of this in-
dustry. Moreover, for the first time in
a half century the ratio of increase in
the world's production of cane sugar
has exceeded that of sugar made from
beets, the percentage of increase in the
former product for the five years being
about that of the latter."

The four years from 1900-01 to
1903-04, inclusive, were each in their
record-breaking years for the pro-
duction of sugar. The previous high
record crop (3,330,000 tons) was that
of 1894-95, the crop made just before
the outbreak of the revolution in the
most important producer—Cuba.

"The high-record crop in the history
of the world's beet sugar production
was that of 1902-03. Since that date
there has been a decline in production
in Europe, amounting in all to about
1,000,000 tons, but the present year's
estimated output still shows a consid-
erable increase over that of five years
ago."

The report says that about 80 per
cent of the cane sugar of the world is
now annually produced in tropical and
semi-tropical islands.

New Lien Land Bill.

Washington, Nov. 18.—In line with
his belief, as repeatedly expressed in
his annual reports, while commissioner
of the general land office, Congressman
Hermann has introduced a bill to
amend the lien land exchange law by
providing that whatever lands within
forest reservations are relinquished to
the government and other vacant sur-
veyed public lands are taken in ex-
change therefor, the lands so selected
must be of approximately the same
character and the same value as the
lands relinquished to the government.

Forty Years a King.

Copenhagen, Nov. 18.—Fetes were
held throughout Denmark today in
honor of the 40th anniversary of King
Christian's accession to the throne, the
population rendering homage to their
aged and beloved sovereign. Thou-
sands of telegrams and addresses of con-
gratulations as well as gifts and flowers
have been received, many of the mes-
sages of congratulation coming from
the United States under cabled instruc-
tions from Washington.

Opening of Wifu.

Peking, Nov. 18.—The demand of the
United States government for the open-
ing of Wifu has been received here
with surprise. The British and Japa-
nese ministers at Seoul on October 17
asked for the opening of Yonagapho.
The foreign minister consented, subject
to the approval of the emperor, which
was withheld.

Marvelous Vein of Gold.

Wolf Creek—E. E. Blalock has
struck a ledge on his mining claim
on Cayote creek which, it is claimed,
assayed \$27,000 per ton. In it he
found a stringer of solid gold 100
feet long and 10 feet wide, from
which he has taken out about \$25,000,
and still continues with the same
width. It is rumored that he placed
a guard over it night and day. The
ledge is said to be wedge shaped,
peaked on top, and widens in depth.

Mining Company Formed.

Roseburg—Articles of incorporation
have been filed by the Gold Mountain
Mining & Smelting Company. The
capital stock is fixed at \$100,000, di-
vided into shares of \$1 each. The
company has a number of claims
near Camas Valley, near the Mar-
tindale mine, which was recently sold
for \$25,000. Assays of ore taken from
near the surface show average values
of \$14 to \$26 per ton.

HAPPENINGS HERE IN OREGON

OREGON IRRIGATION CONVENTION.

Second Session, Held at Pendleton, Full
of Enthusiasm.

Pendleton—"Interest in irrigation
has increased the biblical ten-fold
during the past year," said President
A. H. Devers concerning the session
of the second annual convention of
the Oregon State Irrigation Associa-
tion.

"We had an enthusiastic meeting
in Portland a year ago, but we had a
determined meeting here this year."

Delegates to the number of about
150 were here from all over the state.
Ontario sent a delegation of 25 mem-
bers for the purpose of capturing the
1904 convention. They wore badges
inscribed, "Ontario, 1904." The con-
vention hall was crowded and every
speech brought forth discussion.

President Devers, in his opening ad-
dress said, regarding the attacks of
the press:

"I want to say that, while some of
the papers labeled the association by
saying that they have accepted, but
little, I know that, if it has done
nothing more, it has called the atten-
tion of the government to the fact
that we want irrigation, that we need
irrigation works, and while no pro-
jects are yet completed, I know that
some will be announced soon. Fur-
ther than that, at the last session of
the legislature a resolution was passed
requiring the governor to appoint
a commission to investigate the state
laws on irrigation, riparian rights and
kindred questions, and the governor
has appointed the commission. Fur-
ther than that, the coming together
of people interested in the welfare of
the state, particularly as applied to ir-
rigation, I shall mean as arousing the
people up as to the necessity of ir-
rigation, and that is the most import-
ant thing, and the meeting which we
have today shows that interest is not
lacking."

Other addresses were delivered by
Governor Chamberlain, ex-Governor
Geer, Mayor Halley, Judge Lowell, A.
King Wilson, and Will R. King.

OREGON MINES GAIN.

Output of the Precious Metals on the In-
crease in Our State.

Washington, D. C.—Compared with
other states in the west, and with
Alaska as well, Oregon made a most
creditable showing, proportionately,
with its gold production in 1901, ac-
cording to reports that have been re-
ceived by the director of the mint.

The official report on Oregon's gold
output was prepared by F. A. Wing,
assayer at the government assay of-
fice at Seattle. By way of introduc-
tion Mr. Wing says:

"By a thorough and systematic
method of checking the receipts of
bullion and ores originating in O-
regon, deposited and shipped to the sev-
eral assay offices, mints, smelters and
refineries of the United States and
British Columbia, the output of 1901
was found to be as follows:

Ounces.	Value.
Gold.....88,759	\$1,834,821
Silver.....163,873	211,876

The copper output was valued at
\$4103 and the lead at \$1631, making
a total valuation of \$2,052,433.

There was a gain of \$146,257 in the
output for the year over that of 1900,
notwithstanding the fact that some of
the mines were closed down for part
or all of the year, some for the pur-
pose of installing new sinking plants
or other machinery, some from labor
troubles and some on account of the lack
of ore, and other causes.

The production of 1901 is given as
follows:

Ounces.	Value.
Gold.....88,759	\$1,834,821
Silver.....163,873	211,876
Copper.....170,721	3,416
Lead.....4,145	163

Work on the Bill Nye.

Medford—The owners of the Bill
Nye mine, located on Gall's creek,
about ten miles north of Medford, are
making preparations for mining on a
large scale. A five-stamp mill, hoist-
ing machinery, etc., are being instal-
led. The company has an 80-foot shaft,
a good deal of tunneling and other de-
velopment work on the claim. The
ore is free milling and there are sev-
eral thousand dollars worth of ore in
sight. Superintendent D. R. An-
drus, of this city, left recently for the
mine, to look after the installation of
the new plant.

Machinery for Bohemia.

Cottage Grove—The mining ma-
chinery for the Crystal Consolidated
Mining Company has arrived from the
Union Iron Works, San Francisco,
and was immediately transferred to
tracks of the Oregon & Southeast-
ern Railroad for shipment to Bohem-
ia. This machinery consists of the
latest and most improved pattern in
stamp-milling machinery. When com-
pleted the mill will have a capacity
of 25 tons per day. A high-grade
standard concentrator will be used in
connection with the mill.

Apples of Rogue River.

Ashland—The value of the apple
crop of 1903 in the Rogue river val-
ley is estimated at \$125,000. This
takes into account only the export
crop, which is estimated in quantity
at from 150 to 175 carloads. Central
Point, the shipping point for several
of the large orchards, including Ot-
well Bros., will send out 60 carloads
or more; Medford about an equal
number. Fifteen carloads will go out
from Talent, ten or more from Ash-
land, several from Gold Hill and
Phoenix.

Portland Markets.

Wheat—Walla Walla, 75c; blue-
stem, 70c; valley, 78c.

Barley—Feed, \$20 per ton; brewing,
\$22; rolled, \$21.

Flour—Valley, \$3.75@3.85 per bar-
rel; hard wheat straight, \$3.75@4.10;
hard wheat patents, \$4.20@4.50; gra-
ham, \$3.35@3.75; whole wheat, \$3.55
@4; rye wheat, \$4.50.

Oats—No. 1 white, \$1.07 1/2; gray,
\$1.05 per cental.

Millstuffs—Bran
